The words and expressions used but not defined in this Red Herring Prospectus will have the same meaning as assigned to such terms under the Companies Act, 2013, the Securities and Exchange Board of India Act, 1992 (the “SEBI Act”), the SCRA, SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018 the Depositories Act and the rules and regulations made thereunder.

**CERTAIN CONVENTIONS, PRESENTATION OF FINANCIAL, INDUSTRY AND MARKET DATA AND
CURRENCY OF PRESENTATION**

Certain Conventions

All references to “India” contained in this Red Herring Prospectus are to the Republic of India and its territories and possessions and all references herein to the “Government”, “Indian Government”, “GoI”, “Central Government” or the “State Government” are to the Government of India, central or state, as applicable. All references to the “U.S.”, “USA” or the “United States” are to the United States of America and its territories and possessions.

Unless otherwise specified, any time mentioned in this Red Herring Prospectus is in Indian Standard Time (“IST”). Unless indicated otherwise, all references to a year in this Red Herring Prospectus are to a calendar year.

In this Red Herring Prospectus, unless the context otherwise requires, all references to one gender also refers to another gender and the word “Lac / Lakh” means “one hundred thousand”, the word “million (mn)” means “Ten Lac / Lakh”, the word “Crore” means “ten million” and the word “billion (bn)” means “one hundred crores”. In this Red Herring Prospectus, any discrepancies in any table between total and the sum of the amounts listed are due to rounding-off. All figures in decimals have been rounded off to the second decimal and all percentage figures have been rounded off to two decimal places. In certain instances, (i) the sum or percentage change of such numbers may not conform exactly to the total figure given; and (ii) the sum of the numbers in a column or row in certain tables may not conform exactly to the total figure given for that column or row.

Use of Financial Data

Unless the context requires otherwise, the financial information in this Red Herring Prospectus is derived from our Restated Financial Statements. Unless stated otherwise, the financial data in the Red Herring Prospectus is derived from our Restated Financial Statements prepared for the financial year ended 31st March 2026, 31st March, 2025 and 31st March, 2024 in accordance with Indian GAAP, the Companies Act and SEBI (ICDR) Regulations, 2018 included under Section titled “***Financial Information of the Company***” beginning on page 164 of this Red Herring Prospectus. Our Company’s financial year commences on April 1 of the immediately preceding calendar year and ends on March 31 of that particular calendar year, so all references to a particular financial year or fiscal are to the 12-month period commencing on April 1 of the immediately preceding calendar year and ending on March 31 of that particular calendar year. Unless the context requires otherwise, all references to a year in this Red Herring Prospectus are to a calendar year and references to a Fiscal/Fiscal Year are to the year ended on March 31, of that calendar year.

The degree to which the financial information included in this Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting policies and practices, Indian GAAP, the Companies Act and SEBI ICDR Regulations. Any reliance by persons not familiar with the aforementioned policies and laws on the financial disclosures presented in this Red Herring Prospectus should be limited. There are significant differences between Ind AS, Indian GAAP, U.S. GAAP and IFRS. Our Company does not provide a reconciliation of its financial statements with Indian GAAP, IFRS or U.S. GAAP requirements. Our Company has not attempted to explain those differences or quantify their impact on the financial data included in this Red Herring Prospectus and it is urged that you consult your own advisors regarding such differences and their impact on our financial data. For further details in connection with risks involving differences between Indian GAAP and other accounting principles, see “*Risk Factors - Significant differences exist between Indian GAAP and other accounting principles, such as Ind AS, IFRS and U.S. GAAP, which may be material to investors’ assessments of our financial condition, result of operations and cash flows.*” on page 21 of this Red Herring Prospectus.

Our fiscal year commences on April 1 of every year and ends on March 31st of every next year.

For additional definitions used in this Red Herring Prospectus, see the section “***Definitions and Abbreviations***” on page 1 of this Red Herring Prospectus. In the section titled “***Main Provisions of the Articles of Association***”, on page 299 of the Red Herring Prospectus defined terms have the meaning given to such terms in the Articles of Association of our Company.

Certain Non-GAAP Measures and certain other statistical information relating to our operations and financial performance like EBITDA, EBITDA Margin, PAT Margin, and others, have been included in this Red Herring Prospectus. We compute and disclose such Non-GAAP measures and such other statistical information relating to our operations and financial performance as we consider such information to be useful measures of our business and financial performance. These Non- GAAP measures and other statistical and other information relating to our operations and financial performance may not be computed on the basis of any methodology that is applicable across the industry and therefore may not be comparable to financial measures and statistical information of similar nomenclature that

may be computed and presented by other companies and are not measures of operating performance or liquidity defined by the accounting standards and may not be comparable to similarly titled measures presented by other companies.

Use of Industry & Market Data

Unless stated otherwise, industry and market data and forecast used throughout the Red Herring Prospectus was obtained from internal Company reports, data, websites, Industry publications report as well as Government Publications. Industry publication data and website data generally state that the information contained therein has been obtained from sources believed to be reliable, but that their accuracy and completeness and underlying assumptions are not guaranteed and their reliability cannot be assured.

Although, we believe industry and market data used in the Red Herring Prospectus is reliable, it has not been independently verified by us or the BRLM or any of their affiliates or advisors. Similarly, internal Company reports and data, while believed by us to be reliable, have not been verified by any independent source. There are no standard data gathering methodologies in the industry in which we conduct our business and methodologies and assumptions may vary widely among different market and industry sources.

In accordance with the SEBI (ICDR) Regulations, 2018 the section titled ***“Basis for Offer Price”*** on page 96 of the Red Herring Prospectus includes information relating to our peer group companies. Such information has been derived from publicly available sources, and neither we, nor the BRLM, have independently verified such information.

Currency of Financial Presentation

All references to “Rupees” or “INR” or “Rs.” or “₹” are to Indian Rupees, the official currency of the Republic of India. All references to “US\$” or “USD” are to United States Dollars, the official currency of the United States of America. Except where specified, including in the section titled ***“Industry Overview”*** throughout the Red Herring Prospectus all figures have been expressed in Lakhs.

Any percentage amounts, as set forth in ***“Risk Factors”***, ***“Our Business”***, ***“Management's Discussion and Analysis of Financial Conditions and Results of Operations”*** on page 21, 121 and 216 respectively of this Red Herring Prospectus, unless otherwise indicated, have been calculated based on our restated financial statements prepared in accordance with Indian GAAP.

The Red Herring Prospectus contains conversion of certain US Dollar and other currency amounts into Indian Rupees that have been presented solely to comply with the requirements of the SEBI (ICDR) Regulations, 2018. These conversions should not be construed as a representation that those US Dollar or other currency amounts could have been, or can be converted into Indian Rupees, at any particular rate.

FORWARD LOOKING STATEMENTS

This Red Herring Prospectus includes certain “forward-looking statements”. We have included statements in the Red Herring Prospectus which contain words or phrases such as “will”, “aim”, “is likely to result”, “believe”, “expect”, “will continue”, “anticipate”, “estimate”, “intend”, “plan”, “contemplate”, “seek to”, “future”, “objective”, “goal”, “project”, “should”, “will pursue” and similar expressions or variations of such expressions, that are “forward-looking statements”. However, these are not the exhaustive means of identifying forward looking statements. All forward-looking statements are based on our Company’s current plans, estimates, presumptions and expectations and are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement

All forward-looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. Forward-looking statements reflect our current views with respect to future events and are not a guarantee of future performance. These statements are based on our management’s beliefs and assumptions, which in turn are based on currently available information. Although, we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect. Important factors that could cause actual results to differ materially from our expectations include but are not limited to the following:

1. Changes in focus, laws and regulations or change in Government Policies towards Power & Distribution Industry;
2. Any change in the technology affecting transformer manufacturing;
3. Any adverse developments affecting our operations in the state, where our manufacturing facilities are located;
4. Loss of any of our top 10 customers;
5. Interruptions in the supply of raw materials;
6. Our ability to retain our key managements persons and other employees;
7. Our failure to keep pace with rapid changes in technology;
8. Our ability to make interest and principal payments on our existing debt obligations and satisfy the other covenants contained in our existing debt agreements;
9. Company’s ability to successfully implement its growth strategy and expansion plans;
10. Inability to successfully obtain registrations in a timely manner or at all;
11. Occurrence of Environmental Problems & Uninsured Losses;
12. Conflicts of interest with affiliated companies, the promoter group and other related parties;
13. Any adverse legal proceedings initiated against our company or its promoters, directors and KMP’s; and
14. Macroeconomic factors such as level of economic activity in the regions and cities in which we operate, general economic, business and political conditions in the industry, inflation, deflation, interest rate fluctuations and emergence of alternative destinations, impacting our growth.

Certain information in “***Industry Overview***”, “***Our Business***” and “***Management’s Discussion and Analysis of Financial Condition and Results of Operations***” on pages 108, 121 and 216, respectively, of this Red Herring Prospectus have been obtained from internal Company reports, publicly available data, websites, Industry publications report as well as Government Publications.

For further discussion of factors that could cause the actual results to differ from the expectations, see “***Risk Factors***”, “***Our Business***” and “***Management’s Discussion and Analysis of Financial Condition and Results of Operations***” on pages 21, 121 and 216, respectively. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual gains or losses in the future could materially differ from those that have been estimated and are not a guarantee of future performance.

There can be no assurance to investors that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements to be a guarantee of our future performance.

Forward-looking statements reflect the current views of our Company as of the date of this Red Herring Prospectus and are not a guarantee of future performance. These statements are based on our management’s beliefs and assumptions, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect. Accordingly, we cannot assure investors that the expectations reflected in these forward-looking statements will prove to be correct and given the uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements.

None of our Company, our Promoters, our Promoter Group, Promoter Selling shareholders, our Directors, our KMPs, Senior Management, the Syndicate or any of their respective affiliates has any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with the SEBI ICDR Regulations, our Company will ensure that investors are informed of material developments from the date of this Red Herring Prospectus until the date of Allotment.

SECTION II: RISK FACTORS

*An investment in our Equity Shares involves a high degree of financial risk. Prospective investors should carefully consider all the information in the Red Herring Prospectus, particularly the “**Financial Information of the Company**” and the related notes, “**Our Business**” and “**Management’s Discussion and Analysis of Financial Condition and Results of Operations**” on page 164, 121 and 216 respectively of this Red Herring Prospectus and the risks and uncertainties described below, before making a decision to invest in our Equity Shares.*

The risk factors set forth below are not exhaustive and do not purport to be complete or comprehensive in terms of all the risk factors that may arise in connection with our business or any decision to purchase, own or dispose of the Equity Shares. This section addresses general risks associated with the industry in which we operate and specific risks associated with our Company. Any of the following risks, individually or together, could adversely affect our business, financial condition, results of operations or prospects, which could result in a decline in the value of our Equity Shares and the loss of all or part of your investment in our Equity Shares. While we have described the risks and uncertainties that our management believes are material, these risks and uncertainties may not be the only risks and uncertainties we face. Additional risks and uncertainties, including those we currently are not aware of or deem immaterial, may also have an adverse effect on our business, results of operations, financial condition and prospects.

This Red Herring Prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Red Herring Prospectus. The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors below. However, there are risk factors the potential effects of which are not quantifiable and therefore no quantification has been provided with respect to such risk factors. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the Issue, including the merits and the risks involved. You should not invest in this Issue unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the particular consequences to you of an investment in our Equity Shares.

Materiality

The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.

- 1. Some events may not be material individually but may be found material collectively.*
- 2. Some events may have material impact qualitatively instead of quantitatively.*
- 3. Some events may not be material at present but may be having material impact in future.*

Note:

The risk factors as envisaged by the management along with the proposals to address the risk if any. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial implication of any of the risks described in this section.

*In this Red Herring Prospectus, any discrepancies in any table between total and the sums of the amount listed are due to rounding off. Any percentage amounts, as set forth in “**Risk Factors**” on page 21 and “**Management Discussion and Analysis of Financial Condition and Results of Operations**” on page 216 of this Red Herring Prospectus unless otherwise indicated, has been calculated on the basis of the amount disclosed in the “**Restated Financial Statements**”.*

- 1. We derive a substantial portion of our revenue from government and public utility customers, the supply of transformers to public utility companies including government entities constituted 50.73%, 72.99% and 56.13% of our revenue from operations during the in Fiscal 2026, Fiscal 2025 and Fiscal 2024 respectively, and our business is highly dependent on government policies, project allocations, and payment cycles.*

We derive a substantial portion of our revenue from the supply of transformers to public utility companies including government entities. We are dependent on these public utility and electricity distribution companies for supply of our transformers to them. The following table sets out the details of our revenue from supply of transformers to Government customers and other customers during the Fiscals 2026, 2025 and 2024:

<i>(Rs. In lakhs)</i>						
Particulars	F.Y. 25-26		F.Y. 24-25		F.Y. 23-24

Further, as on June 30, 2026, we have an order book of around Rs. 32967.92 lakhs. Since a substantial portion of our revenue is generated from public utilities, the company is highly dependent on a limited number of government-controlled clients. Any adverse development such as reduced orders, delays in tendering, loss of eligibility, or poor performance ratings could significantly affect revenue and profitability. Moreover, public utilities often operate under long payment cycles, which may put pressure on the company's working capital and cash flows. Furthermore, the transformer business is closely tied to investments in power generation, transmission, and distribution infrastructure. These investments are heavily driven by government policies relating to electrification targets, rural and urban infrastructure programs, budgetary allocations and renewable energy integration. Any policy shift, budget cuts, or slowdowns in government-led infrastructure projects may delay or reduce transformer demand. Additionally, in periods of economic downturn, governments may reduce capex, which could impact new project orders. Thus, any material change in customer behaviour or government policy could adversely affect the Company's order book, execution timelines, and cash flows, ultimately leading to a negative impact on profitability and return on investment.

2. A significant portion of our revenue is derived from government-controlled entities, through competitive bidding processes. Our business, results of operations, and cash flows may be adversely affected if we are unable to qualify for or win tenders, face pricing pressures, experience delays in award or execution of contracts, or are restricted from participating in future bids.

As part of our regular business activities, we participate in competitive bidding processes to secure supply contracts, particularly from public sector entities and utilities. These contracts are typically awarded based on pricing, technical eligibility, and compliance with pre-defined qualification criteria. While we aim to meet such conditions and offer competitive pricing, there is no assurance that we will consistently qualify for, or win, these contracts. Our ability to generate revenue is closely linked to the timely receipt of new purchase orders. The outcome of tenders is inherently uncertain, and delays in contract awards or execution schedules can affect our order book and revenue recognition. Although we have previously been awarded contracts based on our technical and financial qualifications, we cannot assure that similar outcomes will be achieved in future bidding processes. The qualification criteria for larger or high-value contracts may evolve, and we may not always meet the revised standards related to financial capacity, prior experience, or project size thresholds. Even when we qualify, contracts are typically awarded to the lowest bidder, and pricing pressure in such competitive environments may result in reduced margins or we may be abstained from bidding for future tender. For instance, we were abstained for bidding for 3 consecutive tenders vide an order dated June 20, 2019 by Paschimanchal Vidyut Vitran Nigam Limited, Meerut. This could impact our ability to bid for new tenders or the profitability of new contracts, even if they are awarded. Additionally, the tendering process especially in government-related projects is subject to procedural delays, changes in eligibility norms, or withdrawal of previously announced projects. If contracts that we expect to bid for are cancelled, delayed, or awarded under revised criteria that we do not meet, our business and financial performance could be negatively affected. Furthermore, our cash flows and financial results may vary significantly depending on the timing, size, and frequency of contract awards. Any fluctuations in the availability or timing of tenders, or unsuccessful participation in bidding processes, may have an adverse impact on our operational and financial performance.

The following table sets out the details of our revenue from supply of transformers to Government customers and other customers during the Fiscals 2026, 2025 and 2024:

Particulars	F.Y. 25-26		F.Y. 24-25		F.Y. 23-24	
	Amount	% of Revenue from Operations	Amount	% of Revenue from Operations	Amount	% of Revenue from Operations
B2B	17873.84	49.22%	8758.24	27.01%	7060.51	43.87%
B2G	18419.15	50.73%	23662.74	72.99%	9034.10	56.13%
B2C	17.83	0.05%	-	-	-	-
TOTAL	36310.82	100%	32420.98	100%	16094.61	100%

3. Our order book may not be representative of our future results and our actual income may be significantly less than the estimates reflected in our order book, which could adversely affect our business, financial condition, results of operations and prospects.

As of June 30, 2026, our order book stood at ₹32967.92 Lakhs, representing the estimated value of the unexecuted portion of confirmed orders for the supply of power and distribution transformers. Accordingly, our reported order book may not be directly comparable to revenue from operations, which also includes escalation components, freight, insurance, commissioning charges, and other ancillary income. The actual revenue realized from the execution of contracts may differ materially from the order book value due to such factors.

Execution of transformer supply contracts is subject to various risks, including potential delays in delivery schedules due to customer-side delays, non-availability of material, production disruption, regulatory clearances, or supply chain constraints. These may cause postponement of dispatches, which in turn can defer revenue recognition and payments from customers. Even short delays in dispatch, inspection, or acceptance can disrupt our billing cycle and affect cash flow. Further, our customers include public sector utilities, State Electricity Boards (SEBs), and other government agencies, where payment schedules are often linked to delivery or inspection approvals. Any delays in clearances on the customer side may impact our ability to raise invoices and realize payments, thereby affecting our working capital and operational liquidity. Possibility of any contract being cancelled, reduction in the quantity agreed, or renegotiated due to changes in customer priorities, or procurement policies may significantly affect our order book and revenue visibility. In some cases, tenders may be re-floated with revised technical or commercial terms, requiring requalification or resubmission. Such events could reduce the overall conversion of the order book into revenue. Accordingly, while our order book provides a view of ongoing and upcoming supply commitments, it may not serve as a reliable indicator of future financial performance due to factors such as execution risks, pricing adjustments, contractual disputes, and delays in customer payments.

4. We significantly depend upon few of the raw material suppliers for our manufacturing activities. Volatility in the supply and pricing of our raw materials may have an adverse effect on our business, financial condition and results of operations.

Our manufacturing operations require substantial quantities of raw materials, primarily including Cold Rolled Grain Oriented (CRGO) Electrical Steel, Copper Wire, Copper Strip, Copper Sheet, Aluminium Wire, Strip, Sheet, Mild Steel, Transformer Oil and other materials, which are subject to significant price fluctuations. In Fiscal 2026, purchases from our top ten suppliers accounted for 54.96% of our total raw material procurement, compared to 63.22% in Fiscal 2025 and 63.48% in Fiscal 2024. The cost of raw materials consumed (adjusted with change in inventory) was ₹29115.04 lakhs in Fiscal 2026, representing 80.18% of our revenue from operations; ₹27089.10 lakhs in Fiscal 2025, representing 83.55% of our revenue from operations and ₹13862.47 lakhs in Fiscal 2024, representing 86.13% of revenue. Our competitiveness, cost structure, and profitability are materially dependent on our ability to source and maintain a stable supply of raw materials at reasonable prices. We do not maintain long-term supply agreements with any of our raw material suppliers, and procure raw materials through purchase orders. Supply availability and pricing are subject to volatility due to factors beyond our control, including global demand-supply dynamics, economic and political conditions, tariff disputes, transportation and labour costs, labour unrest, natural disasters, competition, import duties, infectious disease outbreaks such as COVID-19, currency fluctuations, and other uncertainties. Disruptions in supply or failure by suppliers to meet delivery schedules or quality standards could adversely affect our production timelines and, consequently, our business and financial performance. There can be no assurance that supply constraints, capacity limitations, or other issues experienced by our suppliers will not cause shortages or delays in receipt of raw material. A significant or prolonged shortage of raw materials, combined with our inability to source from alternative suppliers, may prevent us from meeting production schedules and fulfilling customer orders on time, adversely impacting sales, profit margins, and customer relationships. Delays in raw material supply may also delay manufacturing and delivery of finished products, negatively affecting our business operations, cash flows, and results. Accordingly, we cannot guarantee the availability of sufficient raw materials in the future on commercially acceptable terms, which could adversely impact our operations.

5. Any under-utilization or inability to efficiently utilize our existing manufacturing capacities could adversely affect our operational efficiency, financial performance, and future business prospects.

As of date of this Red Herring Prospectus, we operate through our 2 manufacturing facilities located at Sonipat, Haryana with an aggregate installed production capacity of 15,00,000 KVA per annum for Distribution transformer and 1350 MVA per annum for Power Transformer. In Fiscals 2026, 2025 and 2024, our overall capacity utilization was as detailed below:

Product Details	March 31, 2026			March 31, 2025			March 31, 2024		
	Installed Capacity	Actual Production	%	Installed Capacity	Actual Production	%	Installed Capacity	Actual Production	%
Distribution Transformers (in KVA)	15,00,000	13,75,253	91.68	13,50,000	11,75,472	87.07	10,00,000	8,22,278	82.22
Power Transformers (in MVA)	1350	1285	95.18	1350	1156.75	85.68	1000	305.85	30.58

Our capacity utilization is dependent on the uninterrupted operation of our manufacturing facilities and the prevailing market demand for our products. In addition, capacity utilization is influenced by factors such as the timely availability of raw materials, availability of skilled labour, industry and market conditions, and the procurement practices adopted by our customers. Any inability to achieve optimal utilization of our existing manufacturing capacities may lead to operational inefficiencies, which could have a material adverse effect

on our business, financial condition, results of operations, and future prospects. Prolonged under-utilization, or significant short-term under-utilization, of our manufacturing capacities could negatively impact our growth trajectory and overall financial performance.

6. We derive a significant portion of our revenue from the sale of distribution transformers, and any reduction in demand or purchases for these transformers may adversely affect our business, results of operations, and financial condition.

We derive a significant portion of our revenue from the supply of distribution transformers to government utilities, state electricity boards, and other infrastructure-related entities. Distribution transformers ranging upto 3150 KVA are a key product line in our portfolio. The table below sets forth the details of our revenue from supply of distribution transformers and other transformers during Fiscals 2026, 2025 and 2024:

(Amt in Rs. Lakhs)

Transformer Type	March 31, 2026		March 31, 2025		March 31, 2024	
	Amount	%	Amount	%	Amount	%
Distribution Transformers upto 3150 KVA.	23303.51	64.18	22,399.30	69.09	13,708.10	85.17
Power Transformers	10014.22	27.58	9540.76	29.43	1,963.85	12.20
Others*	2993.09	8.24	480.92	1.48	422.66	2.63
Total	36310.82	100	32420.98	100	16094.61	100

*other includes items like LT internal circuit breaker, Copper wire rod/coils, MCCB, protection feature charges, scrap sale, freight & job work income.

Any reduction in demand for distribution transformers, whether due to changes in procurement policies, budget constraints, reduced government spending on rural or urban electrification, or delays in project implementation, may directly impact our order inflow and revenue. In particular, if there is a shift in focus from distribution infrastructure to other segments of the power sector, or use of dry transformer instead of oil type transformer or if procurement cycles are deferred due to administrative or regulatory factors, our business performance may be affected. While we also manufacture other categories of transformers, including power and special application transformers, our business remains substantially reliant on the distribution segment. A sustained decline in demand, pricing pressure, or shift in customer preference may adversely affect our revenue, operating margins, and financial condition.

7. We are significantly dependent on our relationships with key customers. The loss of one or more of these key customers, or a reduction in the volume of business from any of them, could have a material adverse effect on our revenue, profitability, and overall financial performance.

We derived 71.49%, 82.82% and 83.52% respectively, of our total revenue from operations from the sale of products to our top 10 customers in Fiscal 2026, Fiscal 2025, and Fiscal 2024. The table below sets forth the revenue derived from our top 3 customers and our top 5 customers, for the periods indicated:

(Amount in Rs. Lakhs)

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Amount in Lakhs	% of total Revenue from operations	Amount in Lakhs	% of total Revenue from operations	Amount in Lakhs	% of total Revenue from Operations
Top 3 Customers	11716.84	32.27	22155.98	68.34	8729.40	54.24
Top 5 Customers	16833.94	46.36	24341.20	75.08	10954.64	68.07

Note: Customers may vary across the Fiscals/ the relevant period.

This concentration of revenue creates a dependency on the continued business and performance of these key customers. Any adverse development affecting one or more of these customers may affect our business. These developments could include the changes in product specifications or applicable technologies, internal or contractual disputes, financial difficulties, operational disruptions, or a decline in their business activities. Any of these events could lead to reduced order volumes, delays in payments, or a complete cessation of business, which may impact our revenue, profitability, and financial position. In addition, our customers may seek to diversify their supplier base or replace us with alternative manufacturers due to cost, quality, delivery timelines, or strategic reasons. Such shifts could reduce our market share and limit our ability to grow. Our dependence on a limited set of customers also limits our bargaining power, which may restrict our ability to negotiate favorable terms, including pricing, payment schedules, and delivery timelines. There is no assurance that we will not experience, any material contract terminations or business losses from our top customers in the future. A significant decline in business from these customers or a complete termination of business relationships may result in lower revenues, reduced cash flows, and operational disruptions.

8. Any delays in manufacturing, supply chain, or third-party execution may result in liquidated damages or order cancellations.

The company's ability to deliver transformers and related products on schedule is critical to meeting contractual obligations. Delays in manufacturing process may arise from internal or external factors, and can have financial and operational consequences. Internally, any disruption in the manufacturing process, such as equipment downtime, labour shortages, or material procurement issues, can lead to delays. If the company is unable to meet agreed delivery timelines, it may become liable for liquidated damages (LD) as per the terms of its contracts. Further, we were required to make payment of delayed delivery charges amounting to Rs. 263.84 lakhs, Rs. 320.17 lakhs and Rs. 16.49 lakhs during the Fiscal year 2026, 2025 and 2024 respectively. Also, apart from bearing the damages, the customers may have the right to cancel the order, which can result in loss of revenue and adverse impact on future business prospects. Externally, the company often relies on third-party logistics providers and raw material suppliers to complete various stages of the manufacturing. These third parties operate independently, and any delay or failure on their part can affect the overall schedule. Since the company may have limited control over these parties, such dependencies increase the risk of schedule slippage. Prolonged or frequent delays may also affect customer confidence, lead to contractual disputes, or increase costs, all of which could adversely affect the company's financial results.

9. We are subject to strict quality requirements, regular inspections and audits. An inability to maintain the quality of our products could lead to the cancellation of existing and future orders, recall claims or warranty claims and penalties.

Adherence to quality standards is a critical factor in our manufacturing process. Our customers maintain strict quality standards that includes strict qualification and certification procedures. Our products may contain certain errors or quality defects that remain undetected until such products are delivered to the customers. These errors may have been caused by defects in the raw materials or in the manufacturing process. If these products are returned by the customers or if customers initiate recall claims or warranty claims, we may be required to incur significant costs in recalling the sub-standard products and reimbursing the relevant customers, which could have an adverse effect on our business, financial condition, results of operations and cash flows. We also face the risk of legal proceedings, product liability claims and penalties being brought against us by our customers for any defective products sold. A product liability claim may adversely affect our reputation and brand image, as well as entail significant costs. While in past, we have received some notices pursuant to issues arising with the product delivered to our customers, our company is in discussion with the relevant authorities, below are the details of such notices-

(Amt in Rs. Lakhs)

Total					261.93

Additionally, we also provide for warranty provisions in our financial statements which may become insufficient in case of large number of claims. Going forward if we are not in compliance with any of their requirements, our facilities and products may be subject to warning letter or sanctions or any other action from regulatory authorities. We also manufacture products that must meet precise quality, measurement, and tolerance standards. Failure to comply with these requirements may lead to order cancellations, product recalls, or warranty claims, incurring significant costs. Our purchase orders often contain liability clauses, exposing us to potential obligations for product quality and delivery. Defective products may also result in litigation or third-party liability claims, impacting our reputation and financial condition.

10. Our business inherently requires significant working capital, and any shortfall in meeting these requirements may adversely impact our operations, profitability, and future growth.

Due to the nature of our operations, particularly in transformer manufacturing, we require substantial working capital to finance the procurement of raw materials such as copper and electrical steel, manage inventory across long production cycles, and support timely execution of customer orders. Additionally, the capital-intensive nature of our business, along with the credit terms extended to customers, results in a large portion of our funds being tied up in receivables and inventory. This structural need for high working capital makes our business sensitive to any delays in receivables realization, changes in input costs, or challenges in accessing working capital financing. Any inability to meet these working capital needs may disrupt our cash flow cycle and adversely affect our operational efficiency. Furthermore, the credit period extended to customers can be lengthy, and in many cases, invoicing is done upon or after delivery of products or systems. Delays or defaults in customer payments further elevate our trade receivables, thereby increasing our overall working capital requirement. These factors collectively pose a risk to our liquidity and may adversely affect our business operations and financial condition. Set forth below are the details of our net working capital (on restated consolidated basis) during the Fiscal 2026, Fiscal 2025, and Fiscal 2024:

(Amount in Rs. Lakhs)

Particular	March 31, 2026	March 31, 2025	March 31, 2024
Net working capital ⁽¹⁾	4468.07	2472.25	897.22

⁽¹⁾ Net working capital is calculated as the total of current assets (excluding cash & cash equivalents and bank balances other than cash and cash equivalents) less total of current liabilities (excluding current borrowings).

We expect to continue to fund our working capital requirements in the future from cash generated from operations and from working capital loans, however, our inability to meet our working capital requirements through cash from our operations or borrowings, as the case may be, could have a material adverse effect on our business, results of operations and financial condition. Further, we are proposing to utilize an amount of Rs.3500 lakhs from the proposed IPO. Any delay in the IPO proceeds may require our company to arrange for alternate methods including loan from financial institution or any unsecured loan. If we are unable to secure adequate working capital in a timely and cost-effective manner, it could lead to disruptions in production, delays in deliveries, and potential loss of customer orders. Such circumstances may also limit our ability to scale operations, or invest in capacity expansion and technological upgrades. Prolonged working capital constraints may lead to increased financing costs, reliance on short-term borrowings, and strain on our liquidity, thereby adversely affecting our overall business performance and long-term sustainability.

11. Any disruption, breakdown or shutdown of our manufacturing facilities may have a material adverse effect on our business, financial condition, results of operations and cash flows.

As on the date of this Red Herring Prospectus, we operate from our two manufacturing facilities. We are dependent on our manufacturing facilities for the production and processing of our transformer components. Our manufacturing facilities are concentrated in Sonipat, Haryana any events impacting those geographical areas may disrupt our production and operations. Further, our manufacturing facilities are subject to operating risks, such as the breakdown or failure of equipment, disruption in power supply or processes, severe weather conditions, performance below expected levels of efficiency, obsolescence, labour disputes, natural disasters, industrial accidents, infectious diseases (such as COVID-19 pandemic), political instability, the need to comply with the directives of relevant government authorities and the requirement to obtain certain material approvals to operate our manufacturing facilities. Our customers rely significantly on the timely delivery of our products and our ability to provide an uninterrupted supply of our products is critical to our business. While we seek to ensure a continuous supply of our products to our customers, our customer relationships, business and financial results may be adversely affected by any disruption of operations due to any of the factors mentioned above.

12. Our failure to maintain optimum inventory levels could adversely affect our business, financial condition, results of operation and cash flow.

A substantial portion of our revenue from operations is derived from the government and public sector undertakings, primarily in the area of power and distribution sector and EPC projects. We determine the quantities to be manufactured for sales and distribution based on historical levels of sales, the actual sale or orders on hand may vary which may affect the anticipated production requirements. If we are unable to appropriately estimate the demand for our products for any reason, it could result in excess inventory levels or the unavailability of our products during increased demand, resulting in loss in potential sales. Our ability to accurately forecast customer demand for our products is affected by various factors, including a substantial increase or decrease in the demand for our products, changes in customer requirements, pricing strategies, failure to accurately forecast or changes in customer acceptance of our products or weakening of general economic conditions or customer confidence that could reduce the sale of our products. Details of the inventory of the Company as on March 31, 2026, March 31, 2025 and March 31, 2024 was Rs. 2591.17 lakhs, Rs. 2124.47 Lakhs and Rs. 1944.91 lakhs respectively. We maintain an inventory level that we think is appropriate to meet our customer demands. Inventory levels that exceed customer demand may result in inventory write-downs or write-offs, or we may be required to sell our excess inventory at discounted prices, which will adversely affect our gross margins and negatively impact our reputation. On the other hand, if we face demand in excess of our production, we may not be able to adequately respond to the demand for our products. This could result in delays in delivery of our products to our customers and we may suffer damage to our reputation and customer relationships. In addition, our customers may be driven to purchase products offered by our competitors, thereby affecting our market share. There can be no assurance that we will be able to manage our inventories at optimum levels to successfully respond to customer demand.

13. Any delays or defaults in client payments could adversely affect our liquidity, working capital, and ability to recover expenditures

We derive a significant portion of our revenues from contracts with government bodies, public sector undertakings (PSUs), and state electricity boards, which typically have longer payment cycles compared to private sector clients. While these customers generally offer creditworthy profiles, delays in payments are common due to procedural, administrative, or budgetary reasons. In certain cases, payments are subject to approval processes, milestone inspections, or third-party certifications, which can lead to substantial delays. Additionally, delayed disbursement of funds from central or state governments to these utilities further impacts their ability to make timely payments. Further, our private sector customers may also delay payments due to their own liquidity constraints, project delays, or disputes over deliverables, all of which can extend the collection period. Our trade receivable as on March 31, 2026, March 31, 2025 and March 31, 2024 were Rs. 7321.19 lakhs, Rs. 5202.21 lakhs, Rs. 2012.19 lakhs respectively. Any prolonged delay in receiving payments could result in increased working capital requirements, higher reliance on external borrowings and associated interest costs, adverse impact on our liquidity position, potential write-offs or provisions for doubtful debts and disruption in our supply chain due to delayed payments to vendors. Although we actively monitor receivables and engage with customers for timely collections, there can be no assurance that we will be able to mitigate these delays entirely. Any sustained delay or default in receivables, especially from large or long-term customers, may materially and adversely affect our business, financial condition, results of operations, and cash flows.

14. Non-issuance of respective NOC's from Lenders (for Car Loan) for the proposed IPO of the Company considering absence of restrictive covenants pertaining to Car Loans from these Lenders.

Our Company has availed Car loans from 2 lenders, i.e. Axis Bank and HDFC Bank. Based on the due diligence of the sanction letters & agreements there are no restrictive covenants stipulated under the Car loans availed from the aforesaid lenders, which would have a material adverse impact on the Company or its ability to undertake the proposed capital raising activity. Although, there is no requirement to obtain the NOC from the aforesaid lenders, the inability to obtain these NOCs may be perceived as a procedural risk, which could potentially impact the perception of our creditworthiness or compliance status among stakeholders. However, we affirm that all such loans are duly serviced and are not in default. Further, to the best of our knowledge and belief, the absence of these NOCs does not, in any manner, hinder or restrict the Company from proceeding with the proposed Offer.

15. We have had negative net cash flows in the past and may continue to have negative cash flows in the future

Our Company has a negative cash flow from our investing and financing activities in the previous year(s) as per the Restated Financial Statements and the same has been summarized below:

(₹ In Lakhs)

Particular	Period ended March 31, 2026	Period ended March 31, 2025	Period ended March 31, 2024
Net Cash from Operating Activities	1488.52	536.22	742.97
Net Cash from Investing Activities	-1118.85	-2255.36	-742.20
Net Cash from Financing Activities	-367.87	1275.87	357.59
Net increase/(decrease) in cash and cash equivalents	1.80	-443.26	358.37

Cash flows of a company is a key indicator to show the extent of cash generated from the operations of a company to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If we are not able

to generate sufficient cash flows, it may adversely affect our business and financial operations. For further details, see section titled “**Financial Statements**” and “**Management’s Discussion and Analysis of Financial Condition and Results of Operations**” on pages 164 and 216, respectively of the Red Herring Prospectus.

16. One of our Promoter & Director, Mr. Sanjeev Kanda, was previously associated with a company that was voluntarily struck off from the Register of Companies. Any such past or future association may be perceived unfavourably by investors, regulators, or other stakeholders.

Mr. Sanjeev Kanda, one of our Promoter Director, was previously associated as a director in the L S Steel Fabrication Private Limited, which was voluntarily struck off from the records of the Registrar of Companies. While such strike-off was carried out voluntarily and not due to any regulatory action, penal proceedings, or defaults, the past association of our director with company that has been struck off may be perceived unfavourably by investors, regulators, or other stakeholders.

17. There are certain discrepancies/errors noticed in some of our corporate records relating to forms filed with the Registrar of Companies and other provisions of Companies Act, 2013. Any penalty or action taken by any regulatory authorities in future, for non-compliance with provisions of corporate and other law could impact the reputation and financial position of the Company to that extent

There are certain discrepancies/errors in our corporate records relating to forms filed with the Registrar of Companies and other provisions of the Companies Act, 2013. Any penalty or regulatory action in this regard may adversely affect our business, reputation, and financial condition. There have been certain inadvertent clerical discrepancies/errors in filings made with the Registrar of Companies, such as partial attachment and wrong attachment filed with Form 66 and Form AOC-4, incorrect disclosure of number of shareholders in annual return for the year 1997–98, clerical error relating to incorrect figures in AOC-2, incorrect dates of appointment of Sanjeev Kanda & Rakesh Kanda in annual returns. While our Company believes that these discrepancies are procedural in nature, there can be no assurance that the same will not attract regulatory scrutiny, penalty, or any other adverse action under applicable laws in the future. Any such action may adversely affect our business operations, financial position, and reputation. Further our Company has in the past experienced delays in filing certain statutory forms with the Registrar of Companies, which were primarily on account of operational and technical difficulties. These forms have since been filed upon payment of the requisite late fees on the MCA portal, and no-show cause notice has been received by our Company in respect of the same till date. However, there can be no assurance that such instances of delay will not recur in the future or that no penalty or fine will be imposed by any regulatory authority for such past or future non-compliances.

18. Certain of our corporate records relating to forms filed with the Registrar of Companies prior to the year 2006 in respect of appointment of Statutory Auditor, Annual Returns, appointment & resignation of directors (if any), filing of financial statements etc. and other certain records are not traceable which may affect our ability to evidence adherence to regulatory requirements and compliance with applicable laws.

We do not possess some of the prescribed forms filed with the Registrar of Companies, particularly relating to forms filed prior to the year 2006 including, inter alia, in respect of appointment of statutory auditor, appointment & resignation of directors, filing of financial statements, Annual Returns etc. Although we have obtained a search report dated September 23, 2025 from a Practicing Company Secretary, Yati Mittal Proprietor of Yati Mittal & Associates having COP No. 25176 and Peer Review Certificate No. 7218/2025, in relation to records maintained by ROC in the physical form, but still, information relating to above mentioned forms filed by the Company prior to the year 2006 could not be traced. Thus, the history of our company with regards to, appointment of statutory auditor, appointment & resignation of directors, filing of financial statements, Annual Returns etc. presented in this Red Herring Prospectus is based on the limited information available with the Company. While our Company believes that these ROC forms were duly filed on a timely basis, we cannot assure you that all the aforementioned forms filed with ROC will be available in the future. Further, due to the non-availability of the requisite statutory records, we may not be able to present the requisite documentary evidence to validate our point which may lead to any penal actions being taken against the Company and its operations may get adversely affected. Further, certain other statutory records such as Minutes Book, pertaining to the years prior to 2017 are not traceable by us. Also, the Company is not in possession of any Share Transfer Deed for the transfer undertaken prior to year 2010. Due to the non-availability of the requisite statutory records, we may not be able to present the requisite documentary evidence to validate our point which may lead to any penal actions being taken against the Company and its operations may get adversely affected.

19. Our contracts with government agencies usually contain terms that favour the government clients, who may terminate our contracts prematurely and impose restrictions on our Company which may have a material adverse impact on our financial condition and results of operations.

The counterparties to a number of our contracts are public utilities and government entities and these contracts are usually based on the forms chosen by such entities. As a result, we have only a limited ability to negotiate the terms of these contracts, which tend to favour the government clients. For instance, the terms laying out our obligations in relation to delivery and delivery schedules etc., are determined by the government entities and we are not permitted to amend such terms. The contractual terms may present risks to our business, including lack of recourse to our government client, liability for defects arising; clients' discretion to grant time extensions in case of delays, and the right of the government client to terminate our contracts. Such conditions in the contracts may lead to penalty or even termination of the contract in any such event which may be beyond our control, and may have adverse effects on our profitability, cash flow and our reputation.

20. The majority of our revenue primarily comes from the state of Uttar Pradesh, Bihar, Madhya Pradesh, West Bengal, Haryana & Jammu and Kashmir which exposes us to region-specific economic, regulatory, and market risks.

A significant portion of our revenues is derived from customers located in the states of Uttar Pradesh, Bihar, Madhya Pradesh, West Bengal, Haryana & Jammu and Kashmir, amounting to Rs. 35272.22 lakhs, Rs. 31668.31 lakhs and Rs. 15137.40 lakhs for Fiscal Years 2026, 2025, and 2024 respectively, representing 97.13%, 97.67% and 94.05% of our total revenue from operations in the respective periods. Below is our revenue from operation divided among different state –

(Amt in Rs. Lakhs)

Particulars	March 31, 2026		March 31, 2025		March 31, 2024	
	Amount	%	Amount	%	Amount	%

Other states include Delhi, Rajasthan, Chhattisgarh, Jharkhand, Punjab, Assam, Chandigarh, Uttarakhand and Himachal Pradesh.

Relying heavily on revenue from a limited state can expose our company to various risks, primarily related to geographical concentration. Economic instability in the abovementioned state or the region where we sell our products, can have a direct and immediate negative effect on your business. In addition to this, there may be limitations to market growth, depending on the size and population of these states or regions which can lead to intense local competition to maintain market share and pricing power, potentially leading to margin pressure which could have an adverse effect on our business and results of operations.

21. Our business is subject to seasonal variations and cyclicity that could result in fluctuations in our results of operations.

Our business operations are subject to seasonal variations and cyclical trends, particularly in relation to the timing and availability of government tenders and delivery schedules in the power sector. A significant portion of our revenue is derived from contracts awarded by government or public sector utilities. The issuance of tenders and the delivery schedule agreed depend on fiscal budget allocations, administrative approvals, and other external factors beyond our control. These tenders are not issued uniformly throughout the year and may be concentrated in specific periods, particularly towards the second half of the financial year. This may lead to fluctuations in our revenue and profitability across quarters. Additionally, changes in delivery schedule due to changes in regulatory or policy frameworks, further contributing to uneven revenue recognition. As a result, our financial performance may vary from period to period, and past performance may not be indicative of future results. For details of our quarter-wise revenue bifurcation refer table below -

(Amt in Rs. Lakhs)

Particular	FY 2025- 26	% to Total Sales	FY 2024- 25	% to Total Sales	FY 2023- 24	% to Total Sales
Quarter 1	8165.23	22.49%	6,890.65	21.25%	1,655.11	10.28%
Quarter 2	6232.90	17.17%	5,773.34	17.81%	2,805.84	17.43%
Quarter 3	6747.02	18.58%	8,091.16	24.96%	4,758.52	29.57%
Quarter 4	15165.67	41.77%	11,665.82	35.98%	6,875.15	42.72%
Total	36310.82	100%	32,420.98	100%	16,094.61	100%

22. Product designing is critical part for our products (Transformers) for which we depend upon our in-house capabilities. Any loss or error by these employees may have an adverse effect on our equipment and operations.

The design of transformers is a critical component of our manufacturing process, as it directly impacts the technical performance, energy efficiency, and operational reliability of the final product. Our ability to deliver transformers that meet customer requirements and industry standards depends significantly on the accuracy and effectiveness of the product design process. We rely on an internal team of approximately 6 employees for the design, engineering, and development of technical drawings and specifications required for transformer production. This team is responsible for ensuring that our products comply with applicable regulatory requirements, customer-specific technical standards, and functional performance criteria. Any errors, omissions, or inaccuracies in the design phase may result in non-conformity of the finished product with the customer's specifications. Such deviations may lead to customer dissatisfaction, rejection of goods, or cancellation of purchase orders. In certain cases, rework or redesign may be required, which could cause production delays, increased cost, or wastage of raw materials. These outcomes may have an adverse impact on our operational efficiency and financial performance. Further, any lapse in the design process may also disrupt material planning, inventory control, or production scheduling, which can lead to delays in delivery, lower plant utilization, or increased cost of production. The knowledge and experience of our design team is a key resource for our business. Loss of experienced personnel, inability to attract or retain qualified technical professionals, or gaps in knowledge transfer may reduce our ability to maintain consistent design quality or respond to evolving customer requirements. This may affect our ability to compete effectively or deliver products in line with current technical standards.

23. None of our Directors have any prior experience of directorships in listed companies. which may affect our ability to manage governance and regulatory obligations.

Our Board of Directors does not include any individual who has previously held a directorship position in a listed company. As a result, the Board may not have direct exposure to the operational, compliance, and governance complexities associated with managing a publicly listed entity. This includes meeting the enhanced disclosure requirements, maintaining timely regulatory compliance, and adhering to corporate governance standards mandated under SEBI regulations and applicable stock exchange norms. This lack of prior experience may pose challenges in ensuring effective oversight and decision-making in a listed environment, particularly in areas such as investor relations, continuous disclosure obligations, and risk management. While we are taking necessary steps to build appropriate internal systems and engage qualified professionals to support our compliance efforts, there can be no assurance that our Board will not face difficulties in navigating the responsibilities and obligations that come with being a listed company. Any such shortcomings may adversely impact our reputation, stakeholder confidence, and overall business operations.

24. The factories on which we undertake our business operations and the registered office have been taken on lease or rent basis. Our inability to seek renewal or extension of such leases may materially affect our business operations.

Our Promoter group entity i.e. M/s Haryana Power Industries and the Company has entered into a rent agreement for use of the Factory situated at Plot No. 1675, Industrial Estate, Sector-38, Phase-I, HSIIDC, Rai, District Sonapat, Haryana and Plot No. 1676–1677, Sector-38, Phase-I, HSIIDC Industrial Estate, Rai, District Sonapat, Haryana for manufacturing of transformers. There can be no assurance that we will be able to continue with these arrangements in the future. In the event that the existing arrangement is terminated or they are not renewed on commercially acceptable terms, we may suffer a disruption in our operations. We may be required to shift our operations to a new location and there can be no assurance that the arrangement we enter into in respect of new factory would be on such terms and conditions as the present one. If alternative premises are not available at the same or similar costs, size or locations, our business, financial condition and results of operations may be adversely affected. Also, the current manufacturing facilities of the company are located in HSIIDC, Rai which subject us to certain terms and condition implemented by the relevant authorities which if not complied may result in penal action being taken against our company or our landlords. Also, the company has paid the requisite stamp duty on the lease of property situated at Plot No. 1676–1677, Sector-38, Phase-I, HSIIDC Industrial Estate, Rai, District Sonapat, Haryana but not able to trace the registration documents. Further, the registered office of our company from where we operate have been taken on lease basis. There can be no assurance that we will be able to continue with these arrangements in the future. In the event that the existing arrangement is terminated or they are not renewed on commercially acceptable terms, we may suffer a disruption in our operations. For further details, see “***Our Business – Property***” on page 121. Similarly, if we are not able to renew our lease or continue to use these premises due to non-renewal of licenses or any other reason, our existing business operation will be adversely affected which will have an adverse impact on our operations and financial condition.

25. Our company has encountered challenges in meeting the designated timelines for filing statutory returns, which may subject us to penalty under the relevant laws.

There have been delays in filing GST returns by our Company in the past. After conducting an internal review, we have identified that the primary reasons for these delays are related to reconciliation and operational issues. To address these issues, we have implemented corrective measures to mitigate future delays. These measures include enhancing our reconciliation process to minimize discrepancies, implementing improved cash flow forecasting and management practices, strengthening communication and coordination within our team to expedite return filing. However, any future delays in the submission of these returns may result in financial penalties and

potential legal consequences, which may adversely affect our financial condition and operations. Below are the instances of the delay in filing of various returns.

S. No.	Statue	Financial Year	Period	Days of delay filing
1.	Goods and Services Tax Act, 2017 (including CGST, SGST and IGST)	2024-25	Yearly (GSTR 9C)	6

26. Our company has encountered challenges in meeting the designated timelines for filing Statutory returns related to employees i.e. EPF and ESI, which may subject us to penalty under the relevant laws.

There have been instances of delays in filing certain returns relating to provident fund and employee state insurance by our Company. The delays were primarily attributable to reconciliation and operational issues. While we have undertaken an internal review and implemented corrective measures to address the reasons for such delays, but there can be no assurance that similar delays will not occur in the future. The corrective measures implemented by us include strengthening our reconciliation processes to minimize discrepancies, implementing management practices for monitoring statutory compliance and enhancing communication and coordination among the personnel responsible for statutory filings to facilitate timely filing of returns. However, any delay in filing or non-compliance with applicable statutory requirements in the future may expose us to interest, penalties, fines and other financial liabilities, legal or regulatory proceedings, which may adversely affect our financial condition and operations. Further, any instances of delayed filing or non-compliance may result in increased scrutiny by the relevant regulatory authorities and may adversely affect our relationship with such authorities. The following table sets forth the instances of delays in filing of various provident fund and employee state insurance returns by our Company:

S. No.	Statue	Financial Year	Month / Quarter	Days of delay filing
1.	Employees' Provident Funds and Miscellaneous Provisions Act, 1952	2024-25	July 2024	7
2.	Employees' State Insurance Act, 1948	2024-25	July 2024	7

27. Our objects of the issue include capital expenditure, which will take a period of time for set up and become operational any potential delays may lead to cost overruns and adversely impact project execution.

Our Company's objects of the Issue include capital expenditure for the establishment of a manufacturing facility, which is inherently complex and involves a lengthy implementation and commissioning process before becoming operational. We propose to utilize an aggregate of ₹6213.66 lakhs from the proceeds of the IPO towards civil works and the purchase and installation of plant, machinery, and equipment. The establishment of the manufacturing facility is subject to various risks and uncertainties that may result in cost overruns and increased expenditure. During the implementation phase, unforeseen expenses may arise due to factors such as delays in the receipt of the IPO proceeds, changes in regulatory requirements, additional compliance costs, delays in obtaining statutory approvals and permits, supply chain disruptions, inflation in material or equipment costs, or unforeseen technical and operational challenges. Such events may materially increase the estimated project cost. Further, changes in applicable laws, regulations, or industry standards may require modifications to the proposed manufacturing facility or its design to ensure continued compliance. Any such modifications, including retrofitting or redesigning of the facility, could result in additional capital expenditure and delays in project execution.

For details regarding the proposed utilization of the IPO proceeds, see "**Objects of the Offer**" on page 84 of this Red Herring Prospectus. If the assumptions underlying the estimated project costs prove to be inaccurate or become unrealistic due to changes in market conditions or other factors beyond our control, the actual expenditure incurred may differ materially from the estimated expenditure. Any such variation may result in delays in the implementation of the project, require additional funding, and could have a material adverse effect on our business, financial condition, results of operations, cash flows and profitability.

28. We have not made any provisions for decline in the value of investments made by our Company. Any continuous decline in the value of investments made by our company may impact our financial results and condition.

The value of Investment (on standalone basis) made by our company as of March 31, 2026 stood at ₹164.99 Lakhs which represents investment in the partnership firm and mutual funds. There have been no provisions made by the management for fluctuation in the value of investments. Any future loss or profit on the sale of the said investment will be included in the financial account only when the said investments are sold which may have a material impact on our financial conditions and results of operations of the company.

29. *Our Company and Promoter/director, in the past were party to certain legal proceedings. Any litigation, claims or proceedings that may arise against us in the future could have a material adverse effect on our business, results of operations and financial condition.*

Our Company, its Promoters and Directors were part of certain legal proceedings in the past. Further, there can be no assurance that our Company, Promoters, Directors, Subsidiary entity, Group Companies, Key Managerial Personnel or Senior Management Personnel will not become subject to any litigation, claims, disputes or other legal, regulatory or statutory proceedings in the future. Any past or future proceedings, irrespective of their outcome, may require our management and Promoters to devote significant time and attention and may result in substantial legal and other expenses. We may also be required to make provisions in our financial statements in respect of such proceedings, where applicable. Any adverse decision, settlement or outcome in such proceedings could result in financial liabilities, reputational damage or restrictions on our business operations and could have a material adverse effect on our business, financial condition and results of operations. Further, the existence or outcome of any such proceedings may adversely affect investor perception and, consequently, the trading price of our Equity Shares.

For details of the outstanding legal proceedings involving our Company, Promoters, Directors, Subsidiaries, Group Companies, Key Managerial Personnel and Senior Management Personnel, to the extent applicable and material in accordance with our Materiality Policy for Litigation, please refer to the chapter titled “***Outstanding Litigations and Material Developments***” beginning on page 227 of this Red Herring Prospectus.

30. *Any failure to protect or enforce our rights to own or use trademarks and brand names and identities could have an adverse effect on our business and competitive position.*

We have obtained registration of the trademark  under Class 9 of the Trademark Act. Further, the Company has made

an application on August 22, 2025 for registration of our corporate logo  under the Trademark Act, 1999 with the Registrar of Trademarks and the same is pending. We cannot assure you that our trademark application will be approved. In the absence of trademark registrations, we may not be able to initiate an infringement action against any third party who may be infringing our trademarks. For further details, pertaining to the intellectual property of our Company, see “***Our Business –Intellectual Property***” and “***Government and Other Approvals***” on pages 121 and 231 respectively of this Red Herring Prospectus. We may not be able to prevent infringement of our trademarks. Further, our efforts to protect our intellectual property may not be adequate and may lead to erosion of our business value and our operations could be adversely affected. Further, if we do not maintain our brand identity, which is an important factor that differentiates us from our competitors, we may not be able to maintain our competitive edge. If we are unable to compete successfully, we could lose our customers, which would negatively affect our financial performance and profitability.

Further, we take care to ensure that we comply with the intellectual property rights of others, but we cannot determine with certainty whether we are infringing any existing third-party intellectual property rights, which may force us to alter our offerings. We may also be susceptible to claims from third parties asserting infringement and other related claims. If similar claims are raised in the future, they could result in costly litigation, divert management’s attention and resources, subject us to significant liabilities and require us to enter into potentially expensive royalty or licensing agreements or to cease certain offerings. Any of the foregoing could have an adverse effect on our business, reputation and operations.

31. *A downgrade in our credit ratings could materially adversely affect our business and financial condition and our ability to raise capital in the future.*

The credit ratings assigned to us and our borrowing facilities could change based upon, among other things, our results of operations and financial condition. As of date of this Red Herring Prospectus our ratings are ‘IVR BBB/Positive’ & ‘IVR A3+’ by Infomerics Rating. These ratings are subject to ongoing evaluation by credit rating agencies, and we cannot assure you that any rating assigned to us will not be changed or withdrawn by a rating agency in the future if, in its judgment, circumstances warrant. Moreover, these credit ratings are not recommendations to buy, sell or hold the equity securities. If any of the credit rating agencies that have rated us and our borrowing facilities downgrades or lowers our credit ratings, or if any credit rating agency indicates that it has placed for a possible downgrading or lowering or otherwise indicates that its outlook for that rating is negative, it could have a material adverse effect on our costs and availability of capital, which could in turn have a material adverse effect on our financial condition, results of operations, cash flows and our ability to raise capital in the future. However, we cannot assure you that our credit ratings will not be lowered or withdrawn by credit rating agencies that rate us, which could have a material adverse effect on our financial condition, results of operations, cash flows and our ability to raise capital in the future.

32. Our profitability and business operations is significantly dependent on our ability to successfully anticipate the industry and client requirements. Any failure on our part to do so, may have an impact on our operations, which could have an adverse effect on our revenue, reputation, financial conditions, results of operations and cash flows.

Our profit after tax for the period March 31, 2026, March 31, 2025 and March 31, 2024 were Rs. 3360.48 Lakhs, Rs. 2037.67 Lakhs and Rs. 759.06 lakhs respectively. Our profitability, business operations and its success is significantly dependent on our ability to ensure continued demand for our products in existing and proposed markets, which requires us to continuously anticipate and respond in a timely manner to customer requirements and preferences. If we are unable to successfully anticipate customer requirements or are unable to modify our current portfolio of products or develop new products, in a timely manner, we may lose customers. Though we are committed to product innovation to respond to changing technology in the electric equipment industry, there can be no assurance that we would be successful in developing new products that respond to such changes or changes in customer requirements and preferences or that our products would gain acceptance in our existing or new markets. Any enhancement to our existing offerings or new offerings that we develop and introduce involves significant commitment of time and resources and is subject to a number of risks and challenges including:

- ensuring the timely deployment of new offerings and features;
- adapting to emerging and evolving industry standards, technological developments by our competitors and changing client requirements;
- operating effectively with existing or newly-introduced technologies, systems, or applications of our existing and prospective clients.

The development of alternative technologies or a fundamental shift in technologies in key markets for our electric equipment could have an adverse effect on our business. Moreover, failure to correctly anticipate trends and adapt to the changing technological environment may result in reduced demand for our products which could have adverse effect on our revenue, reputation, financial conditions, results of operations and cash flows.

33. Our existing debt obligations, along with the terms and restrictions set out in our financing agreements, could negatively impact our business, operating results, and financial condition if we fail to comply with them. Any such non-compliance may result in, among other consequences, suspension of further drawdowns.

We have entered into financing arrangements with banks, such as term loans and working capital facilities, including fund based and non-fund based borrowings. For further information on the financial indebtedness of our Company, see “**Financial Indebtedness**” on page 213. Set out below are details of our outstanding borrowings for the dates indicated:

(Amt in Rs. Lakhs)

Particular	Fiscal 2026	Fiscal 2025	Fiscal 2024
Long Term Borrowings	824.66	1013.73	213.37
Short Term Borrowings	1248.98	1337.14	767.69
Total Borrowing	2073.64	2350.87	981.06

Our ability to service our existing and future debt obligations, including interest and principal repayments, is heavily reliant on our capacity to manage operations efficiently and generate sufficient cash flows. A significant portion of our cash flow from operations and other available funds may be required to meet debt servicing needs, limiting our financial flexibility and reducing the resources available for capital expenditure, acquisitions, and strategic investments. This indebtedness may also constrain our ability to respond to market or competitive changes, access additional financing, and invest in innovation, technology, or talent acquisition areas that are critical to sustaining growth and competitiveness. Additionally, interest rate fluctuations may further increase our cost of borrowing, thereby affecting our profitability. Moreover, several corporate actions such as changes in ownership, control, management, shareholding structure, or constitutional documents require prior consent from certain lenders. Failure to comply with these requirements or any debt covenants could delay or restrict important business decisions and initiatives. In the event of non-compliance, our lenders may accelerate repayments, suspend access to undrawn credit facilities, or initiate debt restructuring all of which could severely impact our liquidity, operations, and financial condition.

34. We have incurred indebtedness which exposes us to various risks which may have an adverse effect on our business and results of operations.

Our ability to borrow and the terms of our borrowings will depend on our financial condition, the stability of our cash flows, general market conditions, economic and political conditions in the markets where we operate and our capacity to service debt. As on March 31, 2026, our total outstanding indebtedness was Rs. 2073.64 Lakhs. Our significant indebtedness in future may result in substantial

amount of debt service obligations which could lead to:

- increasing our vulnerability to general adverse economic, industry and competitive conditions;
- limiting our flexibility in planning for, or reacting to, changes in our business and the industry;
- affecting our credit rating;
- limiting our ability to borrow more money both now and in the future; and
- increasing our interest expenditure and adversely affecting our profitability.

Further, if the loans are recalled on a short notice, we may be required to arrange for funds to fulfil the necessary requirements. The occurrence of any of these events may have an adverse effect on our cash flow and financial conditions of the company. For further details regarding our indebtedness, see “***Statement of Financial Indebtedness***” on page 213 of this Red Herring Prospectus.

35. Our Company has not yet placed orders for the civil work, machineries and equipment required by us for setting up of our manufacturing facility. Any delay in placing the orders or supply of plant and machinery may result in time and cost overruns, and may affect our profitability.

Our Company proposes to deploy IPO proceeds towards building of factory shed, acquire machineries and equipment aggregating to ₹6213.66 lakhs for expansion of our manufacturing facility. Our Company has identified the vendors for civil work and machineries to be acquired and has received the quotations from the suppliers, but we have not placed final orders for civil work, machineries and equipment aggregating to Rs. 1751.96 lakhs. As on date, we have placed orders aggregating to ₹5506.47 lakhs, representing approximately 75.86% of the proposed capital expenditure against which an advance payment of ₹1044.77 lakhs has been made. The balance civil work, machinery and equipment are yet to be ordered. Our Company is further subject to risks on account of inflation in the price of construction of the factory building and plant and machinery. Since the funding for the civil work & installation of plant and machinery is from the IPO proceeds, any delay in access to IPO proceeds would eventually delay the process of placing the orders. The purchase of machineries and equipment’s would require us to consider factors including but not limited to pricing, delivery schedule and after-sales maintenance. There may be a possibility of delay at the supplier’s end in providing timely delivery of these machineries and equipment, which in turn may delay the implementation of our expansion plan. Further, the quotations relied upon by us in arriving at the total cost of construction, machineries and equipment are valid for a specific period of time and may lapse after the expiry of the specific period. Consequent upon which, there could be a possible escalation in the cost of machineries and equipment’s proposed to be acquired by us at the actual time of purchase, resulting in increase in the project cost, which may result in cost overruns, and may affect our profitability. For further details read section “***Objects of the Offer***” beginning on page 84 of the Red Herring Prospectus.

36. Cyber threats and non-compliance with and changes in privacy laws and regulations could have an adverse effect on our business, results of operations and financial condition and cash flows.

We may face cyber threats such as phishing and trojans, hacking, data theft and advanced persistent threat – a network attack in which an unauthorized person gains access to our network and remains undetected for a long period of time with an intention to steal our data or information rather than to cause damage to our network or organization. As on the date of this Offer Document, we have not experienced any material cyber security breach, data theft incident or material disruption to our operations due to cyber-attacks. However, although, we continue to implement robust cybersecurity measures to safeguard against these threats and protect our network and information, any threat to our network and information may lead to disruption, loss of reputation and affect business operations.

Further, we must comply with privacy laws and regulations such as the Information Technology (Reasonable security practices and procedures and sensitive personal data on information) Rules, 2011 (“IT Rules”) and the Digital Personal Data Protection Act, 2023. In the ordinary course of our business, we receive certain personal information about our customers. Under the applicable legal and regulatory framework, we are required to ensure security of all personal data collected by us, formulate a privacy policy. As on the date of this Offer Document, we have not been subject to any material penalties, fines, regulatory actions or litigation for non-compliance with applicable data protection or privacy laws.

Notwithstanding the forgoing despite our efforts to comply with applicable laws, regulations, and other obligations relating to privacy, data protection, and information security, it is possible that our interpretations of the law or practices could be inconsistent with or fail or be alleged to fail to meet all requirements of, such laws, regulations, or contractual obligations. A compromise in our security systems that results in customer personal information being obtained by unauthorized persons or our failure to comply with security requirements for use, storage and transmission of sensitive information could adversely affect our reputation with our customers and result in litigation against us or the imposition of penalties and fines, all of which may adversely impact our business, results of operations, financial condition and liquidity.

37. Activities involving our manufacturing process can be dangerous and can cause injury to people or property in certain circumstances. A significant disruption at our manufacturing facilities may adversely affect our production schedules, costs, sales, and ability to meet customer demand.

Activities involving our manufacturing process can be dangerous and can cause injury to people or property in certain circumstances. A significant disruption at our manufacturing facilities may adversely affect our production schedules, costs, sales and ability to meet customer demand. Our manufacturing operations involve complex processes that can pose dangers to people and property under certain circumstances. As on the date of this Red Herring Prospectus, we have not experienced any material accidents, loss of human life, material injury to personnel, significant damage to property or equipment, or prolonged suspension of operations at our manufacturing facilities. However, despite implementing safety protocols and maintaining what we consider to be adequate insurance coverage, the possibility of accidents at our manufacturing facilities cannot be fully eliminated.

Such incidents could result in human injury, damage to human life, damage to equipment or property, environmental harm, production or delivery delays, suspension of operations, and the imposition of liabilities. These consequences may disrupt our production schedules, increase costs, impact our ability to fulfil customer demands, and adversely affect our sales and overall business performance. In addition, any such accident could lead to litigation, which may be difficult to predict or quantify. The costs involved in defending legal actions could be substantial, and any potential liabilities arising therefrom along with associated negative publicity could adversely affect our business, financial condition, operating results, and future prospects. Production interruptions may also compel us to incur significant capital expenditures to resolve the underlying issues or to address resulting legal matters. These disruptions, and the related costs, may negatively impact our profitability and overall financial health.

38. A shortage or non-availability of electricity or power may adversely affect our manufacturing operations and have an adverse effect on our business, results of operations and financial condition.

Our manufacturing operations require a significant amount and continuous supply of electricity and power and any shortage or non-availability may adversely affect our operations. We currently source our power requirements from state electricity boards for majority of our energy requirements. For Fiscal 2024, Fiscal 2025 and Fiscal 2026, our power and fuel costs was Rs. 78.09 lakhs, Rs. 121.62 lakhs and Rs. 134.75 lakhs, constituting 0.51%, 0.41% and 0.42%, respectively, of our total expenses. If supply is not available for any reason, we will need to rely on alternative sources, which may not be able to consistently meet our requirements and are high on costs, thereby adversely affecting our cost of production and profitability. Further, if, for any reason such electricity is not available, we may need to shut down our plants until an adequate supply of electricity is restored. Our customer relationships, business and financial results may be materially adversely affected by any disruption of manufacturing operations, including as a result of any of the factors mentioned above.

39. If we fail to maintain an effective system of internal controls, we may not be able to successfully manage or accurately report our financial risk.

Effective internal controls are necessary for us to prepare reliable financial reports and effectively prevent and detect any frauds or misuse of funds. Moreover, any internal controls that we may implement, or our level of compliance with such controls, may decline over time. There can be no assurance that additional deficiencies or lacks in our internal controls will not arise in the future, or that we will be able to implement and continue to maintain adequate measures to rectify or mitigate any such deficiencies or lacks in our internal controls. If internal control weaknesses are identified in a delayed manner, our actions may not be sufficient to correct such internal control weakness. Such instances may also adversely affect our reputation, thereby adversely impacting our business, results of operations and financial condition.

40. If we are unable to raise additional capital or are unable to obtain financing on favourable terms or at all, our business and growth could be adversely affected.

We expect to continue incurring substantial expenditures to manage and expand the infrastructure at our existing and proposed facilities. However, there is no assurance that we will have sufficient capital resources to support our ongoing operations or execute future expansion plans. Although we anticipate that internal accruals and operational cash flows will be adequate to meet such obligations, any future borrowing will largely depend on the continued success of our operations. A failure to secure sufficient financing could significantly hinder our growth strategy. Our ability to raise capital and the cost at which it is available are influenced by several external and internal factors, including prevailing economic and capital market conditions, the availability of credit, investor confidence, the financial health of our operations, and applicable regulatory frameworks. Further, under debt financing, we may be subject to restrictive covenants that limit our flexibility such as restrictions on changes to ownership, control, management, capital structure, or amendments to our constitutional documents. Inability to raise timely and cost-effective funding could severely impact our business, financial condition, results of operations, and cash flows. This may force us to postpone, scale down, or abandon strategic initiatives or capital

expenditure plans, ultimately constraining our growth potential. Moreover, in the case of unsecured loans, lenders reserve the right to recall funds at any time, and failure to promptly arrange alternative financing on commercially reasonable terms or at all could further strain our financial stability.

41. If we are unable to retain and hire skilled employees, or to maintain good relations with our workforce, our business and financial condition may be adversely affected.

Our ability to provide quality products and services and to manage the complexity of our business depends, in part, on our ability to retain and attract skilled personnel in the areas of management, product engineering, design, manufacture, servicing, sales, information technology, and finance. Competition for such personnel is intense and the cost of retaining or replacing such personnel may affect our profitability. In addition, our strategies for growth have placed, and are expected to continue to place, increased demands on our management's and employees' skills and resources. Further, our manufacturing activities are labour intensive, requiring our management to undertake significant labour interface, and expose us to the risk of industrial action. As of June 30, 2026, we had a total work force of 143 employees employed by our company on a full-time basis. There can be no assurance that we will not face work stoppages, strikes, or other forms of labour disputes involving our employees or contract workers in the future. Such events, whether occurring at our existing facilities or at any new facilities that we may establish or acquire, could disrupt our operations, hinder our ability to meet customer requirements, and strain our relationships with key customers and suppliers, thereby adversely affecting our business and financial condition.

Additionally, any changes in existing labour laws could result in increased employee-related costs and may require our management to devote more time and resources to labour compliance and workforce matters. In the event that labour regulations become more stringent or are subject to stricter enforcement, our ability to maintain flexible human resource policies, terminate employment, or downsize operations could be constrained. Such developments may have a material adverse effect on our business operations, financial performance, and cash flows.

42. Our Company will not receive any proceeds from the Offer for Sale portion.

The Selling Shareholders will receive the net proceeds from such Offer for Sale. The Offer consists of a Fresh Issue of up to 44,12,800 Equity Shares and an Offer for Sale of up to 11,00,000 Equity Shares of face value of ₹10/ each. The entire proceeds from the Offer for Sale will be paid to the Selling Shareholder (after deducting applicable Offer expenses) and our Company will not receive any such proceeds. For further information, see "***The Offer***" and "***Objects of the Offer***" on pages 47 and 84, respectively

43. Our business is operating under various laws which require us to obtain approvals from the concerned statutory/regulatory authorities in the ordinary course of business and our inability to obtain, maintain or renew requisite statutory and regulatory permits and approvals for our business operations could materially and adversely affect our business, prospects, results of operations and financial condition.

Our business requires us to obtain and renew from time to time certain approvals, licenses, registrations and permits, some of which have expired and for which we have either made or are in the process of making an application for obtaining the approval or its renewal. There can be no assurance that the relevant authorities will issue these approvals or licenses in a timely manner, or at all. In the event of any unanticipated delay in receipt of such approvals, it will have an adverse impact on our business operations. Further, these approvals, licenses, registrations and permissions under various regulations, guidelines, circulars and statutes regulated by various authorities for operating our business activities may contain conditions, some of which could be onerous. Any failure by us to obtain, renew, maintain or comply with the conditions attached to such approvals, licenses, registrations and permissions, or any adverse changes in the applicable regulatory framework, may result in penalties, suspension or cancellation of such approvals, disruption of our business operations and may adversely affect our business, financial condition, cash flows and results of operations.

Further, we cannot assure that the approvals, licenses, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. Any suspension or revocation of any of the approvals, licenses, registrations and permits that have been or may be issued to us, may impede our operations. For further details, see "***Government and Other Approvals***" on page 231 of this Red Herring Prospectus. In the event that we are unable to obtain or maintain such approvals in a timely manner or at all, our business operations may be adversely affected. Further, we may be subject to environmental legal proceedings in the course of our business due to any non-compliance with the terms and conditions of applicable regulatory approvals, consents or authorizations. Any such proceedings may result in penalties, additional compliance costs, operational disruptions and may adversely affect our business, financial condition and results of operations.

44. We have certain contingent liabilities that have not been provided for in our Restated Consolidated Financial Information, which, if they materialize, may adversely affect our business, results of operations and financial condition.

The following table and notes set forth the principal components of our contingent liabilities as per AS 29 – Provisions, Contingent Liabilities and Contingent Assets, as at March 31, 2026, March 31, 2025 and March 31, 2024:

<i>(₹ in lakhs)</i>				
	Contingent Liabilities	31 March 2026	31 March 2025	31 March 2024
	Contingent Liabilities and commitments(to the extent not provided for)			
(a)	Claims against the company not acknowledged as debt	Nil	Nil	Nil
(b)	Performance bank Guarantee given by company	1747.88	416.73	484.40
(c)	Other moneys for which the company is contingently Liable			
	i) Income tax demand	-	-	-
	ii) TDS demand	-	-	5.72
(d)	Capital Commitments:			
	(i) Estimated amount of contracts remaining to be executed on capital account not provided for	4675.75	430.53	Nil
	(ii) Other commitments (if any)	Nil	Nil	Nil

Our contingent liabilities may become actual liabilities. If a significant portion of these liabilities materialize, it could have an adverse effect on our business, results of operations and financial condition. While we have not witnessed any contingent liabilities turning into actual liabilities as at March 31, 2026, there can be no assurance that we will not witness similar or increased levels of contingent liabilities turning into actual liabilities in the current fiscal year or in the future. For further details, please refer to **Note 30 – Contingent Liabilities** of the chapter titled “**Financial Information of the Company**” on page 209 and 164 of this Red Herring Prospectus.

45. We operate in a highly competitive market environment and may face significant competition from various industry players. Such competitive pressures could adversely impact our business operations, cash flows, financial condition, and overall results of operations.

We operate in a highly competitive industry with relatively low entry barriers. However, factors such as significant capital investment, the need for a robust manufacturing setup, deep product knowledge, customer validation and approval processes, and the expectation for adherence to stringent quality standards may deter new entrants. Existing competitors employ various strategies to enhance their market presence, including aggressive pricing, discounting, multi-location operations, and multi-tier marketing approaches. In the Indian market, we face competition from manufacturers of transformers, and other electrical equipment manufacturers. To maintain our existing market position and pursue further growth, we may need to increase investments in marketing, promotion, and product development. There is no assurance that current or future competitors will not offer comparable or superior products or services at equal or lower prices, adapt more swiftly to evolving customer preferences, or expand their operations more aggressively. Intensifying competition could lead to price pressures, reduced margins, and potential loss of market share, all of which may adversely affect our business operations, financial condition, and future prospects.

46. Any international market expansion efforts may expose us to complex management, legal, tax and economic risks, which could adversely affect our business, financial condition, cash flows and results of operations.

We may in the future plan to increase our presence in existing markets or entering into new markets for our products. In the course of our expansion and entry into overseas markets, we may be subject to risks related to complying with local laws and restrictions on the import and export of goods, multiple tax and cost structures, cultural and language factors, anti-dumping and countervailing duties, and other legal and regulatory requirements for new products and new geographies. Further, restrictions, licensing requirements, quotas, tariffs or sanctions imposed by domestic or foreign authorities may delay shipments, increase costs, or limit access to key markets. Non-tariff barriers such as customs procedures, quality standards, or local content requirements may affect supply chain efficiency and operational flexibility. We risk failing to comply with accounting and taxation standards in overseas’ jurisdictions due to unfamiliarity with their interpretations, which may lead to significant penalties for default and a risk of aggressive action by various government or tax authorities. Any failure to comply with the various legal and regulatory requirements for new products and new geographies could also impact our production planning, delivery schedule or our ability to offer such products. Further, we may face competition in other countries from companies that may have more experience with operations in such countries or with international operations generally. Any international market expansion may also be loss-making in the initial years or beyond due to a lack of scale or higher operating

costs. If we do not effectively manage our operations in the future, it may affect our profitability, which may adversely affect our business, financial condition, cash flows and results of operations.

47. *We are subject to various laws and regulations and required to comply with several regulatory compliance requirements, in jurisdictions where we operate, including environmental and health and safety laws and regulations, which may subject us to increased compliance costs, which may in turn result in an adverse effect on our financial condition.*

Our operations are subject to various national, state and local laws and regulations. We are subject to laws specific to the industry in which we operate, as well as laws generally governing business in India, including those relating to the protection of the environment and occupational health and safety, including those governing the generation, handling, storage, use, management, transportation and disposal of, or exposure to, environmental pollutants or hazardous materials resulting from our manufacturing processes. Our inability to control the costs involved in complying with these and other relevant laws and regulations and failure to comply with these laws and regulations can result in severe penalties, including fines, legal action, and damage to the business's reputation, which could have an adverse effect on our business, financial condition, results of operations and cash flows. For more details, please refer to chapter titled “**Key Regulations and Policies**” on page 133 of this Red Herring Prospectus.

48. *We have experienced significant growth in the past few years, and if we are unable to sustain or manage our growth, our business, results of operations and financial condition may be adversely affected.*

As per our Restated Consolidated Financial Information, our revenue from operations was ₹36310.82 lakhs, ₹32,420.98 lakhs and ₹16,094.61 lakhs and for Fiscal 2026, Fiscal 2025 and Fiscal 2024, respectively. Our revenue from operations has increased during the relevant period. However, our future growth will depend on our ability to increase the volume of products sold, expand our customer base, enter into new markets, maintain relationships with existing customers and respond to changes in demand for our products. Our ability to sustain or manage our growth may be affected by various factors, including a decline in demand for our products, increased competition and pricing pressures, changes in the availability or cost of raw materials, constraints on our production capacity, inability to recruit and retain personnel, limitations in our management and operational resources, increase in working capital requirements and changes in general economic conditions. As our business grows, we may also be required to expand our manufacturing capacity, infrastructure, workforce, systems and internal controls. Any failure to plan for or manage these requirements may result in operational constraints, delays in execution, increased costs or inability to meet customer requirements. Further, there can be no assurance that we will be able to maintain the growth achieved in the past or that our future growth will be at the same rate. Any inability to sustain our growth or manage the expansion of our operations may adversely affect our business, results of operations, cash flows and financial condition.

49. *Demand for our transformers is dependent on growth in the power generation, transmission and distribution industry & infrastructure, that may contribute to fluctuations in our results of operations and financial condition.*

The sale of our transformers to a large extent depends on the growth in the power generation, transmission and distribution industry. The transformer we manufacture are majorly used in the power sector, we may face disruption from customer in case there is any temporary or permanent slowdown in the sector. If there is any slowdown in the industry it may lead to reduction in orders from the customers, delay or re-schedule of the delivery commitments and delay or defaults in payments from the customer. Thus, in case there is any slowdown in the demand for the power, general slowdown in the power generation or distribution sector it may have an adverse effect on our business, revenue and operations.

50. *Loans availed by our Company has been secured on personal guarantees of our Director. Our business, financial condition, results of operations, cash flows and prospects may be adversely affected in case of invocation of any personal guarantees provided by our Directors.*

Our Promoter, Sanjeev Kanda, Renu Kanda and our promoter group entities has provided personal guarantee to secure a significant portion of our existing borrowings taken from the banks and may continue to provide such guarantees and other security post listing. In case of a default under our loan agreements, any of the personal guarantees provided by the aforesaid may be invoked which could negatively impact their reputation and net worth. Also, we may face certain impediments in taking decisions in relation to our Company, which in turn would result in a material adverse effect on our financial condition, business, results of operations and prospects and would negatively impact our reputation. We may also not be successful in procuring alternate guarantees/ alternate security satisfactory to the lenders, as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could affect our financial condition and cash flows. For further details regarding loans availed by our Company, please refer “**Statement of Financial Indebtedness**” on page 213 of this Red Herring Prospectus.

51. *Our Company in the past has entered into Related Party Transactions and may continue to do so in future also, which may affect our competitive edge and better bargaining power if entered with non-related parties resulting into relatively more favourable terms and conditions and better margins.*

Our Company has entered into various transactions with our Directors, Promoter, Promoter Group entities. These transactions, inter-alia includes, remuneration, Rental payments, purchases, Job work, Loan taken or repaid etc. Our Company has entered into such transactions due to easy proximity and quick execution. However, there is no assurance that we could not have obtained better and more favourable terms than from transaction with related parties. Additionally, we believe that all our related party transactions have been conducted on an arm's length basis, but we cannot provide assurance that we could have achieved more favourable terms had such transactions been entered with third parties. Our Company may enter into such transactions in future also and we cannot assure that in such events there would be no adverse effect on results of our operations. For details of transactions, please refer to “**Related Party Transactions**” under Section titled “**Financial Information of the Company**” and Chapter titled “**Capital Structure**” beginning on page 184, 164 and 70 respectively of this Red Herring Prospectus.

52. *Fraud, theft, employee negligence or similar incidents may adversely affect our results of operations and financial condition.*

As on March 31, 2026, we had total inventory consisting of raw material, work in progress and finished goods to the value of Rs. 2591.17 Lakhs. Our business operations require us to maintain large amounts of inventory at times. Our operations may be subject to incidents of theft or damage to inventory in transit, prior to or during manufacturing. Although we have set up various security measures and follow stringent operational processes but, there can be no assurance that we will not experience any fraud, theft, employee negligence, security lapse, loss in transit or similar incidents in the future, which could adversely affect our results of operations and financial condition. Additionally, in case of losses due to fraud, theft or damage caused by other casualties, there can be no assurance that we will be able to recover from our insurer the full amount of any such loss in a timely manner, or at all. If we incur a significant inventory loss due to third-party or employee theft or misconduct and if such loss exceeds the limits of, or is subject to an exclusion from, coverage under our insurance policies, it could have a material adverse effect on our business, results of operations and financial condition.

53. *Information relating to our production capacities and the historical capacity utilization of our production facilities included in this Red Herring Prospectus is based on certain assumptions and has been subjected to rounding off, and thus our future production and capacity utilization may vary.*

Information relating to our production capacities and the historical capacity utilization of our production facilities included in this Red Herring Prospectus is based on various assumptions and estimates of our management, including proposed operations, assumptions relating to availability and quality of raw materials and assumptions relating to operational efficiencies. Actual production levels and utilization rates may differ significantly from the estimated production capacities or historical estimated capacity utilization information of our facilities. Undue reliance should therefore not be placed on our production capacity or historical estimated capacity utilization information for our existing facilities included in this Red Herring Prospectus. For further information, see the section titled “**Our Business**” on page 121 of this Red Herring Prospectus.

54. *We rely on third-party service providers for our transportation and logistics requirements. Any disruption, delay, or inefficiency in their services could adversely impact our supply chain, thereby affecting our operations, business performance, and financial condition.*

We do not have an in-house transportation or logistics infrastructure and are entirely dependent on third-party service providers for the movement of our products to various customer locations and sites. As our operations grow in scale and geographic spread, our reliance on these external logistics partners is expected to increase proportionately. While outsourcing transportation provides operational flexibility, it also exposes us to a range of external risks beyond our direct control. The goods we transport are typically of high value relative to the transportation charges we pay, which limits our ability to recover full compensation in the event of damage, delay, or loss during transit. Our business operations, customer satisfaction, and profitability are therefore significantly dependent on the timely and safe delivery of our products through reliable transportation and logistics services.

Any disruption in the supply chain whether due to strikes, fuel price volatility, shortage of carriers, breakdowns, road accidents, poor infrastructure, adverse weather conditions, or other unforeseen events could delay product deliveries, increase costs, and affect our ability to meet delivery timelines or customer commitments. While we have not experienced material disruptions in the past, any prolonged or recurring issues in transportation or logistics may compel us to seek alternate arrangements, which could be inefficient and costly. Such challenges could adversely impact our operational efficiency, erode profit margins, damage customer relationships, and negatively affect our reputation and competitive standing in the market.

55. *We are heavily dependent on our Promoters and Key Managerial Personnel for the continued success of our business through their continuing services and strategic guidance and support. Loss of any of our Promoter and/ or Key Management Personnel may adversely affect our growth strategy.*

Our success heavily depends upon the continued services of our Key managerial personnel, along with support of our Promoters. We also depend significantly on our Key Managerial Persons for executing our day-to-day activities. The loss of any of our Promoter and Key Management Personnel, or failure to recruit suitable or comparable replacements, could have an adverse effect on us. The loss of service of the Promoters and other senior management could seriously impair the ability to continue to manage and expand the business efficiently. If we are unable to retain qualified employees at a reasonable cost, we may be unable to execute our growth strategy. For further details of our Directors and key managerial personnel, please refer to Section **“Our Management”** on page 145 of this Red Herring Prospectus.

56. *We deploy advanced technologies in the manufacturing, designing and installation of transformers. Any incapability to adopt a new technology or change in the requirement of a particular technology by the government authorities may affect our position.*

The manufacturing, designing and installation of our products is technically complex, time consuming and resource intensive because of complex manufacturing process and strict adherence to customer’s specifications and requirements. We constantly upgrade our technical abilities to offer our clients the full range of products at lower cost and without compromising on quality, use existing infrastructure to its maximum by avoiding major civil works, and provide cost effective and viable solutions at the same time. In the event of any change in the requirement by the government authorities/bodies of any technology presently used, which we are not able to provide or we lack sufficient expertise in that technology, we will not be in a position to undertake such work orders for lack of technical qualification and our competitors may get an advantage due to our incapability which could have an adverse effect on our business and revenue from operations.

57. *We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule.*

The proposed fund requirement for our proposed expansion plans by construction of factory shed, installing additional machinery, loan repayment and working capital requirements, as detailed in the section titled **“Objects of the Offer”** is to be funded from the proceeds of this IPO. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule. We therefore, cannot assure that we would be able to execute our future plans/strategy within the given timeframe. For details, please refer to the Chapter titled **“Objects of the Offer”** beginning on page 84 of this Red Herring Prospectus.

58. *Our insurance coverage may not be adequate to protect us against certain operating hazards and this may have a material adverse effect on our business.*

Our company has obtained insurance coverage in respect of certain risks. Our insurance coverage consists of marine open policy, flexi property protector policy, burglary and house breaking insurance policy, auto secure - private car package policy, Stand-Alone Own Damage Private Car Insurance policy, Private Car Package Policy, Bundled Auto Secure - Private Car Policy and contractors plant and machinery policy. While we believe that the insurance coverage maintained by us is adequate and consistent with the size of our business. However, there is no assurance that the insurance policy taken by us will be adequate for us to cover the losses. If we suffer any uninsured loss or if claim made by us in respect of an insurance is not accepted or any loss occurred by us is in excess of the insurance coverage may adversely affect our operation, results and financials. For further information, see the section titled **“Our Business”** on page 121 of this Red Herring Prospectus.

59. *Any Penalty or demand raised by statutory authorities in future may adversely affect the financial position of our Company.*

Our Company is engaged in the business of manufacturing of transformers which attracts tax liability such as Goods and Service Tax and Income Tax as per the applicable provisions of Law. We are also required to comply with the provisions such as registration under the labour laws like Provident Fund, Employee State insurance etc. Further, these tax laws, including Goods and Services Tax (GST), income tax, and other statutory levies, often involves complex interpretations, there may be differences in opinion between our Company and the relevant tax authorities with respect to the interpretation of certain provisions, the applicability of exemptions, or the treatment of specific transactions. During the past, our Company has faced challenges in adhering to various statutory provisions, spanning key regulations such as the Goods and Services Tax Act, the Employees Provident Fund and the Employees State Insurance Act. Further, there have been delays primarily manifested in areas such as the depositing of GST amounts, provident fund contributions mandated by the Employees Provident Funds and Miscellaneous Provisions Act, 1952 and the Employees State Insurance Act. Although, we have

taken all the necessary approvals and deposited the required returns and taxes under various applicable Acts but any demand or penalty raised by the concerned authority in future for any previous year and current year will affect the financial position of the Company.

60. *The Objects of the Issue for which funds are being raised have not been appraised by any bank or financial institution. Any variation between the estimation and actual expenditure as estimated by the management could result in execution delays or influence our profitability adversely.*

The deployment of funds as stated in the “**Objects of the Offer**” beginning on page 84 of the Red Herring Prospectus is entirely at the discretion of our management and has not been appraised by any independent agency. Further, the purposes for which the Net Proceeds are to be utilized have not been appraised by an independent entity and are based on our estimates and on third-party quotations. In the event, for whatsoever reason, we are unable to execute our plans, we could have a significant amount of unallocated net proceeds. In case the assumptions on which these estimates have been made are not correct or they become un-realistic then there will be a variation in the estimates and the actual expenditure incurred which could result in execution delays and have an adverse effect on our operations and profitability.

61. *Any variation in the utilization of the Net Proceeds would be subject to certain compliance requirements, including prior shareholders’ approval.*

We propose to utilise the Net Proceeds from the Issue as described in the section titled “**Objects of the Offer**” beginning on page 84 of this Red Herring Prospectus. However, at this stage, we are unable to determine with certainty whether the entire Net Proceeds will be required solely for the purposes stated therein, or whether a portion may need to be deployed to address unforeseen requirements or exigencies that may arise due to competitive pressures, evolving business conditions, macroeconomic factors, or other events beyond our control. In accordance with the provisions of Sections 13(8) and 27 of the Companies Act, 2013, read with applicable rules thereunder, and Regulation 59 and Schedule XX of the SEBI ICDR Regulations, our Company shall not vary the Objects of the Issue without obtaining prior approval of the Shareholders by way of a special resolution through a postal ballot or providing exit opportunity to the dissenting shareholders. In the event that such circumstances necessitate a variation in the proposed deployment of the Net Proceeds, there can be no assurance that we will be able to obtain the requisite Shareholders’ approval in a timely manner, or at all. Any delay or failure in obtaining such approval may adversely affect our ability to respond effectively to changing business needs or financial conditions. Consequently, we may be restricted in our ability to reallocate unutilised Net Proceeds or modify the terms of any proposed deployment, even where such actions may be in the best interests of our Company. This limitation may adversely impact our financial flexibility, operations, and overall business performance.

62. *Our ability to pay any dividends will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.*

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders’ investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our Dividend history refer to the Section “**Dividend Policy**” on page 163 of the Red Herring Prospectus.

63. *The average cost of acquisition of Equity Shares held by our Promoters, is lower than the face value of Equity Share.*

The average cost of acquisition of Equity Shares of our Promoter i.e., Sanjeev Kanda, Renu Kanda and Dievam Singh Kanda are lower than the face value of Equity Shares i.e., Rs. 10/-. For further details regarding the average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares of our Promoters in our Company, please see Chapter titled “**Capital Structure**” beginning on page 70 of this Red Herring Prospectus.

64. *Any future issuance of Equity Shares, or convertible securities or other equity linked securities by us and any sale of Equity Shares by our significant shareholders may dilute your shareholding and adversely affect the trading price of the Equity Shares.*

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by us may dilute your shareholding in the Company, adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. No assurance may be given that we will not issue additional Equity Shares. The disposal of Equity Shares by any of our significant shareholders, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. We

cannot assure you that we will not issue Equity Shares or that such shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

65. Our Promoters and Promoter Group will continue to exert substantial voting control over our Company after completion of the Offer, which may limit your ability to influence the outcome of matters submitted for approval of our shareholders

As of the date of this Red Herring Prospectus, our Promoter and Promoter Group collectively hold 100% of our pre-Offer Equity Share capital. Post-Offer, they will continue to retain substantial voting rights, enabling them to significantly influence decisions requiring shareholder approval including the appointment of Directors, approval of mergers, acquisitions, joint ventures, and amendments to our constitutional documents. This concentration of ownership may limit the ability of other shareholders to influence corporate matters and could delay or prevent actions that require collective shareholder support. Moreover, our Promoter and Promoter Group are under no obligation to offer business opportunities to the Company and may invest in competing ventures, which could impact our business, financial condition, and operations. Potential conflicts of interest may arise and could hinder our strategic execution. Additionally, the concentrated shareholding may discourage prospective investors, potentially affecting the market price of our Equity Shares. For further details, refer to “**Capital Structure**” on page 70 and “**Our Promoters and Promoter Group**” on page 158 of this Red Herring Prospectus.

66. The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the issue price and you may not be able to sell your Equity Shares at or above the Issue Price.

The Issue Price of our Equity Shares has been determined on the basis of the factors and information set out in the chapter titled “**Basis for Offer Price**” beginning on page 96 of this Red Herring Prospectus. However, the Issue Price may not correspond to the market price at which our Equity Shares may trade after the Issue. Following the Issue, the market price of our Equity Shares may fluctuate due to various factors, including factors relating to our business, results of operations and financial condition, changes in the industry in which we operate, changes in economic conditions, changes in applicable laws and regulations, investor perception, trading volumes, market conditions and other factors, many of which may be beyond our control. As a result, the market price of our Equity Shares may decline below the Issue Price, and there can be no assurance that investors who subscribe to the Issue will be able to sell their Equity Shares at or above the Issue Price. Investors may, therefore, incur a loss on their investment if the market price of our Equity Shares declines below the Issue Price. The factors that may affect the market price of our Equity Shares following the Issue include, among others:

- Variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings;
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

67. Certain data mentioned in this Red Herring Prospectus has not been independently verified which poses risk pertaining to the accuracy, completeness, and reliability of Industry and Market Data.

We have relied on information from various publicly available industry reports and/or websites for purposes of inclusion of such information in this Red Herring Prospectus. These reports are subject to various limitations and based upon certain assumptions that are subjective in nature. Although, we believe that the data may be reliable, but their accuracy, completeness and underlying assumptions are not guaranteed, and their dependability cannot be assured. While we have taken reasonable care in the reproduction of the information, the information has not been prepared by us or any of our respective affiliates or advisors and, therefore, we make no representation or warranty, express or implied, as to the accuracy or completeness of such facts and statistics. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere.

68. We have issued Equity Shares during the last one year at a price that will be below the Issue Price.

During the 12 months immediately preceding the date of this Red Herring Prospectus, we have allotted 1,56,13,200 Equity Shares of face value of ₹10 each as bonus shares to the existing shareholders of our Company. Such bonus shares were issued by way of capitalization of the reserves of our Company and were allotted without any consideration being received from the allottees. The issue price of the Equity Shares offered pursuant to the Issue is higher than the price at which the aforesaid Equity Shares were allotted. For details relating to the date of allotment, number of Equity Shares allotted, list of allottees and other details relating to such allotment, please refer to the section titled “**Capital Structure**” beginning on page 70 of this Red Herring Prospectus.

69. Significant differences exist between Indian GAAP and other accounting principles, such as Ind AS, IFRS and U.S. GAAP, which may be material to investors' assessments of our financial condition, result of operations and cash flows.

Our restated summary statements of assets and liabilities, restated summary statements of profit and loss and cash flows for the Fiscals 2026, 2025 & 2024 have been prepared in accordance with the Indian GAAP. We have not attempted to quantify the impact of US GAAP, IFRS or any other system of accounting principles on the financial data included in this Red Herring Prospectus, nor do we provide a reconciliation of our financial statements to those of US GAAP, IFRS or any other accounting principles. Ind AS, US GAAP and IFRS differ in significant respects from Indian GAAP. Accordingly, the degree to which the Restated Financial Information included in this Red Herring Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Ind AS, Indian GAAP and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Red Herring Prospectus should accordingly be limited.

70. There is no guarantee that the Equity Shares issued pursuant to the Issue will be listed on the BSE SME Platform in a timely manner or at all.

In accordance with the requirements under applicable Indian laws and regulations and prevailing practice in India, the Equity Shares offered pursuant to the Issue will not be permitted to be listed or commence trading on the SME Platform of BSE until the Equity Shares have been issued and allotted and the applicable listing and trading approvals have been obtained from BSE. The process for obtaining listing and trading approval requires our Company to submit the documents and information prescribed by the applicable regulatory authorities and the Stock Exchange, including documents relating to the Issue and the issuance and allotment of the Equity Shares. There can be no assurance that the listing and trading approvals will be obtained within the expected timelines or at all. Any delay or failure in obtaining the necessary approvals for listing and commencement of trading of the Equity Shares on the SME Platform of BSE may result in a delay in the commencement of trading of the Equity Shares or prevent the Equity Shares from being listed and traded on the SME Platform of BSE. Any such delay or failure may restrict or adversely affect the ability of investors to sell, transfer or otherwise dispose of their Equity Shares and may result in investors being unable to realise their investment in the Equity Shares at the time or at the price at which they may seek to do so. Investors may also be exposed to a period during which they are unable to trade or otherwise dispose of their Equity Shares.

71. Any of the Bidders are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid.

Pursuant to the SEBI ICDR Regulations, Any of the Bidders are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. While we are required to complete Allotment, listing and commencement of trading pursuant to the Offer within three (3) Working Days from the Bid/ Offer Closing Date, events affecting the Bidders' decision to invest in our Equity Shares, including adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows and financial condition may arise between the date of submission of the Bid and Allotment, listing and commencement of trading. We may complete the Allotment, listing and commencement of trading of our Equity Shares even if such events occur and such events may limit the Bidders' ability to sell our Equity Shares Allotted pursuant to the Offer or may cause the trading price of our Equity Shares to decline on listing.

72. We may be subject to surveillance measures, such as the Additional Surveillance Measures (ASM) and the Graded Surveillance Measures (GSM) by the Stock Exchanges which may adversely affect trading price of our Equity Shares.

SEBI and Stock Exchanges in order to enhance market integrity and safeguard interest of investors, have been introducing various enhanced pre-emptive surveillance measures. The main objective of these measures is to alert and advice investors to be extra cautious while dealing in these securities and advice market participants to carry out necessary due diligence while dealing in these securities. Accordingly, SEBI and Stock Exchanges have provided for (a) GSM on securities where such trading price of such securities does not commensurate with financial health and fundamentals such as earnings, book value, fixed assets, net-worth, price per equity multiple and market capitalization; and (b) ASM on securities with surveillance concerns based on objective parameters such as price and volume variation and volatility. On listing, we may be subject to general market conditions which may include significant price and volume fluctuations. The price of our Equity Shares may also fluctuate after the issue due to several factors such as volatility in the Indian and global securities market, our profitability and performance, performance of our competitors, changes in the estimates of our performance or any other political or economic factor. The occurrence of any of the abovementioned factors may trigger the parameters identified by SEBI and the Stock Exchanges for placing securities under the GSM or ASM framework such as net worth and net fixed assets of securities, high low variation in securities, client concentration and close to close price variation. In the event our Equity Shares are subject to such pre-emptive surveillance measures implemented by the Stock Exchange, we may be subject to certain additional restrictions in connection with trading of our Equity Shares such as limiting trading frequency (for example, trading either allowed once in a week or a month) or freezing of price on upper side of trading which may have an adverse effect on the market price of our Equity

Shares or may in general cause disruptions in the development of an active trading market for our Equity Shares.

73. After this Issue, the price of the Equity Shares may be highly volatile, or an active trading market for the Equity Shares may not develop.

The price of the Equity Shares on the Stock Exchanges may fluctuate as a result of the factors, including:

- Volatility in the Indian and global capital market;
- Company's results of operations and financial performance;
- Performance of Company's competitors,
- Adverse media reports on Company or pertaining to our Industry;
- Changes in our estimates of performance or recommendations by financial analysts; and
- Significant developments in India's economic and fiscal policies;

Current valuations may not be sustainable in the future and may also not be reflective of future valuations for our industry and our Company. There has been no public market for Equity Shares and the prices of the Equity Shares may fluctuate after this Issue. There can be no assurance that an active trading market for the Equity Shares will develop or be sustained after this Issue or that the price at which the Equity Shares are initially traded will correspond to the price at which the Equity Shares will trade in the market subsequent to this Issue.

EXTERNAL RISK FACTORS

74. Political, economic or other factors that are beyond our control may have an adverse effect on our business and results of operations.

We are dependent on domestic, regional and global economic market conditions. Our performance, growth and market price of our Equity Shares are and will be dependent to a large extent on the health of the economy in which we operate. There have been periods of slowdown in the economic growth of India. Demand for our services may be adversely affected by an economic downturn in domestic, regional and global economies. Further, global economic and political factors that are beyond our control, influence forecasts directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by these factors, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the industry, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

75. The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.

India's physical infrastructure, including its road, rail and port networks, electricity grid, communication systems and other public infrastructure, is subject to ongoing development and expansion. Our business operations depend, directly or indirectly, on the availability and functioning of such infrastructure for the movement of goods and supplies, access to utilities, communication and other activities required for our operations. Any congestion, interruption, breakdown or disruption in transportation networks, ports, railways, roads, electricity supply, telecommunications or other public infrastructure could affect the movement of raw materials, equipment and finished goods, disrupt our supply chain and operations, and delay the delivery of products or services to our customers. In addition, any disruption in public infrastructure caused by natural events, accidents, technical failures, strikes, regulatory actions or other factors could affect our ability to conduct our business. Any prolonged or recurring disruption to India's physical infrastructure could, therefore, interrupt or affect our business operations and may have an adverse effect on our business, results of operations, cash flows and financial condition.

76. Instability in financial markets could materially and adversely affect our results of operations and financial condition.

The Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, especially in the United States of America or Europe, may have a negative impact on the Indian economy. Although

economic conditions differ in each country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets. For example, any global financial turmoil originating from the United States of America may lead to a loss of investor confidence in worldwide financial markets. Indian financial markets have also experienced the contagion effect of the global financial turmoil, evident from the sharp decline in SENSEX, BSE's benchmark index in the past. Any prolonged financial crisis may have an adverse impact on the Indian economy and us, thereby resulting in a material and adverse effect on our business, operations, financial condition, profitability and price of our Equity Shares.

77. Any natural calamities or outbreak of any infectious or virulent diseases, if uncontrolled, may have an adverse effect on our operations.

India has experienced natural calamities such as earthquakes, tsunami, floods etc. In recent years, the extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares. Further, an outbreak of any infectious or virulent diseases, such as severe acute respiratory syndrome, the COVID-19 virus, the H1N1 virus, avian influenza (bird flu), the Zika virus or the Ebola virus, if uncontrolled, may have a material adverse effect on the economies of certain countries and our operations. If any of our employees or the employees of our suppliers and/or customers are infected with such diseases or if a significant portion of our workforce refuses to work for fear of contracting an infectious disease, our Company, our suppliers and/or our customers may be required to shut down operations for a period of time, and this could adversely affect our business, results of operations and financial condition.

78. Terrorist attacks or war or conflicts involving India or other countries could adversely affect consumer and business sentiment and the financial markets and adversely affect our business.

Terrorist attacks and other acts of violence or war may adversely affect global equity markets and economic growth as well as the Indian economy and stock markets. Such acts negatively impact business and economic sentiment, which could adversely affect our business and profitability. Also, India has from time to time experienced, and may continue to experience, social and civil unrest and hostilities with neighbouring countries. Armed conflicts could disrupt communications and adversely affect the Indian economy. Such events could also create a perception that investments in Indian companies involve a high degree of risk. This, in turn, could have a material adverse effect on the market for securities of Indian companies, including our Equity Shares. The consequences of any armed conflicts are unpredictable and we therefore may not be able to foresee events that could have an adverse effect on our business.

79. Changing regulations in India could lead to new compliance requirements that are uncertain.

The regulatory environment in which we operate is evolving and is subject to change. The Government of India may implement new laws or other regulations affecting the demand in the power and power distribution sector that we primarily serve, which could lead to new compliance requirements. New compliance requirements could increase our costs or otherwise adversely affect our business, financial condition and results of operations. Further, the manner in which new requirements will be enforced or interpreted can lead to uncertainty in our operations and could adversely affect our operations. Our business and financial performance could be adversely affected by any unexpected or onerous requirements or regulations resulting from any changes in laws or interpretation of existing laws, or the promulgation of new laws, rules and regulations. Any such changes and the related uncertainties with respect to the implementation or change in the legal framework may have a material adverse effect on our business, financial condition and results of operations.

80. Investor may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.

Under current Indian tax laws, capital gains arising from the sale of equity shares within 12 months in an Indian company are classified as short-term capital gains and generally taxable. Any gain realized on the sale of listed equity shares on a stock exchange that are held for more than 12 months is considered as long-term capital gains and is taxable. Accordingly, investors who acquire our Equity Shares pursuant to the Issue and subsequently transfer such Equity Shares after holding them for more than 12 months may be liable to pay tax on the long-term capital gains arising from such transfer, subject to the applicable tax rates, exemptions, thresholds, conditions and other provisions of the prevailing tax laws. Any long-term gain realized on the sale of equity shares, which are sold other than on a recognized stock exchange and on which no STT has been paid, is also subject to tax in India. Capital gains arising from the sale of equity shares are exempt from taxation in India where an exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable to pay tax in India as well as in their own jurisdiction on a gain on the sale of equity shares.

81. Any downgrading of India's sovereign rating by an independent agency or restrictions on ability of Indian companies to raise foreign capital may harm our ability to raise financing.

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares. Further, we are subject to exchange controls that regulate borrowing in foreign currencies, including those specified under the Foreign Exchange Management Act (the "FEMA") and the rules thereunder. Such regulatory restrictions limit our financing sources for our projects under development and hence could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that the required approvals for the same will be granted to us without onerous conditions, or at all. Limitations on foreign debt may adversely affect our business growth, results of operations and financial condition.

82. Our business and activities are regulated by the Competition Act.

The Competition Act, 2002 (the "Competition Act") was enacted for the purpose of preventing practices having an adverse effect on competition in India and has mandated the Competition Commission of India (the "CCI") to regulate such practices. Under the Competition Act, any arrangement, understanding or action, whether formal or informal, which causes or is likely to adversely affect competition in India is void and may result in substantial penalties. Any agreement among competitors which directly or indirectly determines purchase or sale prices, directly or indirectly results in bid rigging or collusive bidding, limits or controls production, supply, markets, technical development, investment or the provision of services, or shares the market or source of production or provision of services in any manner, including by way of allocation of geographical area or types of goods or services or number of clients in the relevant market or any other similar way, is presumed to adversely affect competition in the relevant market in India and shall be void. The Competition Act also prohibits the abuse of dominant position by any enterprise. Further, if it is proved that any contravention committed by a company took place with the consent or connivance or is attributable to any neglect on the part of, any director, manager, secretary or other officer of such company, that person shall be guilty of the contravention and may be punished. Consequently, all agreements entered into by us may fall within the purview of the Competition Act. The CCI has powers to investigate any agreements, abusive conduct or combination if they adversely affect competition in India. The applicability of any provision of the Competition Act, or any enforcement proceedings initiated by the CCI, or any adverse publicity that may be generated due to scrutiny or prosecution by the CCI or if any prohibition or substantial penalties are levied under the Competition Act, may adversely affect our business, results of operations and prospects.

83. Foreign investors are subject to foreign investment restrictions under Indian law that limit our ability to attract foreign investors, which may adversely affect the trading price of the Equity Shares.

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain restrictions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or falls under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Indian Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/tax clearance certificate from the income tax authority. Additionally, the GoI may impose foreign exchange restrictions in certain emergency situations, including situations where there are sudden fluctuations in interest rates or exchange rates, where the GoI experiences extreme difficulty in stabilizing the balance of payments or where there are substantial disturbances in the financial and capital markets in India. These restrictions may require foreign investors to obtain the GoI's approval before acquiring Indian securities or repatriating the interest or dividends from those securities or the proceeds from the sale of those securities. We cannot assure you that any required approval from the RBI or any other GoI agency can be obtained on any particular terms, or at all which may restrict the rights of such shareholders.

The time for applying for Individual Applicant on Bid/Offer Closing Date may be extended in consultation with the BRLM, RTA and BSE taking into account the total number of applications received up to the closure

of timings.

Due to the limitation of time available for uploading the Bid Cum Application Forms on the Bid/Offer Closing Date, Bidders are advised to submit their applications one (1) day prior to the Bid/ Offer Closing Date and, in any case, not later than 3.00 P.M. (IST) on the Bid/ Offer Closing Date. Any time mentioned in this Red Herring Prospectus is IST. Bidders are cautioned that, in the event a large number of Bid Cum Application Forms are received on the Bid/Offer Closing Date, some Bid Cum Application Forms may not get uploaded due to the lack of sufficient time. Such Bid Cum Application Forms that cannot be uploaded will not be considered for allocation under this Offer. Applications will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holidays). Neither our Company nor the BRLM is liable for any failure in uploading the Bid Cum Application Forms due to faults in any software/hardware system or otherwise.

In accordance with SEBI ICDR Regulations, Bidders/Applicants are not allowed to withdraw or lower the size of their application (in terms of the quantity of the Equity Shares or the Application amount) at any stage. Allocation to Individual Investor Applicants, in this Issue will be on a proportionate basis.

In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Bid Cum Application Form, for a particular Applicant, the details as per the file received from Stock Exchange may be taken as the final data for the purpose of Allotment. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or electronic Bid Cum Application Form, for a particular ASBA Applicant, the Registrar to the Offer shall ask the relevant SCSBs/ RTAs / DPs / stock brokers, as the case may be, for the rectified data.

WITHDRAWAL OF THE OFFER

Our Company in consultation with the BRLM, reserve the right to not to proceed with the Offer at any time before the Bid/ Offer Opening Date without assigning any reason thereof.

If our Company withdraws the Offer any time after the Bid/ Offer Opening Date but before the allotment of Equity Shares, a public notice within 2 (two) working days of the Bid/ Offer Closing Date, providing reasons for not proceeding with the Offer shall be issued by our Company. The notice of withdrawal will be issued in the same newspapers where the pre- Offer and price band advertisements have appeared and the Stock Exchange will also be informed promptly. The BRLM, through the Registrar to the Offer, will instruct the SCSBs to unblock the ASBA Accounts within 1 (one) working Day from the day of receipt of such instruction.

If our Company withdraws the Offer after the Bid/ Offer Closing Date and subsequently decides to proceed with an Offer of the Equity Shares, our Company will have to file a fresh Draft Red Herring Prospectus with the stock exchange where the Equity Shares may be proposed to be listed.

Notwithstanding the foregoing, the Offer is subject to obtaining (i) the final listing and trading approvals of the Stock Exchange with respect to the Equity Shares issued through the Red Herring Prospectus, which our Company will apply for only after Allotment; and (ii) the Filing of Red Herring Prospectus/ Prospectus with ROC.

DETAILS OF THE MARKET MAKING ARRANGEMENT FOR THIS OFFER

Our company may, in consultation with the Book Running Lead Manager, shall allot at least 5.00% of the Issue to the Market Maker under the Market Maker Reservation Portion as per the Regulation 261(4) of the SEBI ICDR Regulations. Our Company has entered into a Market Making Agreement dated July 09, 2026 with the following Market Maker for fulfilling the Market Making obligations under this Offer:

Name	Hem Finlease Private Limited
Correspondence Address:	203, Jaipur Tower, M I Road, Jaipur, Rajasthan 302001, India
Tel No.:	+91 -141-4051000
E-mail:	ib@hemsecurities.com
Website:	www.hemsecurities.com
Contact Person:	Ashok Soni
SEBI Registration No.:	INZ000167734
BSE Market Maker Registration No.	SMEMM0674109092020

In accordance with Regulation 261 of the SEBI ICDR Regulations, we have entered into an agreement with the Book Running Lead Manager and the Market Maker (duly registered with BSE to fulfil the obligations of Market Making) dated July 09, 2026 to ensure compulsory Market Making for a minimum period of three years from the date of listing of equity shares offered in this Offer.

Hem Finlease Private Limited, registered with SME Platform of BSE Limited will act as the Market Maker and has agreed to receive or deliver of the specified securities in the market making process for a period of three years from the date of listing of our Equity Shares or for a period as may be notified by any amendment to SEBI ICDR Regulations.

The Market Maker shall fulfil the applicable obligations and conditions as specified in the SEBI ICDR Regulations, as amended from time to time and the circulars issued by BSE and SEBI in this matter from time to time.

Following is a summary of the key details pertaining to the Market making arrangement:

- The Market Maker(s) (individually or jointly) shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the stock exchange. Further, the Market Maker(s) shall inform the exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker(s).
- The prices quoted by Market Maker shall be in compliance with the Market Maker Spread Requirements and other particulars as specified or as per the requirements of the BSE SME (SME Platform of BSE Limited) and SEBI from time to time.
- The investors with holdings less than the minimum lot size shall be allowed to offer their holding to the Market Maker(s) (individually or jointly) in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker.
- The Market Maker shall not sell in lots less than the minimum contract size allowed for trading on the SME platform of BSE Limited (in this case currently the minimum trading lot size is [●] equity shares of face value of ₹10/ each; however, the same may be changed by the SME platform of BSE Limited from time to time).
- After a period of three (3) months from the market making period, the Market Maker would be exempted to provide quote if the Shares of Market Maker in our company reaches to 25% of Offer Size. Any Equity Shares allotted to Market Maker under this Offer over and above 25% of Offer Size would not be taken in to consideration of computing the threshold of 25% of Offer Size. As soon as the Shares of Market Maker in our Company reduces to 24% of Offer Size, the Market Maker will resume providing 2 way quotes.
- There shall be no exemption/threshold on downside. However, in the event the Market Maker exhausts his inventory through market making process, BSE may intimate the same to SEBI after due verification.
- Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker(s), for the quotes given by him.
- There would not be more than five Market Makers for a script at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors.
- On the first day of the listing, there will be pre-opening session (call auction) and there after the trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction.
- The Market maker may also be present in the opening call auction, but there is no obligation on him to do so.
- There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while *force-majeure* will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final
- The Market Maker(s) shall have the right to terminate said arrangement by giving a six months' notice or on mutually acceptable terms to the Merchant Banker, who shall then be responsible to appoint a replacement Market Maker(s) and execute a fresh arrangement. In case of termination of the above-mentioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the BRLM to arrange for another Market Maker in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 261 of the SEBI (ICDR) Regulations, 2018, as amended. Further our Company and the BRLM reserve the right to appoint other Market Makers either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed five or as specified by the relevant laws and regulations applicable at that particulars point of time. The Market Making Agreement is available for inspection at our office from 10.00 a.m. to 5.00 p.m. on working days.
- **Risk containment measures and monitoring for Market Makers:** Stock Exchange will have all margins, which are applicable on BSE main board viz., Mark-to-Market, Value-At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. BSE can impose any other margins as deemed necessary from time-to-time.
- **Punitive Action in case of default by Market Makers:** SME Platform of BSE Limited (BSE SME) will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and/or non-compliances. Penalties / fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties / fines will be set by the Exchange from time to time. The Exchange will impose a penalty on

the Market Maker in case he is not present in the market (offering two way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership. The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties / fines / suspension for any type of misconduct/ manipulation/ other irregularities by the Market Maker from time to time.

- **Price Band and Spreads:** The price band shall be 20% and the market maker spread (difference between the sell and the buy quote) shall be within 10% or as intimated by Exchange from time to time
- Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side for market makers during market making process has been made applicable, based on the Offer size and as follows:

Offer Size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Offer Size)	Re-Entry threshold for buy quote (including mandatory initial inventory of 5% of the Offer Size)
Up to ₹20 Crore	25%	24%
₹20 to ₹50 Crore	20%	19%
₹50 to ₹80 Crore	15%	14%
Above ₹80 Crore	12%	11%

The SEBI Circular bearing reference no: CIR/MRD/DP/ 02/2012 dated January 20, 2012, has laid down that for offer size up to ₹250 crores, the applicable price bands for the first day shall be:

[#]1,25,000 equity shares include 5000 equity shares of Rs. 10 paid up and 1,20,000 equity shares on which Rs. 8 paid up

*Our Company had allotted 1,25,000 partly paid-up equity shares of face value ₹10 each (with applicable share premium) on January 16, 2017. The payment terms for the said shares were structured as follows:

- On Application: ₹5 per share along with ₹65 per share towards share premium;
- On First Call: ₹3 per share along with ₹57 per share towards share premium; and
- On Final Call: ₹2 per share along with ₹18 per share towards share premium.

While the application money and the first amounts were received from allottees, certain shareholders defaulted in payment of subsequent call monies. Consequently, in accordance with the provisions of the Companies Act, 2013 and the Articles of Association of our Company, 1,20,000 partly paid-up equity shares were forfeited by the Board of Directors. Such forfeited shares ceased to carry any rights, including voting and dividend rights, and stood cancelled. The balance 5,000 equity shares, for which all call monies were duly received, continue to remain validly issued, subscribed and fully paid-up

15. We have 8 (Eight) shareholders as on the date of filing of this Red Herring Prospectus.
16. As on the date of filing of this Red Herring Prospectus, there are no outstanding warrants, options or rights to convert debentures, loans or other instruments which would entitle Promoters or any shareholders or any other person any option to acquire our Equity Shares after this Initial Public Offer
17. Our Company has not raised any bridge loan against the proceeds of the Offer.

18. As on the date of this Red Herring Prospectus, none of the shares held by our Promoters / Promoters Group are subject to any pledge.
19. We hereby confirm that there will be no further issue of capital whether by way of issue of bonus shares, preferential allotment, rights issue or in any other manner except for this issue (IPO) during the period commencing from the date of filing of the Red Herring Prospectus until the Equity Shares offered have been listed or application money unblocked on account of failure of Offer.
20. An over-subscription to the extent of 10% of the Offer, subject to the maximum post Offer paid up capital of Rs. 25 Crore can be retained for the purpose of rounding off to the nearest integer during finalizing the allotment, subject to minimum allotment, which is the minimum application size in this Offer. Consequently, the actual allotment may go up by a maximum of 10% of the Offer, as a result of which, the post-offer paid up capital after the Offer would also increase by the excess amount of allotment so made. In such an event, the Equity Shares held by the Promoter and subject to 3-year lock- in shall be suitably increased; so as to ensure that 20% of the post offer paid-up capital is locked in.
21. At any given point of time there shall be only one denomination of the Equity Shares, unless otherwise permitted by law.
22. Our Company shall comply with such disclosure and accounting norms as may be specified by BSE, SEBI and other regulatory authorities from time to time.

25. There are no safety net arrangements for this public offer.
26. As per RBI regulations, OCBs are not allowed to participate in this offer.
27. Except for the equity shares offered by our promoter selling shareholder in the proposed offer, our Promoters and Promoter Group will not participate in this offer.
28. This Offer is being made through Book Building process.
29. Our Company has not made any public offer or rights issue of any kind or class of securities since its incorporation.
30. In terms of Rule 19(2)(b)(i) of the Securities Contracts (Regulation) Rules, 1957, as amended, (the SCRR) the Offer is being made for at least 25% of the post-offer paid-up Equity Shares Share capital of our Company. Further, this Offer is being made in terms of Chapter IX of the SEBI (ICDR) Regulations, 2018, as amended from time to time.
31. No person connected with the Offer shall offer any incentive, whether direct or indirect, in the nature of discount, commission, and allowance, or otherwise, whether in cash, kind, services or otherwise, to any Bidder/Applicant.
32. The Company is in compliance with the provisions of the Companies Act, 1956/2013, as applicable, with respect to issuance of securities since inception till the date of filing of the Red Herring Prospectus.

We shall ensure that transactions in Equity Shares by the Promoters and members of the Promoter Group, if any, between the date of filing the Red Herring Prospectus with the Registrar of companies and the Offer Closing Date are reported to the Stock Exchanges within 24 hours of such transactions being completed

OBJECTS OF THE OFFER

This Offer includes a fresh Issue of up to 44,12,800 Equity Shares of face value of ₹10/ each and Offer for Sale of up to 11,00,000 equity shares of face value of ₹10/ each by the promoter selling shareholders of our company at an offer price of ₹[●] per equity share.

We believe that listing will enhance our corporate image and visibility of brand name of our Company. We also believe that our Company will receive the benefits from listing of Equity Shares on the SME Platform of BSE Limited. It will also provide liquidity to the existing shareholders and will also create a public trading market for the Equity Shares of our Company.

The main objects clause of our Memorandum enables our Company to undertake its existing activities

Offer for Sale

Our Company will not receive any proceeds of the Offer for Sale by the Promoter Selling Shareholders. The Promoter Selling Shareholders will be entitled to the respective proportion of the proceeds of the Offer for Sale after deducting their portion of the Offer related expenses and relevant taxes thereon. Other than the listing fees for the Offer, all cost, fees and expenses in respect of the Offer will be shared amongst our Company and Promoter Selling Shareholders, respectively, in proportion to the proceeds received for the Fresh issue and their respective portion of Offered Shares, as may be applicable, upon the successful completion of the Offer.

Fresh Issue

Our Company proposes to utilize the funds which are being raised through the Fresh Issue, up to ₹[●] lakhs, after deducting the Offer related expenses to the extent payable by our Company with respect to the Fresh Issue, towards funding the following objects:

- 1) Funding capital expenditure towards setting up of manufacturing facility at Liwaspur, Sub- Tehsil Rai, Distt. Sonapat, Haryana
- 2) To meet working capital requirements.
- 3) Repayment of certain borrowing availed by our Company, in part or full.
- 4) General Corporate Purpose.

(Collectively referred as the “**Objects**”)

We are an ISO 9001:2015 certified company engaged in the manufacturing of transformers across different voltage ratings. Our product offerings include distribution transformers, power transformers, transformers for solar applications, and special purpose transformers. These transformers are utilized across multiple sectors to facilitate the transmission and distribution of electrical energy. We focus on delivering quality and reliability in our product range, supported by standardized manufacturing practices and compliance with applicable industry norms. Transformers serve critical functions in power generation, transmission, and distribution networks, and are deployed in diverse industrial and infrastructure projects.

	Total	[●]

**To be finalized upon determination of the Offer Price and updated in the Prospectus prior to filing with the RoC. The amount utilized for general corporate purposes shall not exceed 15% of the amount raised by our Company through Proceeds from Fresh Issue or Rs. 10 Crores, whichever is lower.*

Our fund requirements and deployment thereof are based on internal management estimates of our current business plans and have not been appraised by any bank or financial institution. These are based on current conditions and are subject to change in light of changes in external circumstances or costs or in other financial conditions, business strategy, as discussed further below.

Means of Finance

We intend to finance our Objects of Offer through Net Offer Proceeds which is as follows:

Particulars	Amt (Rs. in Lacs)
Net Offer Proceeds	[●]
Total	[●]

Since, the entire fund requirement is to be funded from the proceeds of the Fresh Issue and existing identifiable internal accruals, there is no requirement to make firm arrangements of finance under Regulation 230(1)(e) of the SEBI ICDR Regulations through verifiable means towards at least 75% of the stated means of finance.

In case of any increase in the actual utilization of funds earmarked for the Objects, such additional funds for a particular activity will be met by way of means available to our Company, including from internal accruals. If the actual utilization towards any of the Objects is lower than the proposed deployment such balance will be used for future growth opportunities including funding existing objects, if required. In case of delays in raising funds from the Offer, our Company may deploy certain amounts towards any of the above mentioned Objects through a combination of Internal Accruals or Unsecured Loans (Bridge Financing) and in such case the Funds raised shall be utilized towards repayment of such Unsecured Loans or recouping of Internal Accruals. However, we confirm that no bridge financing has been availed as on date, which is subject to being repaid from the Offer Proceeds.

As we operate in a competitive environment, our Company may have to revise its business plan from time to time and consequently our fund requirements may also change. Our Company's historical expenditure may not be reflective of our future expenditure plans. Our Company may have to revise its estimated costs, fund allocation and fund requirements owing to various factors such as economic and business conditions, increased competition and other external factors which may not be within the control of our management. This may entail rescheduling or revising the planned expenditure and funding requirements, including the expenditure for a particular purpose at the discretion of the Company's management.

For further details on the risks involved in our business plans and executing our business strategies, please see the section titled "**Risk Factors**" beginning on page 21 of this Red Herring Prospectus.

Notes:

- We have considered the above quotations for the budgetary estimate purpose. The actual cost of procurement and actual supplier/dealer may vary.
- All quotations received from the vendors mentioned above are valid as on the date of this Red Herring Prospectus. However, we have not entered into any definitive agreements with any of these vendors and there can be no assurance that the same vendors would be engaged to eventually supply the machineries/equipment's or at the same costs.
- The machinery/equipment models and quantity to be purchased are based on the present estimates of our management. The Management shall have the flexibility to revise such estimates (including but not limited to change of machinery or vendor or addition/deletion of any machinery) at the time of actual placement of the order. In such case, the Management can utilize the surplus of proceeds, if any, arising at the time of actual placement of the order, to meet the cost of such other machinery, equipment's or utilities, as required for manufacturing. Furthermore, if any surplus from the proceeds remains after meeting the total cost of machineries, equipment's and utilities for the aforesaid purpose, the same will be used for our general corporate purposes, subject to limit of 15% of the amount raised by our Company through Proceeds from Fresh Issue or Rs. 10 Crores, whichever is lower.
- We are not acquiring any second hand machinery.

The quotations relied upon by us in arriving at the above cost are valid for a specific period of time and may lapse after the expiry of the said period. Consequent upon which, there could be a possible escalation in the cost of machineries proposed to be acquired by us at the actual time of purchase, resulting in increase in the project cost.

Further, cost can be escalated on account of freight expenses, installation charges, packaging & forwarding, custom duty & taxes etc. Such cost escalation would be met out of either of surplus portion of net Offer proceeds (if any) or our internal accruals. All amounts are exclusive of taxes.

Key assumptions for working capital projections made by Our Company:

The following table sets forth the details of the holding period (with days rounded to the nearest whole number) considered for the financial years ended March 31, 2026, March 31, 2025 and March 31, 2024, as well as estimated for financial year ended March 31, 2027 and March 31, 2028.

Particulars	31-Mar-24	31-Mar-25	31-Mar-26	31-Mar-27	31-Mar-28
Debtors (in days)	46	59	74	80	80
Inventory (in days)	51	29	32	37	40
Creditors (in days)	70	57	55	50	46

The working capital gap is projected to increase in line with the Company's expected growth in operations and revenue from operations. The increase is mainly attributable to higher trade receivables and inventories required to meet larger order volumes and longer credit terms extended to customers along with shortening of credit cycle with trade payables for better rate negotiation. The Company's business is primarily project and order based. With expansion in operations and anticipated increase in transformer manufacturing capacity, both the receivable and inventory levels are expected to rise proportionately.

Justification:

Sr. No.	Particulars
Debtors	During FY 2025-26, the Company recorded revenue from operations of Rs. 36,310.82 lakhs, of which more than 50% was generated from Government customers. Corresponding to this revenue, trade receivables as on 31 March 2026 stood at Rs. 7,321.19 lakhs, reflecting a trade receivable cycle of approximately 74 days. Transformer orders typically involve longer payment cycles as supplied units undergo multi-level inspection, testing and acceptance procedures, with final approval often granted only after third-party inspection. These requirements inherently extend the payment cycle despite timely delivery. The Company intends to continue expanding its power and distribution transformer portfolio, and while strengthening its presence in the Government segment, also plans to grow its non-government corporate customer base, which may require offering extended credit terms to remain competitive. Accordingly, trade receivable days are estimated at around 80 days for the projected period, i.e. FY 2026-27 and FY 2027-28.
Inventories	The inventory holding period of the Company has historically ranged between 29 and 51 days over the last three financial years (FY 2023-24 to FY 2025-26). Based on operational planning, the Company estimates inventory holding days to be maintained in the range of approximately 37 to 40 days during FY 2026-27 and FY 2027-28, having regard to the lead time for procurement of raw materials, the manufacturing process and completion of finished goods. Further, in light of the enhanced capital expenditure undertaken by the Company, the minimum inventory requirement is expected to increase going forward as compared to FY 2025-26.
Creditors	Historically, trade payable days have remained in the range of 55 to 70 days during FY 2023-24 to FY 2025-26. The Company expects trade payable days to be in the range of 46 to 50 days going forward. Key raw materials used in transformer manufacturing - CRGO steel, copper, aluminium, transformer oil and core components - are subject to significant price volatility and supply constraints; to ensure uninterrupted production and secure stable pricing, the Company intends to make faster payments to suppliers and settle dues early, availing cash discounts and negotiating better pricing. Over the last three years the Company has also recognised interest on delayed payments to MSME vendors of approximately Rs. 0.24 lakhs in FY 2025-26, Rs. 23.66 lakhs in FY 2024-25 and Rs. 11.70 lakhs in FY 2023-24. To comply with the MSMED Act and the Income Tax Act, which mandate timely payment to MSME suppliers (generally within 45 days), the Company plans to ensure prompt settlement of MSME dues going forward, which is expected to improve PAT margins by avoiding interest penalties and strengthen relationships with key suppliers.

3. Repayment of certain borrowing availed by our Company, in part or full.

As on June 30, 2026, our outstanding fund-based borrowings from the below mentioned loans were amounted to Rs. 741.34 lakhs. Our Company has entered into various financial arrangements from time to time, with banks, financial institutions and other parties. The loan facilities availed by our Company include borrowing in the form of, inter alia, working capital term loan, MSME LAP loan, and working capital facility in the form of Cash Credit from various lenders. For further details, see "**Statement of Financial Indebtedness**" on page 213 of this Red Herring Prospectus. Our Company proposes to utilize an estimated amount of ₹728.34 lakhs from the Net Proceeds towards full or partial repayment or pre-payment of certain borrowings, listed below, availed from the lenders by our Company. Pursuant to the terms of the financing arrangements, prepayment of certain borrowings may attract prepayment charges as prescribed by the respective lender. Such prepayment charges, as applicable, will be funded from the internal accruals of our Company. We believe that such repayment/ pre-payment will help reduce our outstanding indebtedness, debt servicing costs, assist us in maintaining a favourable debt to equity ratio and enable utilization of our internal accruals for further investment in our business growth and expansion. Additionally, we believe that the leverage capacity of our Company will improve our ability to raise further resources in the future to fund our potential business development opportunities and plans to grow and expand our business. The stated object has been placed before the Board of Directors of the Company at its meeting held on August 03, 2026. The details of the borrowings availed by our Company, which are proposed to be fully or partially repaid or pre-paid from the Net Proceeds is mentioned below:

(Amount in Rs. Lakhs)

Sr. No.	Name of the lender	Nature of the borrowing	Sanctioned amount	Amount Outstanding as at 30 June 2026	Existing Rate of Interest (%)	Repayment Schedule	Prepayment Penalty	Amount proposed to be repaid	Purpose for which the loan was sanctioned*
1	Indian Bank	Term Loan (LAP)	980	741.34	8.20%	Rs. 12.99 lakhs payable in 120 months	14.57 (2%)	728.34	For Acquisition of Immovable property

Note: The details included in the above table have been certified by our Statutory Auditors pursuant to their certificate dated August 03, 2026.

**Our Statutory Auditors by way of their certificate dated August 03, 2026 have confirmed that the borrowings specified above has been utilized for the purposes availed, as per the sanction letters/loan agreements issued by the respective banks.*

4. General Corporate Purpose

Our management, in accordance with the policies of our Board, will have flexibility in utilizing the proceeds earmarked for general corporate purposes. We intend to deploy the balance Fresh Issue proceeds aggregating Rs. [●] towards the general corporate purposes to drive our business growth. In accordance with the policies set up by our Board, we have flexibility in applying the remaining Net Proceeds, for general corporate purpose including but not restricted to, meeting operating expenses, initial development costs for projects other than the identified projects, and the strengthening of our business development and marketing capabilities, meeting exigencies, which the Company in the ordinary course of business may not foresee or any other purposes as approved by our Board of Directors, subject to compliance with the necessary provisions of the Companies Act, 2013.

We confirm that any Offer related expenses shall not be considered as a part of General Corporate Purpose. Further in case, our actual Offer expenses turn to be lesser than the estimated Offer expenses of Rs. [●] lakhs, such surplus amount shall be utilized for General Corporate Purpose in such a manner that the amount for general corporate purposes, as mentioned in the Prospectus, shall not exceed 15% of the amount raised by our Company through this Issue or Rs. 10 crores whichever is lower.

Proposed Schedule of Implementation:

The proposed year wise break up of deployment of funds and Schedule of Implementation of Net Issue Proceeds is as under:

(Rs. In Lakhs)			
S. No.	Particulars	Amount to be deployed and utilized in	
		2026-27	2027-28
1	Funding capital expenditure towards setting up of manufacturing facility at Liwaspur, Sub-Tehsil Rai, Distt. Sonapat, Haryana	6213.66	-
2	To meet working capital requirements	2700.00	800.00
3	Repayment of certain borrowing availed by our Company, in part or full	728.34	-
4	General Corporate Purpose	[●]	[●]
	Total	[●]	[●]

To the extent our Company is unable to utilize any portion of the Net Proceeds towards the Objects, as per the estimated schedule of deployment specified above, our Company shall deploy the Net Proceeds in the subsequent Financial Year towards the Objects.

Means of finance of the project

Since, the entire fund requirement is to be funded from the proceeds of the Fresh Issue and existing identifiable internal accruals, there is no requirement to make firm arrangements of finance under Regulation 230(1)(e) of the SEBI ICDR Regulations through verifiable means towards at least 75% of the stated means of finance. In case of a shortfall in the Proceeds from the Fresh Issue or any increase in the actual utilisation of funds earmarked for the Objects, our Company may explore a range of options including utilizing our internal accruals and/or seeking additional debt from existing and/or other lenders. For further details on the risks involved in our business plans and executing our business strategies, please see the section titled “**Risk Factors**” beginning on page 21 of the Red Herring Prospectus.

Appraisal

None of the Objects have been appraised by any bank or financial institution or any other independent third-party organization. The funding requirements of our Company and the deployment of the proceeds of the Issue are currently based on available quotations and management estimates. The funding requirements of our Company are dependent on a number of factors which may not be in the control of our management, including but not limited to variations in interest rate structures, changes in our financial condition and current commercial conditions of our Business and are subject to change in light of changes in external circumstances or in our financial condition, business or strategy.

Shortfall of Funds

Any shortfall in meeting the fund requirements will be met by way of internal accruals and/or borrowings and/or unsecured Loans.

Bridge Financing Facilities

As on the date of this Red Herring Prospectus, we have not entered into any bridge finance arrangements that will be repaid from the Net Proceeds. However, in case of delay in the IPO and consequent delay in accessing the net proceeds of the Offer, we may draw down such amounts, as may be required, from an overdraft arrangement / cash credit / term loan facility with our lenders or through unsecured loans to finance setting up of facilities as described in the section ‘Objects of the Offer’ until completion of the Offer. Any amount that is drawn down from such facility availed from any Bank/NBFC or Financial Institution or through unsecured loans during this period to finance ‘**Objects of the Offer**’ will be repaid from the Net Proceeds of the Offer

Monitoring Utilization of Funds

ANNEXURE TO THE STATEMENT OF SPECIAL TAX BENEFITS

The information provided below sets out the special tax benefits available to the Company and the Equity Shareholders under the Income Tax Act, 2025 as amended by the Finance Act, 2026 presently in force in India. It is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Investors are advised to consult their own tax consultant with respect to the tax implications of an investment in Equity Shares particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation on the benefits, which an investor can avail.

A. SPECIAL DIRECT AND INDIRECT TAX BENEFITS TO THE COMPANY:

The Company is not entitled to any special tax benefits under the Income Tax Act, 2025 as amended by the Finance Act, 2026 and GST Act.

B. SPECIAL DIRECT AND INDIRECT TAX BENEFITS TO THE SHAREHOLDERS:

The Shareholders of the Company are not entitled to any special tax benefits under the Income Tax Act, 2025 as amended by the Finance Act, 2026 and GST Act.

NOTES:

1. The above Annexure of special tax benefits sets out the provisions of Tax Laws in a summary manner only and is not a complete analysis or listing of all potential tax consequences of the purchase, ownership and disposal of shares.
2. The above Annexure covers only the special tax benefits under the Act, read with the relevant rules, circulars and notifications and does not cover any benefit under any other law in force in India. This Annexure also does not discuss any tax consequences, in the country outside India, of an investment in the shares of an Indian company.
3. The above Annexure of special tax benefits is as per the current direct tax laws relevant for the assessment year 2026-27. Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant provisions of the Tax Laws.
4. In respect of non-residents, the tax rates and consequent taxation mentioned above will be further subject to any benefits available under the relevant Double Taxation Avoidance Agreement, if any, entered into between India and the country in which the non-resident has fiscal domicile.
5. A new Section 115BAA has been inserted by the Taxation Laws (Amendment) Act, 2019 ('the Amendment Act, 2019') with effect from Financial Year 2019-20 granting an option to domestic companies to compute corporate tax at a reduced rate of 25.168% (22% plus surcharge of 10% and cess of 4%), provided such companies do not avail specified exemptions/ incentives. The option under section 115BAA of the Act once exercised cannot be subsequently withdrawn for any future financial year. The Amendment Act, 2019 further provides that domestic companies availing such option will not be required to pay Minimum Alternate Tax ('MAT') under Section 115JB. The CBDT has further issued Circular 29/2019 dated October 02, 2019 clarifying that since the MAT provisions under Section 115JB itself would not apply where a domestic company exercises the option of lower tax rate under Section 115BAA, MAT credit would not be available.

With effect from April 1, 2026, the corresponding provisions are contained in Section 200 of the Income-tax Act, 2025. Section 200 provides an option to a domestic company to compute its income tax liability at the rate of 22%, subject to computation of its total income in accordance with the conditions specified thereunder. The surcharge applicable to a company opting for Section 200 is 10%, irrespective of the amount of total income, and health and education cess is applicable at the prescribed rate. Accordingly, the effective tax rate, based on the presently applicable surcharge and cess, is approximately 25.168%

The Company has exercised the option under Section 115BAA of the Income-tax Act, 1961 for the periods covered by the Restated Financial Information. The said option corresponds to Section 200 of the Income-tax Act, 2025 for tax years beginning on or after April 1, 2026.

In such a case, the Company is not allowed to claim any of the following deductions/ exemptions/ allowances under the Act: -

- deduction in respect of profits and gains derived by eligible units established in a Special Economic Zone;
- additional depreciation in respect of new plant and machinery;

- specified investment-linked deductions and allowances, including deductions relating to investment in notified backward areas, tea, coffee or rubber development accounts and site restoration funds;
- specified deductions in respect of expenditure on scientific research;
- deductions in respect of specified businesses and agricultural extension projects;
- deductions in respect of expenditure on notified skill development projects;
- deductions under Chapter VIII of the Income-tax Act, 2025, other than the deductions specifically permitted under Section 200, including the corresponding deductions relating to employment of new employees and certain inter-corporate dividends;
- set-off of any loss carried forward or depreciation from an earlier tax year, to the extent such loss or depreciation is attributable to any exemption, deduction or allowance not permissible under the concessional tax regime; and
- set-off of any loss or unabsorbed depreciation deemed under the provisions relating to amalgamation, demerger, business reorganisation or succession, to the extent such loss or depreciation is attributable to any exemption, deduction or allowance not permissible under the concessional tax regime.

Under Section 200 of the Income-tax Act, 2025, the total income is specifically required to be computed without deductions under Sections 45(2), 47(1)(b), Chapter VIII other than Sections 146 and 148, and the provisions specified in Section 205(1)(a) to (g). Further, losses and depreciation attributable to such deductions cannot be set off and are deemed to have been given full effect, with no further deduction being available in subsequent tax years.

A company that has validly exercised the option under Section 115BAA of the Income-tax Act, 1961 was not subject to Minimum Alternate Tax under Section 115JB of that Act. Correspondingly, the Minimum Alternate Tax provisions contained in Section 206 of the Income-tax Act, 2025 do not apply to a company that has exercised the option under Section 200.

Further, the option exercised under Section 200 is required to be exercised in the prescribed manner on or before the due date for furnishing the return of income. Once exercised, the option applies to subsequent tax years and cannot subsequently be withdrawn. Failure to satisfy the prescribed conditions in any tax year would render the option invalid for that tax year and subsequent tax years.

6. Lower corporate tax rate under Section 115BAA of the Act and Minimum Alternate Tax ('MAT') credit under section 115JAA of the Act which are in general available and hence may not be treated as special tax benefits.
7. The Company has evaluated and decided to exercise the option permitted under Section 115BAA of the Act for the purpose of computing its income-tax liability from the Financial Year 2023-24.
8. This Annexure is intended only to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of tax consequences, each investor is advised to consult his or her tax advisor with respect to specific tax consequences of his/her investment in the shares of the Company.
9. For the purpose of reporting here, we have not considered the general tax benefits available to the company or shareholders.
10. The above statement covers only certain relevant direct tax law benefits and indirect tax law benefits or benefits.
11. No assurance is given that the revenue authorities/ courts will concur with the views expressed herein. GLOBAL ECONOMIC OUTLOOK

The global economic outlook has shifted markedly as the conflict in the Middle East has generated major disruptions in energy markets. Before the outbreak of the conflict, global activity seemed to be on a firm footing, supported by strong growth in some major economies and better-than expected global trade, amid robust growth in artificial intelligence (AI)-related technology exports and a slight decline in tariff levels. The conflict, however, has led to a marked deterioration in the global outlook, with about two-thirds of economies around the world facing weaker growth prospects. Disruptions to flows of energy and other commodity supplies from the Gulf region have led to sharp commodity price increases. Overall, commodity prices are expected to rise by 22 percent in 2026, in contrast to the 7 percent decline expected in January. This reflects a baseline assumption that shipping through the Strait of Hormuz remains severely disrupted through July, with shipping volumes haltingly resuming thereafter, and approaching pre-conflict levels by the end of the year. These disruptions are projected to keep energy prices elevated, with the Brent crude oil price averaging \$94/barrel (bbl) in 2026, an increase of 36 percent over 2025 and more than 50 percent above the January projection. European natural gas prices are anticipated to rise about 30 percent in 2026, on tightened liquefied natural gas (LNG) availability globally. The conflict has also severely disrupted global fertilizer trade, triggering sharp price increases that reflect the Gulf’s large share of global fertilizer exports and the surge in natural gas prices, a key input for nitrogen fertilizers.

While conflict-related disruptions are weighing on commodity trade flows, an improved trade policy environment and buoyant AI-related investment provide countervailing support to global trade. This is in part attributable to a slight decline in U.S. tariffs following a U.S. Supreme Court ruling that struck down tariffs imposed on international economic emergency grounds, alongside trade liberalization efforts by other countries. The increase in commodity prices has led to a notable resurgence of inflationary pressures. Headline inflation has picked up in both advanced economies and emerging market and developing economies (EMDEs), though the impact was attenuated somewhat by the introduction of fuel subsidies and price caps in some economies. In addition, core inflation has firmed across many EMDEs and in some large economies. As a result, headline inflation expectations have risen broadly. The sharp escalation in geopolitical stress also resulted in elevated volatility across financial markets. Concerns about inflationary pressures have pushed up bond yields as well as breakeven rates of inflation in major advanced economies, and expectations of near-term monetary policy easing have dissipated. In addition, equity markets weakened in the initial weeks of the conflict but many have mostly recovered following the ceasefire, largely as a result of AI optimism.

Across EMDEs, equity prices declined, bond yields increased, and currencies came under pressure amid capital outflows, with only a partial recovery for some commodity importers after hostilities eased. In contrast, financial conditions in energy-exporting EMDEs outside the Middle East, and other EMDEs with improved policy frameworks and substantial buffers, have recovered more quickly. In this context, global growth is forecast to slow this year to 2.5 percent, the lowest rate since the COVID-19 pandemic, as higher energy prices, rising inflation, tighter monetary conditions, and weaker trade weigh on activity. The expected deceleration is driven by slowing growth in advanced economies and EMDEs reliant on imported energy, as well as sharply weaker exports in economies in the Middle East directly exposed to the conflict. Global growth is envisaged to pick up to 2.8 percent on average in 2027–28 as energy prices moderate, financial conditions ease, and trade recovers. Growth in advanced economies is forecast to slow this year, to 1.5 percent, from 1.8 percent in 2025, mainly due to the impact of substantially higher energy prices. The United States—a large oil producer—is proving resilient to the disruptions in global energy markets, with the adverse impacts of the conflict expected to be offset by fiscal easing and continued AI-related investment.

Growth in the euro area is projected to face somewhat greater headwinds due to the region's reliance on natural gas and oil imports, but nevertheless the outlook remains only slightly weaker than January forecasts following better than-anticipated data in late 2025 and a solid start to 2026. Growth in advanced economies is expected to edge up to 1.7 percent in 2027–28 as energy prices decline, inflation pressures subside, monetary conditions ease, and uncertainty recedes. Growth in EMDEs is anticipated to decelerate to 3.6 percent in 2026—0.4 percentage point below January projections. The expected near-term deceleration across EMDEs depends on their degree of exposure to the conflict and its associated disruptions, with growth in those economies directly affected by hostilities tumbling from 3.9 percent in 2025 to close to zero in 2026. Over 2027–28, lower energy prices, renewed monetary easing, and a recovery in trade are envisaged to underpin a broad-based pickup in activity, with growth rebounding to 4.2 percent over 2027–28. The outlook for low-income countries (LICs) has also deteriorated notably, with the conflict amplifying pre-existing vulnerabilities, including food insecurity, elevated inflation, constrained fiscal space, and weak policy buffers. In addition, beyond the human toll, the recent Ebola outbreak may weigh on activity in some large LIC economies. In per capita terms, growth in EMDEs in 2026 is projected to slow to its weakest pace since the pandemic, with the conflict and lingering disruptions impacting EMDEs to varying degrees. In EMDEs excluding China and India, subdued per capita income growth is expected to lead to nearly a decade of lost income convergence with advanced economies by 2028. Weaker growth prospects, combined with constrained fiscal space and declining official development assistance (ODA), are stripping away critical buffers for the most vulnerable countries, widening existing development gaps and exacerbating food insecurity and poverty, especially in LICs and economies in fragile and conflict-affected situations (FCS).

The outlook is subject to substantial downside risks. In particular, a further surge in energy prices and a sharper acceleration in inflation could weigh on global growth, with the impact potentially amplified by financial market stress. Specifically, if energy supply disruptions prove more severe than currently assumed and are accompanied by substantial financial stress, global growth could fall to just 1.3 percent in 2026, and inflation would rise to 4.4 percent. Growth could also be weaker if trade tensions and trade policy uncertainty escalate, or if global financial conditions tighten in response to rising inflationary pressures or heightened fiscal concerns in major economies, or if equity market valuations decline, especially in the technology sector. In addition, activity could be disrupted by the rising frequency of weather related natural disasters with worsening economic impacts. On the upside, increased spending on AI-related investment that broadens across geographies and lifts exports of countries embedded in AI supply chains could boost global growth in the short run. In the longer term, higher productivity related to effective AI adoption could raise trend global growth, including through the adoption of smallAI solutions in EMDEs.

Global policy action is essential to confront continued challenges. The conflict in the Middle East is likely to exacerbate food insecurity, warranting coordinated global action to bolster emergency food aid mechanisms and establish humanitarian corridors to prevent further deterioration. Global cooperation is also needed to bolster multilateral trading arrangements, deepen and diversify trade partnerships, and modernize cross-border investment frameworks, alongside efforts to enhance supply chain finance to ease liquidity constraints and reduce nontariff barriers within regional value chains. Additionally, accelerating the energy transition is key to addressing environmental and energy security challenges. Clean energy investment has risen significantly, but its rate of growth has slowed in recent years. At the national level, EMDE central banks will need to carefully calibrate their policy stance to guard against inflation becoming entrenched while limiting the drag on growth, alongside heightening vigilance to financial stability risks amid renewed market volatility and shifts in risk appetite. EMDE fiscal policy makers face mounting challenges as elevated debt and borrowing costs, along with new pressures—including those related to spending on security needs and higher energy prices—are increasingly constraining fiscal space. In particular, rising debt burdens increase borrowing costs and further erode fiscal space. This in turn constrains resources for infrastructure, public services, and other investments needed to support private sector growth and job creation. Lower and more volatile revenues, sharp commodity price swings, and limited buffer accumulation during good times create especially difficult fiscal policy challenges for commodity-exporting EMDEs. Weak revenue mobilization, particularly in LICs, where refinancing risks and interest burdens have increased, is adding to debt sustainability concerns. EMDEs face a major jobs challenge as 1.2 billion young people are expected to reach working age by 2035. The jobs imperative cuts across the broader policy agenda, particularly at a time when the global economy finds itself at another difficult juncture. Headwinds stemming from conflict related disruptions, higher borrowing costs, heightened uncertainty, and constrained fiscal space, will have a direct bearing on EMDEs' ability to increase investment and productivity in job-rich sectors and create employment. These challenges come as the effects of generative AI technologies on labour markets are still unfolding and likely to be uneven across EMDEs. In response, policy action must be calibrated not only to stabilize the near-term outlook, but also to lay the structural foundations for sustained growth. EMDEs can tackle these challenges through a steadfast

commitment to the fundamentals of long-term growth and job creation: greater food and energy security, better foundational infrastructure, practical diffusion of technology, and openness to trade and diversification, all underpinned by fiscal discipline, strong institutions, enabling regulation, investment in human capital, and the catalytic role of private capital mobilization. In particular, countries need to reverse the decline in private investment, which has been on a downward trend since the 2000s. In this context, a comprehensive set of structural reforms could help policymakers boost private investment substantially.

Global trade

Following the U.S. Supreme Court ruling striking down the use of tariffs on international economic emergency grounds, the U.S. administration introduced a temporary 10 percent tariff surcharge under a different law, set to expire in late July. Together with sector- and country-specific measures, the U.S. effective tariff rate has declined slightly, to about 12 percent from about 14 percent earlier this year. While trade policy uncertainty remains elevated, several initiatives are expected to support trade growth and diversification. They include recent free trade agreements between the European Union and Mercosur, India, and Australia respectively, and between the United Kingdom and India. They also include unilateral market access initiatives such as China's zero-tariff treatment for African countries and the U.S. reauthorization of the African Growth and Opportunity Act. Despite these supporting factors, growth in global goods and services trade is projected to decelerate from 4.8 percent in 2025 to 2.9 percent in 2026, reflecting a reversal of the earlier front-loading activity in anticipation of higher trade barriers; the delayed impact of tariffs; and the effects of the conflict in the Middle East, including disruptions related to the closure of the Strait of Hormuz. Partially offsetting these headwinds, goods trade is envisaged to be supported by continued robust demand for AI-related products. Meanwhile, services trade growth is set to ease, in part reflecting rising travel and transport costs due to higher fuel prices. Compared with previous projections, however, trade growth in 2026 is 0.7 percentage point higher, reflecting continued resilience, strong AI-related activity, lower global tariffs, and recent trade agreements. Global trade growth is then projected to firm to an average of 3.2 percent in 2027–28, broadly in line with global output, as the adverse effects of tariffs and policy uncertainty ease. Tariff rates in effect as of mid-May 2026 are assumed to prevail throughout the forecast period. The trade outlook remains subject to substantial downside risks.

A re-escalation of the conflict in the Middle East and increased geopolitical tensions could further disrupt goods trade logistics, including maritime and air transport. Uncertainty about the safety of key shipping routes, together with higher fuel prices, could raise shipping costs and weigh on goods trade (Brancaccio, Kalouptsi, and Papageorgiou 2023; von Below and Vézina 2016). In addition, prolonged geopolitical stress could lead to sharp declines in services trade, particularly tourism (Mulabdic and Yotov 2025). A renewed escalation of trade tensions, potentially extending to third countries and involving secondary sanctions—measures targeting firms or countries trading with sanctioned entities—as well as uncertainty around previously concluded trade agreements, could further dampen trade growth prospects.

Risks are tilted firmly to the downside, largely because of the possibility of the prolongation or escalation of the conflict in the Middle East, which has already led to closures of crucial shipping routes and economic disruptions. Rising global inflationary pressures driven by high energy prices could lead to expectations of higher policy rates and even higher bond yields. The rising frequency and intensity of natural disasters pose growing risks to lives, livelihoods, and the global economy. A downside scenario that includes further energy market stress would raise global inflation by 0.5 percentage point in 2026 relative to the baseline and lower growth by up to 0.4 percentage point. An even more adverse scenario that also includes financial stress would result in markedly weaker growth. Policy makers face formidable challenges. Stronger global cooperation is needed to mitigate food insecurity and deepen trade amid geopolitical strains, as well as advance the energy transition. Domestically, EMDE central banks need to balance price stability with support to growth while managing currency pressures and financial volatility. On the fiscal side, higher energy costs and tighter monetary conditions are increasing deficits and debt, particularly in commodity exporters where fiscal policy is constrained by reliance on resource revenues and weak tax systems. At the same time, rapid population growth and technological change are intensifying the jobs challenge in EMDEs. Subdued private investment is further limiting job creation and constraining long-term growth.

Amid heightened trade barriers and geopolitical strains, regional trade agreements (RTAs) have emerged as key complements to the global rules-based system. The share of global trade within these agreements increased from about 40 percent in 1990 to more than 60 percent by 2025. Meanwhile, accelerating the energy transition is key to addressing environmental and energy security challenges. Although clean energy investment growth experienced a marked increase after the pandemic—especially investment in renewable power as well as energy efficiency and electrification—the pace of growth has slowed in recent years.

INDIAN ECONOMY OVERVIEW

Growth has remained robust, despite some moderation. Real GDP expanded by 7.8% year-on-year in the quarter ending in December (Q3 FY2025–26), easing from 8.4% in the previous quarter. High-frequency indicators, including softer industrial production, suggest a loss of momentum. Retail indicators and survey based measures of consumer sentiment point to an easing of private consumption as higher food and energy prices weigh on households' real purchasing power. At 3.5% year-on-year in April, headline inflation has picked up since early 2026, driven primarily by food prices, but core inflation has remained broadly stable and below the mid-point of the central bank's target band of $4\% \pm 2\%$. The depreciation of the rupee relative to the US dollar of around 7% since the beginning of the year has added to inflationary pressures by raising import costs, particularly for fuel and fertilisers, with partial pass-through to consumer prices. Labour market conditions are softening, with the employment rate declining from 40.5% in December to 39.5% in April. India's crude oil and natural gas dependence on the Middle East is substantial, with crude oil imports accounting for about 46% of total imports in 2024 and natural gas for about 57%. Energy import prices have risen sharply in recent months, but only part of that has fed into domestic energy prices. Reductions in excise duties on petrol and diesel and the removal of import duties on selected petrochemical inputs, alongside export levies on refined products, have helped to contain the pass-through from international prices to domestic inflation. Rationing measures have prioritised natural gas supply to households and transport, while expanding access to kerosene through the public distribution system and increasing the availability of small LPG cylinders for migrant workers. The recent reduction in US import tariffs lowered the average effective tariff rate on India by 23 percentage points, reducing pressures on exporting sectors.

The Reserve Bank of India reduced the monetary policy rate from 6.5% in January 2025 to a broadly neutral level of 5.25% in February 2026 and average lending rates have fallen. Non-food bank credit (bank credit net of food procurement-related lending) expanded by 15.9% year-on-year in March. However, recent developments point to a re-emergence of inflationary pressures. Headline inflation has begun to rise, driven primarily by higher food prices as favourable base effects fade. Higher oil and gas prices are adding both direct and indirect pressures, increasing transportation and production costs across sectors. The depreciation of the rupee is further amplifying imported inflation by raising the domestic cost of fuel, fertilisers and other tradable goods. In this context, a temporary increase in the policy rate of around 25 basis points is projected by the end of the first quarter of FY2026-27 to help maintain inflation within the 4% $\pm$ 2% target band and anchor expectations. As inflationary pressures recede over the projection horizon, monetary policy is expected to ease in FY2027-28. Fiscal policy is projected to become expansionary in FY2026-27 to cushion the impact of higher energy prices. The FY2026-27 budget envisaged a reduction in the fiscal deficit from 4.4% of GDP in FY2025-26 to 4.3% of GDP. However, measures adopted to mitigate the energy price shock are expected to widen the deficit by around 0.4% of GDP relative to the budgeted path. These measures will provide near-term support to household real incomes and limit the impact on consumption but will also slow the pace of public debt reduction, which is expected to reach 54.7% in FY2027-28. Fiscal policy is expected to return to a moderate consolidation path in FY2027-28 as energy prices stabilise and temporary support measures are phased out.

The FY26 was an unusually challenging year for the economy on the external front. Heightened uncertainty in global trade and the imposition of high, penal tariffs created stress for manufacturers, particularly exporters, and affected business confidence. The government responded by using this crisis as an opportunity to push through key measures such as GST rationalisation, faster progress on deregulation, and further simplification of compliance requirements across sectors. FY27 is therefore expected to be a year of adjustment, as firms and households adapt to these changes, with domestic demand and investment gaining strength. That said, it must be acknowledged that the external environment remains uncertain, which shapes the overall outlook.

The outlook for the global economy remains dim over the medium-term, with downside risks dominating. At the global level, growth is expected to remain modest, leading to broadly stable commodity price trends. Inflation across economies has trended downward, and monetary policies are therefore expected to become more accommodative and supportive of growth. However, certain key risks persist. If the AI boom fails to deliver the anticipated productivity gains, it could trigger a correction in overly optimistic asset valuations, with the potential for broader financial contagion. Additionally, a protraction of trade conflicts would weigh on investment and further weaken the global growth outlook. These forces collectively suggest that downside risks to global growth remain prominent, although a fragile stability holds for now.

For India, these global conditions translate into external uncertainties rather than immediate macroeconomic stress. Slower growth in key trading partners, tariff induced disruptions to trade and volatility in capital flows could intermittently weigh on exports and investor sentiment. At the same time, ongoing trade negotiations with the United States are expected to conclude during the year, which could help reduce uncertainty on the external front. While these risks remain manageable, they reinforce the importance of maintaining adequate buffers and policy credibility.

Against this backdrop, the domestic economy remains on a stable footing. Inflation has moderated to historically low levels, although some firming is expected to occur going forward. Balance sheets across households, firms and banks are healthier, and public investment continues to support activity. Consumption demand remains resilient, and private investment intentions are improving. These conditions

provide resilience against external shocks and support the continuation of growth momentum. The forthcoming rebasing of the CPI series in the coming year will also have implications for inflation assessment and warrant careful interpretation of price dynamics.

Importantly, the cumulative impact of policy reforms over recent years appears to have lifted the economy's medium-term growth potential closer to 7 per cent. With domestic drivers playing a dominant role and macroeconomic stability well anchored, the balance of risks around growth remains broadly even. Taking these considerations together, the Economic Survey projects real GDP growth in FY27 in the range of 6.8 to 7.2 per cent. The outlook, therefore, is one of steady growth amid global uncertainty, requiring caution, but not pessimism.

POWER SECTOR IN INDIA- INTRODUCTION

Power is one of the most critical components of infrastructure, playing a central role in economic growth and social development. For India, building and maintaining adequate power infrastructure has been vital to sustaining high growth and improving quality of life. Guided by the principle of universal access to affordable and sustainable electricity, the Ministry of Power has transformed the sector in recent years by creating a single national grid, strengthening distribution networks, and achieving near-universal household electrification. India's power sector is among the most diversified in the world, drawing from conventional sources such as coal, lignite, natural gas, oil, hydro, and nuclear power, as well as non-conventional sources including wind, solar, and biomass. Rapidly rising electricity demand continues to drive capacity expansion, making large-scale additions to generation capacity essential for the future. India emerged as the world's third-largest producer of wind and solar energy electricity in 2025, behind US and China, according to the sixth edition of Ember's Global Electricity Review. The report highlighted that wind and solar accounted for 17% of global electricity generation in 2025, with India's share at 14% in 2025. It is also the only G20 nation on track to meet its Paris Agreement targets. The country's wind energy sector, in particular, is advancing steadily toward the ambitious goal of 100 GW by 2030, according to the Indian Wind Turbine Manufacturers Association (IWTMA). Electricity demand has been rising sharply. In FY25, India consumed 1,622.97 billion units of electricity, an increase of 32% over FY21, translating into a 5-year CAGR of 7.17%. Peak power demand is expected to reach 277 GW in FY26, and overall energy demand is projected to grow at 6-6.5% annually over the next five years, underscoring the scale of opportunities and challenges for the sector.

Market Size

India is the third-largest producer and consumer of electricity in the world, with an installed capacity of 523.79 GW as of December 2025. In FY25, the country generated 1,829.70 BU of power, a 5.21% YoY increase over FY24. In December 2025, India's electricity demand reached a record 2,41,213 Megawatt (MW), with 2,41,201 Megawatt (MW) supplied, up from earlier peaks in October and November, reflecting rising consumption amid economic growth, per the National Load Despatch Centre (NLDC). The sector continues to see rapid growth in renewable energy. India added a record 37.91 GW renewable capacity in 2025 (April-December), surpassing fossil fuels in total clean energy capacity for the first time and advancing towards its 500 GW non-fossil fuel target by 2030. By the end of December 2025, solar energy contributed 135.81 GW, wind 54.51 GW, biomass 10.76 GW, small hydropower 5.16 GW, waste-to-energy 0.86 GW, and hydropower 50.91 GW. Nuclear power capacity stood at 8.78 GW. India recorded its highest renewable energy share as renewables met 51.5% of the country's 203 GW electricity demand in July 2025, up from 6% in FY15. India's Nuclear Energy Mission sets a target of achieving 100 GW of nuclear power capacity by 2047. Renewable growth has been matched by record investments.

In June 2025, capacity surged 420% YoY, led by solar at 117 GW and wind at 51.7 GW, supported by Rs. 84,309 crores (US\$ 9.8 billion) of investments in Q1 2025. Financing support is also expanding, with bank loans to renewable energy under Priority Sector Lending (PSL) reaching Rs. 7,558 crores (US\$ 874.1 million) in April 2024-January 2025, prompting proposals for a dedicated sub-target for green projects. Thermal power continues to play a dominant role. India had 219.61 GW of installed coal capacity as of December 2025, supported by record coal production of 1,047.68 MT. Power shortages fell sharply to 0.1% in FY25 from 4.2% in FY14, underscoring improved supply reliability. Thermal plant load factors are expected to improve to 63% in FY24, driven by strong demand growth and limited new capacity addition. Electricity consumption remains led by industry at 41.8%, followed by households at 24.3%, agriculture at 17%, and commercial use at 8.3%. Consumption growth has been steady, with power use rising 33% between FY21 and FY25 at a five-year CAGR of 7.4%. India met a record peak demand of 241.2 GW in December 2025, highlighting the scale of demand growth. The investment outlook for the sector remains robust. According to Motilal Oswal, the Indian power sector offers an investment opportunity of Rs. 40,00,000 crores (US\$ 461.95 billion) over the next decade, driven by rising demand, infrastructure upgrades, and a transition toward clean energy.

Power is one of the key sectors attracting FDI inflow into India, and it accounted for about 2.65% of the total FDI inflow until June 2025. From April 2000-June 2025, India recorded FDI inflow worth Rs. 1,69,772.12 crores (US\$ 23.05 billion) in the non-conventional

energy sector. Total FDI inflows in the power sector reached Rs. 1,21,734.99 crores (US\$ 19.8 billion) between April 2000-June 2025, accounting for 2.7% of the total FDI, underscoring strong investor confidence and the sector's long-term growth potential.

HEAVY ELECTRICAL - KEY SEGMENTS

1. BOILERS

India steam boiler systems market size is expected to reach nearly US\$ 22.56 billion by 2027 with the CAGR of 4.63% during the forecast period. The boiler market in India is expected to grow from US\$ 704.6 million in FY19 to US\$ 1.1 billion in FY30 with an expected CAGR of 3.8%.

2. TURBINES AND GENERATOR SETS

The India generator sets market is expected to grow at a CAGR of more than 5% over the period of 2020-25. The India diesel gensets (generator sets) market is expected to reach US\$ 2.78 billion by 2030 compared to US\$ 1.48 billion by 2022 at a CAGR of 8.20%. The current annual production capacity of domestic wind turbines is about 15,000 MW. In 2022, GE Steam Power signed a US\$ 165 million contract with Bharat Heavy Electricals Ltd to supply 3 nuclear steam turbines for India's domestic nuclear power programme.

3. TRANSFORMERS

The India power transformer market is expected to rise at a CAGR of more than 3% during the forecast period of 2020-25. Factors such as increasing power generation capacity to meet energy demand and expansion of transmission and distribution systems are likely to drive the India power transformer market. A whole range of power and distribution transformers, including a special type of transformer required for furnaces, electric tracts and rectifiers, are manufactured in India.

4. SWITCHGEAR AND CONTROL GEAR

India switchgear market size was estimated at US\$ 9.75 million in 2022 and is expected to grow at CAGR of 7.12% reaching a value of US\$ 18.23 million by 2029.

Closing the Demand–Supply Gap

A decade ago, electricity shortages were a recurring constraint on both economic activity and daily life. Power cuts disrupted manufacturing, irrigation, healthcare services, and household routines. Bridging the gap between rising demand and available supply was therefore a central priority. Through sustained additions in generation and transmission capacities, improved planning, and stronger grid management, this gap has steadily narrowed. During FY 2025–26, India successfully met a peak power demand of 242.49 gigawatts (GW). The power shortage also declined sharply to 0.03% till December 2025, compared to 4.2% in FY 2013–14, reflecting a significant improvement in supply adequacy. This progress has been particularly significant outside major urban centres. Rural and semi-urban regions now experience longer and more predictable hours of power supply. Reliable electricity has also reduced reliance on diesel generation and traditional fuels, lowering costs and improving environmental outcomes.

Adequate generation alone does not guarantee access. Electricity must reach homes, farms, and enterprises through a strong and efficient distribution network. Recognising this, focused attention was given to strengthening last-mile infrastructure across the country. Under the Deen Dayal Upadhyaya Gram Jyoti Yojana (DDUGJY) and the Integrated Power Development Scheme (IPDS) both launched in December 2014, significant investments were made to strengthen and modernise distribution infrastructure. DDUGJY focused on creating basic electricity infrastructure in villages through the strengthening and augmentation of existing networks, along with metering of feeders and distribution transformers. IPDS targeted urban areas by upgrading sub-transmission and distribution networks, introducing metering of distribution transformers, feeders, and consumers, and implementing information technology-enabled systems such as Enterprise Resource Planning, smart metering, Gas Insulated Substations, and Real-Time Data Acquisition Systems. These efforts were complemented by the Pradhan Mantri Sahaj Bijli Har Ghar Yojana (Saubhagya), recognised as one of the world's largest universal electrification initiatives. It focused on providing last-mile connectivity and electricity connections to all unelectrified households in the country.

Collectively, these initiatives involved investments of approximately ₹1.85 lakh crore. Over 18,374 villages were electrified, and around 2.86 crore households received electricity connections during the Saubhagya period from October 2017 to March 2022. Daily average

power supply has improved significantly across both rural and urban areas over the past decade. In rural India, average daily supply increased from 12.5 hours in FY14 to 22.6 hours in FY25, reflecting substantial gains in reliability and access. Urban areas also saw improvement, with daily average supply rising from 22.1 hours to 23.4 hours over the same period. Per capita electricity consumption in India has also risen to 1,460 kilowatt-hours in 2024–25, registering an increase of 503 kilowatt-hours (about 52.6%) compared to 957 kilowatt-hours in 2013–14.

RISING DEMAND FOR ELECTRICAL EQUIPMENT

The electrical equipment market share in India is expected to increase from US\$ 52.98 billion in 2022 to US\$ 125 billion by 2027, implying a robust CAGR of 11.68%. India's electrical materials market was valued at Rs. 1,804.63 billion (US\$ 20.44 billion) in 2025 and is projected to reach Rs. 2,645.10 billion (US\$ 29.39 billion) by 2034, registering a CAGR of 3.99% during 2026–2034.

- India's imports of electrical machinery and equipment stood at Rs. 1,124.63 billion (US\$ 13.30 billion) in FY25, while imports reached Rs. 1,259.88 billion (US\$ 14.26 billion) during April–February FY26, according to DGCI&S data.
- The Indian electrical equipment industry comprises 2 broad segments, Generation equipment (boilers, turbines, generators) and Transmission & Distribution (T&D) and allied equipment like transformers, cables, transmission lines, etc.
- The sector contributes about 8% to the manufacturing sector in terms of value, and 1.5% to overall GDP.
- Incentives for capacity addition in power generation will further increase the demand for electrical machinery.
- The electrical equipment market share in India is expected to increase by US\$ 52.98 billion from 2022 to reach US\$ 124.83 billion in 2027, and the market's growth momentum will accelerate at a CAGR of 11.68%.
- The electrical machinery segment grew nearly 13% with shipments jumping to US\$ 10.19 billion in the April–December 2023 from US\$ 9.06 billion in the year-ago period.

NATIONAL ELECTRICITY PLAN VOLUME II – TRANSMISSION (KEY FEATURES)

India is now amongst the fastest developing countries in the world in terms of GDP as well as the electricity consumption. Electricity demand in the country has increased at a CAGR of about 5 % during the period 2017-22. During the period 2022-24, electricity demand has increased at a CAGR of about 9.46 %. The development of an efficient, coordinated, economical and robust electricity system is essential for smooth flow of electricity from generating station to load centers and for optimum utilization of resources in the country in order to provide reliable, affordable, uninterrupted (24x7) and Quality Power for all.

Transmission system establishes the link between source of generation on one side and distribution system, which is connected to ultimate consumer, on the other side. Transmission planning is a continuous process of identification of transmission system addition requirements, their timing and need. Need for augmentation of transmission system could arise from the following: -

- Addition of electricity generation capacity
- Increase in electricity demand
- System strengthening that may become necessary to achieve reliability.

Transmission System planned for the period 2022-27

Expansion of transmission system depends on the projected electricity demand and the generation capacity addition. As per 20th EPS Report, peak electricity demand during 2026-27 is 277 GW and the installed generation capacity required to meet this electricity demand is 609.6 GW on all-India basis as per National Electricity Plan (Vol I: Generation). Details are given below.

Installed Generation Capacity (MW) by 2026-27 as per NEP (Generation)

	Coal	Gas	Hydro	PSP	Nuclear	Wind	Solar	Biomass	Small Hydro	Total	BESS
All - India	235133	24824	52446	7446	13080	72896	185566	13000	5200	609591	8680

However, based on inputs from MNRE/SECI regarding RE potential zones materialising by 2026-27 and considering the connectivity applications submitted by RE generation developers to CTUIL as well as information regarding RE capacity to be integrated to intra-state network as furnished by STUs, about 111 GW of wind and 208 GW of solar generation capacity is likely to be commissioned by 2026-27. Transmission system has to be planned for the additional RE potential zones. Hence, for planning of transmission system, the installed electricity generation capacity by 2026- 27 has been considered as 669 GW as given below:

Installed Generation Capacity (MW) likely by 2026-27 considered for Transmission Planning

	Coal	Gas	Hydro	PSP	Nuclear	Wind	Solar	Biomass	Small Hydro	Total	BESS
All - India	235133	24824	52446	7446	12080	110951	208260	13000	5200	669340	8680

Further, as per the revised 20th Electric Power Survey (EPS) Report (draft), the projected peak electricity demand during 2026-27 is 296 GW. Based on the planned generation capacity addition and projected electricity demand, 1,14,687 ckm of transmission lines and 7,76,330 MVA of transformation capacity (220 kV and above voltage levels) are planned to be added during the period 2022-27. Based on the planned generation capacity addition and projected electricity demand, 1,14,687 ckm of transmission lines and 7,76,330 MVA of transformation capacity (220 kV and above voltage levels) are planned to be added during the period 2022-27. With the planned addition, the length of transmission lines and transformation capacity in sub-stations (220 kV and above voltage level) would become 5,71,403 ckm and 18,47,280 MVA respectively. 14,625 ckm of transmission lines and 75,902 MVA of transformation capacity (220 kV and above voltage levels) has been added during the year 2022-23. 14,203 ckm of transmission lines and 70,728 MVA of transformation capacity (220 kV and above voltage levels) has been added during the year 2023-24. Target of transmission system augmentation during 2024-25 is 16,667 ckm of transmission lines and 1,16,490 MVA of transformation capacity (220 kV and above voltage level).

INTER-REGIONAL TRANSMISSION LINKS (TILL 2027)

There has been substantial growth in inter-regional power transmission capacity to facilitate smooth flow of power from surplus to deficit regions and for optimum utilization of the country's generation resources. Aggregate inter-regional transmission capacity by the end of 2021-22 was 1,12,250 MW. Inter-Regional transmission capacity addition planned during the period 2022-27 is 30,690 MW. With this, the Inter-Regional transmission capacity would increase from 1,12,250 MW during 2021-22 to 1,42,940 MW by the end of 2026-27 as given below:

Inter-Regional Transmission Capacity (MW)			
Inter-Regional corridors	At the end of 2021-22 (31.03.2022)	Addition planned during the period 2022-27	At the end of 2026-27 (31.03.2027)
West – North	36,720	18,400	55,120
North East - North	3,000	0	3,000
East – North	22,530	0	22,530
East – West	21,190	1,600	22,790

East - North East	2,860	690	3,550
Total	112,250	30,690	1,42,940

Inter-regional transmission capacity of 6,490 MW has been commissioned during 2022-24 (till 31st March, 2024), 7,400 MW capacity is under construction, 8,400 MW capacity is under bidding and 8,400 MW capacity is planned and has to be taken up for bidding/construction during the year 2024-25. The Inter-regional transmission capacity as on 31st March, 2024, was 1,18,740 MW.

ESTIMATED COST OF TRANSMISSION SYSTEM DURING THE PERIOD 2022-27 and 2027-32

Estimated expenditure of Rs. 4,25,222 Crore would be required for implementation of additional transmission system in the country (transmission lines, sub-stations, reactive compensation etc.) during the period 2022-27.

Estimated expenditure of Rs. 4,90,920 Crore would be required for implementation of additional transmission system in the country (transmission lines, sub-stations, reactive compensation etc.) during the period 2027-32. As the States/UTs are in the process of firming up the intra-State transmission plan for the 2027-32, the estimated cost of intra-State transmission system and the overall cost would change subsequently.

GROWTH OF SUB-STATIONS

Cumulative growth in transformation capacity of sub-stations and HVDC terminals (220 kV and above voltage levels) since the end of 6th five-year plan to 2023-24.

CROSS BORDER POWER TRANSFER

At present, exchange of power between India and Neighbouring countries (Nepal, Bangladesh, Bhutan and Myanmar) is taking place in synchronous as well as asynchronous mode. Transmission links (at 33 kV, 132 kV and 400 kV levels) have been established between Border States (Bihar, UP, Uttarakhand, Tripura, West Bengal and Assam) of Indian Territory with neighbouring countries. Some interconnections are under construction and several cross border interconnections have been planned. At present about 4,100 MW of

power is being exchanged with the neighbouring countries through cross border links and the same is likely to increase to about 7,000 MW by the end of 2026-27. Interconnection between India and Sri Lanka is in advanced stage of discussion. Under One Sun One World One Grid (OSOWOG) initiative, interconnection of Indian Electricity Grid with Singapore, UAE, Saudi Arabia etc. are under discussion.

TRANSMISSION PLAN FOR RENEWABLE ENERGY SOURCES

The installed generating capacity from RE sources as on 31st March, 2022, was 157 GW (including 46.72 GW large hydro), which was about 39% of the total installed capacity. As on 31 st May, 2024, the installed electricity generating capacity in the country from RE sources was 193.5 GW (including 46.92 GW large hydro), which is about 43.5% of the total installed electricity generating capacity in the country. The RE potential zones in the country are primarily located in Rajasthan, Gujarat, Karnataka, Andhra Pradesh, Maharashtra, Tamil Nadu, Uttar Pradesh, Madhya Pradesh and Leh. Transmission system has been planned for over 600 GW RE capacity/ potential zones by the year 2031-32

GROWTH OF TRANSMISSION SYSTEM

There has been a consistent expansion in the transmission network and increase in transformation capacity in the country. This increase is in consonance with the increase in electricity generation and electricity demand in the country. There has been more increase in the transmission system at higher voltage levels. This aspect of growth in transmission system highlights the requirement of transmission network to carry bulk power over longer distance and at the same time optimize Right of Way (RoW), minimize transmission losses and improve grid reliability.

BUSINESS OVERVIEW

We are an ISO 9001:2015 certified company engaged in the manufacturing of transformers across different voltage ratings. Our product offerings include distribution transformers, power transformers, transformers for solar applications, and special purpose transformers. These transformers are utilized across multiple sectors to facilitate the transmission and distribution of electrical energy. We focus on delivering quality and reliability in our product range, supported by standardized manufacturing practices and compliance with applicable industry norms. Transformers serve critical functions in power generation, transmission, and distribution networks, and are deployed in diverse industrial and infrastructure projects.

Our Company was incorporated in 1995, in the initial years of operation, we were primarily engaged in the repair and servicing of distribution and power transformers. Recognizing the growth potential in the power infrastructure sector and leveraging our experience, we established the manufacturing facility of transformers in the year 2005-06 from our first manufacturing facility located at Plot no. 1413, HSIDC, Industrial Estate, Rai, District Sonapat. Subsequently, to meet increasing market demand and expand our production capacity, we established a second manufacturing facility located at Plot No. 1676–1677, Sector-38, Phase-I, HSIIDC Industrial Estate, Rai, District Sonapat, Haryana. In line with our strategic growth plans and to improve operational efficiency, we have implemented a synergistic system of backward integration. As part of this integration, our group company, SHR Powers Private Limited, manufactures transformer tanks/bodies, which are key components utilized in the production of our transformers. This integration enables us to optimize our production processes, achieve cost efficiencies, enhance control over our supply chain, and reduce reliance on external suppliers.

We follow standard practices in quality assurance, regulatory compliance, and process improvement to meet customer and industry requirements. Our approach has supported the development of long-term relationships with a wide range of customers, including government entities, utility companies, EPC contractors, and industrial clients. The Company is an approved vendor for over 20 entities, which includes power distribution corporations, public sector undertakings, and public utility companies. Details of our revenue bifurcation based on transformer supplied to government and non-government customer provided below-

As of March 31, 2026, we operate through two manufacturing units, Plot No. 1676–1677, Sector-38, Phase-I, HSIIDC Industrial Estate, Rai, District Sonapat, Haryana and Plot no. 1413, HSIDC, Industrial Estate, Rai, District Sonapat collectively spread across approximately 2025 sq. mtrs and 1012.5 sq. mtrs. These facilities have a combined installed production capacity of approximately 15,00,000 KVA for Distribution transformer and 1350 MVA for Power transformer as on March 31, 2026. Our manufacturing units are equipped with requisite machinery and equipment, including wire jointing machine, CU strip machine, aluminium strip machine, slating machine, HT covering machine, power press machine, LT winding machine, HT winding machine, ovens, cranes, power disc welding machine, oil filtration machine, compressor, cutting machine and drill machines, etc. enabling us to maintain quality standards and efficiency in our production processes. Our manufacturing operations are conducted in accordance with applicable industry standards and regulatory guidelines. The company places emphasis on the strict manufacturing norms, testing, and timely delivery of transformers, all tailored to meet specific customer requirements.

Our company aims to deliver single/three phase CRGO oil filled distribution or power transformers which are designed according to customer requirements and individual factors like voltage, power, climate, system landscape, sound level etc. We implement control measures at each stage of the manufacturing process to ensure that the transformers comply with applicable technical specifications, regulatory standards, and customer requirements. Our manufacturing process uses key raw materials such as CRGO (Cold Rolled Grain Oriented) steel, copper/aluminium conductors, transformer oil, insulating materials and fabricated transformer tanks. Over the years, we have established long-standing relationships with our suppliers, enabling us to procure quality raw materials in a timely manner and at competitive prices.

The manufacturing process includes core cutting, coil winding, core-coil assembly, tank fabrication, drying, oil filling, final assembly, and testing. We have established in-house facilities for core cutting/slitting, wire drawing or strip drawing, tank fabrication etc. which helps us in meeting the design requirements and expectations of our customers with different types of shapes and size, it also helps us achieve sustain quality standards, reduce dependence on third party and make our process cost effective. We also operate an in-house testing laboratory equipped to conduct routine and type tests in line with relevant Indian Standards (IS) and customer requirements. Our company is ISO 9001:2015 certified. We manufacture products in compliance with Bureau of Indian Standards (BIS) and are authorized to use the ISI mark on applicable products. Additionally, several of our products are certified under the Bureau of Energy Efficiency (BEE) STAR rating program, supporting energy efficiency and compliance with regulatory norms.

Our business operations are led by our Promoter, Sanjeev Kanda, who has played a key role in the establishment and growth of the Company. With around 31 years of experience in the transformer industry, he has contributed towards strategic planning, operational execution, and expansion of our Company. Under his leadership, the Company has expanded its operations to a full-scale manufacturing and has established a presence in power transmission sector. He is further supported by our directors, Key Managerial Personnels and Senior management having diverse experiences in the field of transformer manufacturing, finance, regulatory compliance. The team is responsible for day-to-day operations and execution of the Company's business strategy, ensuring adherence to technical and commercial standards across functions. The combined expertise of our Promoter and senior management enables us to maintain operational discipline, respond to customer requirements, and pursue new opportunities in the power and energy sector.

RoCE (%) ⁽⁷⁾	46.72%	43.09%	34.00%

Notes:

⁽¹⁾ Revenue from operation means revenue from sales and other operating revenues

⁽²⁾ EBITDA is calculated as Profit before tax + Depreciation + Interest Expenses - Other Income

⁽³⁾ 'EBITDA Margin' is calculated as EBITDA divided by Revenue from Operations

⁽⁴⁾ PAT is calculated as Profit before tax – Tax Expenses

⁽⁵⁾ 'PAT Margin' is calculated as PAT for the year divided by revenue from operations.

⁽⁶⁾ Return on Equity is ratio of Profit after Tax and Average Shareholder Equity

⁽⁷⁾ Return on Capital Employed is calculated as EBIT divided by capital employed, which is which is defined as shareholders' equity plus total borrowings {current & non-current}

OUR PRODUCTS

The products currently manufactured by us are provided below:

Transformer type & Description	
--------------------------------	--

Distribution Transformers Distribution Transformers reduce the electricity voltage supplied from transmission lines to levels suitable for residential, commercial, and industrial use. Phase – Single / Three Voltage range– upto 3150 KVA Conductor – Copper or aluminium	
Power Transformers Power Transformers are electrical devices used in the transmission and distribution of electrical energy. They are essential components of electrical grids. Phase – Single / Three Conductor – Copper or aluminium	
Transformers for solar applications Solar application Transformer are transformer specifically designed for use in solar power systems. Solar power systems, such as photovoltaic (PV) systems and solar farms, generate electricity from sunlight. Conductor – Copper or aluminium	
Special Purpose Transformers Special purpose Transformer are the transformer designed for unique or specialized applications beyond the typical power distribution and voltage transformation. Conductor – Copper or aluminium

OUR COMPETITIVE STRENGTHS

1. Established Manufacturing facility and In-house operations

We operate through our two manufacturing facilities one situated at Plot No. 1676–1677, Sector-38, Phase-I, HSIIDC Industrial Estate, Rai, District Sonapat, Haryana and Plot no. 1413, HSIDC, Industrial Estate, Rai, District Sonapat collectively spread across approximately 2025 sq. mtrs and 1012.5 sq. mtrs. The manufacturing facility located at Plot No. 1676–1677, Sector-38, Phase-I, HSIIDC Industrial Estate, Rai, District Sonapat, Haryana is equipped with LT winding machine, HT Winding machine, Ovens, Cranes, Power disc welding machine, Oil filtration machine, compressor, Cutting machine and Drill machines capable of manufacturing & material handling to facilitate smooth and on time production and Plot no. 1413, HSIDC, Industrial Estate, Rai, District Sonapat is equipped with Wire jointing machine, CU Strip machine, Aluminium strip machine, Slating machine, HT Covering machine, Power press machine. Our manufacturing units are equipped with the required machinery, equipment and infrastructure and capable to carry out the requisite manufacturing activities and are in compliance with the manufacturing standards. Further, we have established in-house facilities for core cutting/slitting, wire drawing or strip drawing, tank fabrication etc. which helps us in meeting the design requirements and expectations of our customers with different types of shapes and size, it also helps us achieve sustain quality standards, reduce dependence on third party and make our process cost effective. We have capabilities across the different levels of our manufacturing process including product designing, testing and effectiveness, for meeting the requirement of our customers. Our manufacturing setup coupled with our experience in the industry also gives us better control over the product quality and efficiency. Our experience and established manufacturing facility have enabled us to deliver our products and provide timely solution to our customers in accordance with their requirements and specifications, in a cost-effective manner without compromising on quality.

2. Strong Order Book

As on June 30, 2026, we have 83 orders in hand which include transformers aggregating into an order book of Rs. 32,967.92 lakhs. We believe that consistent growth in our order book has materialized due to our continued focus on quality and our ability to retain our customers. We believe that our experience in designing, manufacturing, operational capabilities, technical capabilities, reputation for quality and timely delivery as well as the price competitiveness has enabled us to retain our existing customers and getting new customers.

3. Established relationship with the clients including government entities, power utilities.

We have developed and maintained long-standing relationships with a diverse client base, including government entities, power utilities, EPC contractors, and industrial customers. The Company is an approved vendor for over 20 entities, including power distribution corporations, public sector undertakings, and public utility companies. These relationships are built on consistent performance, adherence to quality standards, and timely delivery of products. As a B2B business, our existing clients continue to engage with us due to product quality and timely delivery. These relationships also help us acquire new clients along with expansion of business with existing ones. Further, As of March 31, 2026, we had a customer base of around 121 customers spanning across different industries. Our revenue from our top 5 customers was ₹16833.94 Lakhs, ₹24341.20 Lakhs and ₹10954.64 Lakhs for the financial years ended March 31, 2026, 2025, and 2024, which constituted 46.36%, 75.08 % and 68.07 % of our total revenue from operations. Our existing relationship with our clients represents a competitive advantage in gaining new clients, increasing our business and improve our customer retention strategy. Below are the details of the revenue received from government including state electricity boards and other than government clients by our products provided below-

4. Quality assurance

Quality plays an important role in success of our business as quality helps us to retain and satisfy existing customer, attract new customer, building reputation, brand image, and providing us competitive advantage over our competitors. Our quality assurance activities include initial inspection of materials before they are entered into the production process these include size verification, dimension, weight and quality as per the requisite standards, BDV test of transformer oil, clearances & insulation gap during core coil assembly, leakage testing after tanking, joint / final inspection and pre dispatch check. Further, we have obtained Quality Management System ISO 9001:2015 certification, ensuring compliance with quality management standards for both the manufacturing facilities located at units located at Plot No. 1676–1677, Sector-38, Phase-I, HSIIDC Industrial Estate, Rai, District Sonapat, Haryana and Plot no. 1413, HSIDC, Industrial Estate, Rai, District Sonapat. We have also obtained BIS approval for transformers with capacities up to 2500 kVA and is certified by BEE for Level 2/3 energy efficiency ratings. Further many of our customers required us to test our product in our testing laboratory or third party labs to ensure quality of our product and ensure our products meets to the requirements of the customers. The quality of our products has made us able to retain our existing customers and attract new customers.

5. Experienced and Strong Promoters/Management team:

We have an experienced and dedicated management team led by our promoters Sanjeev Kanda, who has played a key role in the establishment and growth of the Company. With around 31 years of experience in the transformer industry, he has contributed towards strategic planning, operational execution, and expansion of our Company. Under his leadership, the Company has expanded its operations to a full-scale manufacturing and has established a presence in power transmission sector. He is further supported by our directors, Key Managerial Personnels and Senior management having diverse experiences in the field of transformer manufacturing, finance, regulatory compliance. With a team possessing understanding and experience, we have previously delivered suitable solutions and meet the evolving needs of our clients. Further, our employee base is the key to our competitive advantage. We believe that the skills and diversity of our employees give us the flexibility and agility to adapt to the future needs of our business.

6. Track record of profitability and consistent financial performance

We have maintained a strong track record of financial performance, demonstrating our operational efficiency. Our revenue from operations for the financial years ended March 31, 2026, 2025, and 2024, stood at Rs. 36310.82 Lakhs, Rs. 32,420.98 Lakhs and Rs. 16,094.61 Lakhs respectively. Our presence, technological know-how and experience underscore our capacity to effectively grow in the energy transmission equipment and power sector. Our technology driven operations and low operational costs have resulted in comparatively higher operating margins. We have been able to scale our operations with limited capital expenditure and working capital to offer additional service offerings. Our financial growth is further reflected in the continuous strengthening of our balance sheet over the last three fiscal years highlighting our ability to sustain profitability while scaling operations. For further details, refer to **Basis for Offer Price – Key Performance Indicators** on page 96.

Further, we also focus on maintaining an optimal capital structure through prudent leverage management. As of March 31, 2026, our debt-to-equity ratio stood at 0.27:1, factoring in long-term borrowings, short-term borrowings, including current maturities of Long term debt in relation to equity share capital and Reserve and surplus. This ensures stability and positions us well for long-term growth.

OUR BUSINESS STRATEGIES

1. Expand our manufacturing facility: -

We are committed for taking steps towards expansion of our manufacturing facility for achieving better operational efficiency. We initially commenced the manufacturing facility in 2005-06 from our first manufacturing facility at Plot no. 1413, HSIDC, Industrial Estate, Rai, District Sonapat. Subsequently, to meet increasing market demand and expand our production capacity, we established a second manufacturing facility located at Plot No. 1676–1677, Sector-38, Phase-I, HSIIDC Industrial Estate, Rai, District Sonapat, Haryana. We are proposing to set up a new facility for manufacturing transformer in Liwaspur, Sub- Tehsil Rai, Distt. Sonapat, Haryana.

Our Company has acquired the land parcels located at Liwaspur, Sub- Tehsil Rai, Distt. Sonapat, Haryana. Further, our company proposes to expend approximately Rs. 7258.43 lakhs towards setting up of the manufacturing facility including the construction of factory building, civil work and installation of new machinery which will be partly funded from the proceeds of the IPO. Our Company will take all requisite actions and implement the necessary procedures at the appropriate stages in relation to the setting up of the manufacturing facility, as and when applicable. The establishment of the upcoming factory is pivotal in our strategy to meet the escalating demand for our products. With a surge in orders from customers, we are witnessing a rise in demand, necessitating rapid equipment delivery. Thus, going forward, we intend to continue making investments in capacity expansions and modernization of our equipment and facilities. We also seek to expand our capabilities in a cost-efficient manner, by actively pursuing new venture, opportunities, acquisitions and strategic alliances with entities that are complementary to our business. We will continue to pursue such opportunities where we believe they will add value to our business, our stakeholders and our customers.

2. Deepen our presence in existing markets and expand geographical reach

A significant portion of our revenues is derived from customers located in the states of Uttar Pradesh, Bihar, Madhya Pradesh, West Bengal, Haryana & Jammu and Kashmir, amounting to Rs. 35272.22 lakhs, Rs. 31668.31 lakhs and Rs. 15137.40 lakhs for Fiscal Years 2026, 2025, and 2024 respectively, representing 97.13%, 97.67% and 94.05% of our total revenue from operations in the respective periods. Below is our revenue from operation divided among different state –

Other states include Delhi, Rajasthan, Chhattisgarh, Jharkhand, Punjab, Assam, Chandigarh, Uttarakhand and Himachal Pradesh.

In our existing markets, we aim to deepen our presence by increasing engagement with government departments, public utilities, EPC contractors, and industrial clients, improving bid success rates through competitive pricing and reliable execution, strengthening relationships with key decision-makers to enable repeat orders and long-term partnerships and leveraging our track record and existing empanelment to secure high-value contracts. At the same time, we plan to expand our geographical footprint by participating in tenders issued by new state governments, regional electricity boards, and other public sector clients in underpenetrated or untapped markets. This expansion will be supported by establishing or enhancing a local presence in target regions, entering into strategic alliances or partnerships where appropriate and adapting our product and service offerings to comply with local technical and regulatory requirements. By pursuing this dual strategy, we aim to diversify our revenue streams, reduce dependency on specific states or contracts, and strengthen our position as a trusted supplier to government and utility sectors across India. These efforts are aligned with our long-term objective of achieving sustainable and scalable business growth.

3. Strengthen Participation in Government and Utility Sector

Our business growth is closely linked to our ability to participate in and secure larger and more diversified tenders floated by government bodies and public utilities. Repeat orders and long-term engagements with these entities offer improved revenue visibility, enable efficient resource planning, and contribute to operational stability. Participation in these tenders is subject to specific eligibility requirements and pre-qualification criteria. These pre-qualification norms generally involve assessment of our technical capabilities, successful execution of similar past projects, and registration or enlistment with relevant departments and agencies. We continuously strive to enhance our bid capacity and improve our pre-qualification credentials by expanding our execution track record, investing in technical capabilities, and maintaining compliance with regulatory and quality standards. In instances where projects exceed our individual eligibility, we remain open to entering project-specific joint ventures or consortia to meet the requisite financial or technical thresholds. Through these initiatives, we aim to deepen our presence in the transformer supply segment for government and utility sectors, and expand our participation in higher-value and more complex tenders, thereby strengthening our competitive positioning and supporting our long-term growth.

1. Core Stacking

The core stacking of a transformer is a critical component that supports the efficient transfer of electrical energy between the primary and secondary windings. This operation is undertaken in-house in our manufacturing unit where we procure mother coil of requisite raw material which is further cut and slitted into thin sheets or laminations of magnetic material i.e. Cold Rolled Grain Oriented (CRGO) Electrical Steel. Later, these CRGO laminations are stacked and assembled to form the core. The core is shaped into wound cores of cut-to-length stacked forms with step-lap construction. This ensures structural integrity and mitigates vibration and noise, contributing to enhanced operational reliability. All assembled cores undergo pre-no-load loss testing before core coil assembly, ensuring adherence to stringent quality standards.

2. Winding

Winding is an integral step in electrical systems, used to step up or step down voltage levels. Winding involves preparing coils of Copper/Aluminium conductors, insulated with polyesterimide enamel (Class B) or DPC & enamel covering that carry the electrical current and generate the magnetic fields required for the transformation process. The HV/LV windings are wound in a progressive manner using a single-piece, one-piece rectangular/circular construction. The winding process takes place in a controlled, dust-free environment to prevent the accumulation of particles. Coils undergo automatic roller pressing, boosting and short-circuit withstand capability.

3. Core Coil Assembly

During this step, the coil winding and the core assembly prepared during the previous steps are assembled to form the transformers. The core remains vertically stationary while coils are progressively lowered from the top. Insulating materials like crepe paper tubes and multi-paper are used to cover the conductors. These materials, designed for oil-filled applications, ensure transformers to withstand short circuit forces. Adequate clamping within the tank are done to prevent movement during transportation vibrations or short circuit forces.

4. Drying

This step ensures that the core and windings of a transformer is kept free from moisture to prevent insulation degradation, core corrosion, and efficiency losses. The Core Coil Assembly undergoes a thermal treatment within an oven, where temperatures range from 90°C to 120°C. This process enhances insulation resistance and eliminates moisture ingress within the insulation material.

5. Fabrication

The fabrication of transformer tanks involves design, material selection, precise cutting, bending, and welding for structural integrity. Cooling systems like radiators are integrated, followed by surface treatment with corrosion-resistant coatings. Rigorous leak and pressure testing ensure durability. This process is outsourced to our group company or other vendor depending on the customer and business requirements.

6. Tanking

Following the drying procedure, the Core Coil Assembly is enclosed within a pre-fabricated MS tank. The subsequent step involves subjecting the assembly to a vacuum process, facilitating the oil-filling operation within the transformer tank. The oil utilised can include Mineral Oil, Silicon Oil, Ester Oil, etc. as per the customer's preference. Leak testing is conducted to ensure that there are no leaks in the tank.

7. Testing

Before the dispatch of the transformers various tests are conducted to ensure the proper working of the transformers. These test helps to ensure that the insulation resistance is within acceptable limits and that the transformer is functioning correctly. All routine and type tests are conducted in accordance with established standards and customer specifications. Each transformer undergoes a pressure test before finalisation, ensuring its readiness for dispatch. Further, specialised tests such as Noise Test, Seismic Test, and Partial Discharge Test can be performed at third-party laboratories, tailored to the specific preferences of the customer

8. Dispatch

This step involves painting and finishing of transformers and Final inspection of the transformer to ensure that product meet the standard and per customer's requirement.

QUALITY CONTROL

We place strong emphasis on product and process quality control, which we consider crucial to our success. We have established a strict quality management system, which is designed to ensure quality product, production efficiency and desired yields. At our manufacturing facilities, quality checks are undertaken at various stages, starting from incoming raw material / components, during the work in process stage, at packaging and lastly, a quality check is undertaken prior to dispatch of our products. We have obtained Quality Management System ISO 9001:2015 certificate, Environment Management System for design, manufacturing, supply and after sales services of Transformers Up to 50MVA/132KV Class. Further, we operate an in-house testing laboratory equipped to conduct routine and type tests in line with relevant Indian Standards (IS) and customer requirements. We manufacture products in compliance with Bureau of Indian Standards (BIS) and are authorized to use the ISI mark on applicable products. Additionally, several of our products are certified under the Bureau of Energy Efficiency (BEE) STAR rating program, supporting energy efficiency and compliance with regulatory norms.

Collaborations/ Tie Ups/ Joint Ventures

Except as disclosed in this Red Herring Prospectus and normal course of business, we do not have any collaborations/ Ties Ups/Joints Ventures as on date.

INFRASTRUCTURE FACILITIES:**1) Plant & Machinery**

The major plant & machinery installed at our manufacturing facility is as under:

Wire jointing machine, CU Strip machine, Aluminium strip machine, Slating machine, HT Covering machine, Power press machine, LT winding machine, HT Winding machine, Ovens, Cranes, Power disc welding machine, Oil filtration machine, compressor, Cutting machine and Drill machines.

2) Availability of Raw Material and components

We procure raw materials from our suppliers based on purchase orders and we do not have any purchase agreements or firm commitments executed with them. Our raw materials consist of metal (such as aluminium, copper, and steel), Cold Roller Grain Oriented (CRGO) Electrical Steel, Copper Wire, Copper Strip, Copper sheet and Aluminium Wire, Strip, Transformer Oil. CRGO is used for making Core Assembly which is used for creating magnetic circuit in a transformer, Copper Wire/Strip/Sheet and Aluminium

Wire/Strip/Sheet is used for making winding transformers, Mild Steel is used for making tank Body & radiators of transformers, transformers oil is used in transformers as an insulating fluid which provides cooling of transformers. In order to source these raw materials, we rely on our relationships with a diversified group of suppliers in India and abroad for the procurement of these raw materials.

3) Utilities:

The requirement of power in our manufacturing facility at Unit I and II is met through Uttar Haryana Bijli Vitran Nigam Limited (UHBVNL). We use generators to meet exigencies to ensure that our facility is operational during power failures. We do not require water for our manufacturing activities. The water requirement for other activities is met through HSIIDC Industrial Estate at Unit I and Unit II. Our water requirement is restricted to water used in the office and factory for essential facilities.

4) Logistics:

Our suppliers directly deliver our raw materials to our units. We outsource the delivery of our products to third-party logistics providers and rely on freight forwarders to deliver our products from our units to the customers. We do not have any long-term contractual relationships with the logistics providers or freight forwarders.

Sales and Marketing

We serve customers from different industry segments which includes government entities, utility companies, EPC contractors, and industrial clients. The manner in which we source our orders primarily depends upon whether the customer is a private sector or a public sector customer (government entities, utility companies). Public sector customers typically advertise for potential orders on government portal such as e-procurement, e-tenders etc. and in leading national newspapers, and invite participation through a competitive tendering process. Our business development team is responsible for the identification of orders, preparation of the bids and submission of the bids.

On the other hand, for private companies and industrial clients, our sales and marketing strategy is to effectively showcase our products and services, gain insights into customer needs, and deliver comprehensive solutions. Our dedicated sales and marketing teams drive business development efforts, utilizing market intelligence, sales forecasting, and product pricing strategies to maximize opportunities. As of March 31, 2026, our sales and marketing team comprised of 7 employees who work towards identifying the customer needs and create or customize service offerings to address specific customer needs.

Competition

The transformers manufacturing industry is characterized by intense competition, with both global giants and local players vying for prominence in the market. The competitive landscape is intricate, with companies differing in terms of geographical presence, product focus, and market strategies. Our aim is to provide quality products at competitive prices to our consumers. Many of our competitors have a substantially large capital base and resources than we do and offer a broader range of products. Moreover, as we seek to diversify into new geographies, we face the risk that some of our competitors have a Pan-India presence while our other competitors may have a strong regional presence which may affect competition in the market. Our key competitors include Marsons Limited, Shilchar Technologies Limited and Supreme Power Equipment Limited and other companies engaged in the manufacturing and supply of distribution and power transformers.

Information Technology

Information technology plays an important role in our business. It supports our operations by improving productivity, customer service, and risk management. We consider a reliable IT infrastructure necessary for maintaining operational efficiency and supporting business growth. We have implemented technology systems across various functions, including product designing, procurement, distribution, supply chain, and point-of-sale. We continue to focus on strengthening our IT systems to support our operations and business plans.

Safety, health and environmental regulations

We are subject to evolving occupational safety, health and environmental laws and regulations governing our operations. We have obtained the ISO 9001:2015 for Design, Manufacturing, Supply and After Sales Services of Transformers Up to 50MVA/132KV Class. We have implemented work safety measures and standards to ensure healthy and safe working conditions for all the employees, contractors, and other personnel's. We are committed to ensuring that the appropriate resources are provided, and that appropriate actions are taken, to implement and maintain sustainable health, safety and environmental practices and effective management systems.

Human Resource

As of June 30, 2026, we have in our employment 143 full-time employees. A breakdown of our Company's department-wise employee strength as is below:

Department	Employees as on June 30, 2026
HR & Administration	7
Designing & Quality control	6
Finance	3

** The company has hired all the labours on roll from the beginning of FY 2025-26. Due to this the number of workers hired by company on contract basis is "Nil" as on March 31, 2026.

For the month of June 2026, we have deposited PF contribution of 25 Employees amounting Rs. 0.87 Lakhs. Similarly, we have deposited ESIC contribution of 19 employees amounting to Rs. 0.13 Lakhs for the month of June 2026.

Insurance

Our operations are subject to various risks inherent to the industry, as well as natural disasters, spread of communicable diseases, fire, burglary, acts of terrorism and other unforeseen events. Accordingly, we have obtained insurance policies in relation to marine open policy, flexi property protector policy, burglary and house breaking insurance policy, auto secure - private car package policy, Private Car Package Policy, Stand-Alone Own Damage Private Car Insurance policy, Bundled Auto Secure - Private Car Policy and contractors plant and machinery policy. These insurance policies are renewed periodically to ensure that the coverage is adequate. Our insurance covers all of our Units. See "**Risk Factors** – Our insurance coverage may not be adequate to protect us against certain operating hazards and this may have a material adverse effect on our business." on page 21.

BUSINESS AND/OR KEY INDUSTRY AND/OR TRADE RELATED LAWS AND REGULATIONS

Energy Conservation Act, 2001 and Energy Conservation (Amendment) Act, 2022

The Energy Conservation Act, 2001 (ECA) was enacted to promote efficient use of energy and its conservation in India. Key provisions of the ECA are establishment of Bureau of Energy Efficiency (BEE) to implement policies and programs, setting of energy consumption norms for large consumers (designated consumers), Energy auditing and reporting requirements for industries, introduction of energy efficiency labelling for appliances, promotion of Energy Conservation Building Code (ECBC) for efficient building designs and establishment of penalties for non-compliance. The Energy Conservation (Amendment) Act, 2022 regulates and empowers the Government to introduce a carbon credit trading mechanism to incentivize emission reductions, specify minimum renewable energy consumption requirements for designated consumers, introduction of labelling of appliances, and expand the scope of the Energy Conservation and Sustainable Building Codes to cover residential and commercial buildings. The Act mandates compliance with energy efficiency norms for industries, transport (including shipping), and financial institutions, directs designated consumers to adhere to energy conservation standards, and imposes stricter penalties for non-compliance. It requires industries and large establishments to register for carbon credit trading, implement renewable energy usage mandates, and appoint certified energy managers to oversee energy efficiency initiatives. The Act also mandates periodic energy audits by accredited energy auditors, submission of energy consumption reports, and implementation of corrective action plans if prescribed energy efficiency norms are not met, thereby aligning with India's net-zero emissions goal and sustainable energy transition.

The Factories Act, 1948

The Factories Act, 1948, as amended, defines a “factory” to cover any premises which employs 10 or more workers on any day of the preceding 12 months and in which a manufacturing process is carried on with the aid of power or any premises where at least 20 workers are employed, and where a manufacturing process is carried on without the aid of power. Each state government has enacted rules in respect of the prior submission of plans and their approval for the establishment of factories and registration/licensing thereof. The Factories Act provides for imposition of fines and imprisonment of the manager and occupier of the factory in case of any contravention of the provisions of the Factories Act.

The Environment Protection Act, 1986 and The Environment (Protection) Rules, 1986

The Environmental Protection Act, 1986 (EPA) is an "umbrella" legislation designed to provide a framework for coordination of the activities of various Central and State authorities established under various laws. The potential scope of the Act is broad, with "environment" defined to include water, air and land and the interrelationships which exist among water, air and land, and human beings and other living creatures such as plants, micro-organisms and property. Further, the Ministry of Environment and Forests looks into Environment Impact Assessment. The Ministry receives proposals for expansion, modernization and setting up of projects and the impact which such projects would have on the environment which is assessed by the Ministry in detail before granting clearances for such proposed projects. Penalties for violation of the EPA include fines up to ₹100,000 or imprisonment of up to five years, or both. The imprisonment can extend up to seven years if the violation of the EPA continues.

National Environmental Policy, 2006

This Policy seeks to extend the coverage, and fill in gaps that still exist, in light of present knowledge and accumulated experience. This policy was prepared through an intensive process of consultation within the Government and inputs from experts. It does not displace, but builds on the earlier policies. It is a statement of India's commitment to making a positive contribution to international efforts. This is a response to our national commitment to a clean environment, mandated in the Constitution in Articles 48 A and 51 A (g), strengthened by judicial interpretation of Article 21. The dominant theme of this policy is that while conservation of environmental resources is necessary to secure livelihoods and well-being of all, the most secure basis for conservation is to ensure that people dependent on particular resources obtain better livelihoods from the fact of conservation, than from degradation of the resource.

The Water (Prevention and Control of pollution) Act, 1974 (the "Water Act")

The Water Act aims to prevent and control water pollution as well as restore water quality by establishing and empowering the Central Pollution Control Board and the State Pollution Control Boards. Under the Water Act, any person establishing any industry, operation or process, any treatment or disposal system, use of any new or altered outlet for the discharge of sewage or new discharge of sewage, must obtain the consent of the relevant State Pollution Control Board, who is empowered to establish standards and conditions that are required to be complied with. In certain cases, the State Pollution Control Board may cause the local Magistrates to restrain the activities of such a person who is likely to cause pollution. Penalties for the contravention of the provisions of the Water Act include imposition of fines or imprisonment or both.

The Air (Prevention and Control of Pollution) Act, 1981 (the "Air Act")

Pursuant to the provisions of The Air (Prevention and Control of Pollution) Act, 1981 has been enacted to provide for the prevention, control and abatement of air pollution. Pursuant to the provisions of the Air Act, any person, establishing or operating any industrial plant within an air pollution control area, must obtain the consent of the relevant State Pollution Control Board prior to establishing or operating such industrial plant. The State Pollution Control Board is required to grant consent within a period of four months of receipt of an application, but may impose conditions relating to pollution control equipment to be installed at the facilities. No person operating any industrial plant in any air pollution control area is permitted to discharge the emission of any air pollutant in excess of the standards laid down by the State Pollution Control Board. If an area is declared by the State Government to be an air pollution control area, then, no industrial plant may be operated in that area without the prior consent of the State Pollution Control Board. Air (Prevention and Control of Pollution) Rules, 1982 deal with the procedural aspects of the Air Act.

Hazardous Wastes (Management, Handling and Transboundary Movement) Rules, 2008 ("Hazardous Wastes Rules")

The Hazardous Wastes Rules impose an obligation on every occupier of an establishment generating hazardous waste to recycle or reprocess or reuse such wastes in a registered recycler or to dispose of such hazardous wastes in an authorized disposal facility. Every person engaged, inter alia, in the generation, processing, treatment, package, storage and destruction of hazardous waste is required to obtain an authorization from the relevant state PCB for collecting, recycling, reprocessing, disposing, storing and treating the hazardous waste.

The Legal Metrology Act, 2009 ("Legal Metrology Act"):

The Legal Metrology Act, 2009 came into effect on January 14, 2010 and has repealed and replaced the Standard of Weights and Measures Act, 1976 and the Standards of weights and Measures (Enforcement) Act, 1985. The Legal Metrology Act seeks to establish and enforce standards of weights and measures, regulate trade and commerce in weights, measures and other goods which are sold or distributed by weight, measure or number and for matters incidental thereto. The Legal Metrology (Approval of Models) Rules, 2011, set forth the procedures for obtaining approval for models of weighing and measuring instruments. These rules require manufacturers or importers to submit models of their products to a designated authority for evaluation before they can be marketed or used

commercially. The Legal Metrology Act, inter-alia, provides for: (a) approval of model of weight or measure; (b) verification of prescribed weight or measure by Government approved Test Centre; (c) exempting regulation of weight or measure or other goods meant for export; (d) nomination of a Director by a company who will be responsible for complying with the provisions of the enactment; (e) empowering the Central Government to make rules for enforcing the provisions of the enactment; and (f) penalty for offences and compounding of offences.

The Bureau of Indian Standards Act, 2016 (the “BIS Act”):

The BIS Act was notified on March 22, 2016 and came into effect from October 12, 2017. The BIS Act was established to provide for the establishment of a bureau (“Bureau”) for the harmonious development of the activities of standardization, marking and quality certification of goods and for matters connected therewith. “Indian Standard” means the standard (including any tentative or provisional standard) established and published by the Bureau, in relation to any article or process indicative of the quality and specification of such article or process and includes - (i) any standard recognized by the Bureau under clause (b) of section 10 of the BIS Act; and (ii) any standard established and published, or recognized, by the Indian Standards Institution and which is in force immediately before the date of establishment of the Bureau the Bureau of Indian Standards (BIS) as the National Standards Body of India. It has broadened BIS’s ambit and allows the Central Government to make it mandatory for certain notified goods, articles, processes etc. to carry standard marks.

The Bureau of Indian Standards Rules, 2018 (the “Bureau of Indian Standards Rules”).

The Bureau of Indian Standards Rules, 2018, as amended, have been notified, in supersession of the Bureau of Indian Standards Rules, 1987, in so far as they relate to Chapter IV A of the said rules relating to registration of the articles notified by the Central Government, and in supersession of the Bureau of Indian Standards Rules, 2017 except in relation to things done or omitted to be done before such supersession. Under the Bureau of Indian Standards Rules, the bureau is required to establish Indian standards in relation to any goods, article, process, system or service and shall reaffirm, amend, revise or withdraw Indian standards so established as may be necessary

The Micro, Small and Medium Enterprises Development Act, 2006

In order to promote and enhance the competitiveness of Micro, Small and Medium Enterprise (MSME) the Act was enacted. With effect from April 01, 2025 the Manufacturing enterprises and enterprises rendering Services have been re-classified as Micro enterprise, where the investment in plant and machinery does not exceed Rs.2.5 Crore and annual turnover does not exceed Rs. 10 Crore; Small enterprise, where the investment in plant and machinery does not exceed Rs.25 crore and annual turnover does not exceed Rs. 100 Crore; a medium enterprise, where the investment in plant and machinery does not exceed Rs. 125 crore and annual turnover does not exceed Rs. 500 Crore.

LAWS RELATING TO SPECIFIC STATE WHERE ESTABLISHMENT IS SITUATED

Shops and Establishments laws in various states

As per the provisions of local Shops and Establishments law applicable in the State of Haryana, establishments are required to be registered. Such laws regulate the working and employment conditions of the workers employed in shops and establishments including commercial establishments and provide for fixation of working hours, rest intervals, overtime, holidays, leave, termination of service, maintenance of shops and establishments and other rights and obligations of the employers and employees.

Indian Stamp Act, 1899

The purpose of the Stamp Act was to streamline and simplify transactions of immovable properties and securities by the State Government. The Stamp Act provides for the imposition of stamp duty at the specified rates on instruments listed in Schedule IA of the Stamp Act. Stamp duty is payable on all instruments/ documents evidencing a transfer or creation or extinguishment of any right, title or interest in immovable property. However, under the Constitution of India, the states are also empowered to prescribe or alter the stamp duty payable on such documents executed within the states. Therefore, the State Government of Haryana, is empowered to prescribe or alter the stamp duty as per their need.

The Haryana Fire & Emergency Services Act, 2022

The Haryana Fire & Emergency Services Act, 2022 establishes fire safety regulations for buildings, industries, and public spaces, ensuring the prevention and control of fire hazards. It mandates Fire NOCs, installation of fire-fighting equipment like extinguishers and sprinklers, and regular fire inspections to enforce compliance. The act empowers authorities to penalize violations, conduct

emergency response operations, and improve fire services infrastructure across Haryana. Industries, including transformer manufacturing units, must adhere to strict fire safety norms to prevent accidents and ensure workplace safety.

TAX RELATED LEGISLATIONS

Income Tax Act, 1961

The IT Act is applicable to every Company, whether domestic or foreign whose income is taxable under the provisions of the IT Act or Rules made thereunder depending upon its Residential Status and Type of Income involved. The IT Act provides for the taxation of person resident in India on global income and persons not resident in India on income received, accruing or arising in India or deemed to have been received, accrued or arising in India. U/s 139 (1) Every Company which is assessed to income tax under the IT Act is required to comply with the provisions thereof, including those relating to Tax Deduction at Source, Advance Tax, Minimum Alternative Tax and like. Every such Company is also required to file its returns for every Previous Year by 30th September of the Assessment.

Income Tax Act, 2025

The Income-tax Act, 2025 came into force with effect from April 01, 2026. The Act extends to the whole of India and governs the levy, administration and collection of income-tax in India. It applies to all categories of taxpayers, including companies, whose income is chargeable to tax under its provisions, with the incidence of tax depending upon their residential status and the nature and source of income. Broadly, residents are taxable in India on their global income, while non-residents are taxable on income received or deemed to be received in India, or income accruing, arising or deemed to accrue or arise in India. The Company is required to comply with the applicable provisions of the Income-tax Act, 2025, including maintenance of prescribed records, filing of periodic returns, withholding and deposit of applicable taxes, transfer pricing compliances (where applicable), and payment of applicable taxes, interest and penalties, if any.

The Goods and Services Tax Act, 2017 (“the GST Act”)

The GST Act levies indirect tax throughout India to replace many taxes levied by the Central and State Governments. The GST Act was applicable from July 1, 2017 and combined the Central Excise Duty, Commercial Tax, Value Added Tax (VAT), Food Tax, Central Sales Tax (CST), Introit, Octroi, Entertainment Tax, Entry Tax, Purchase Tax, Luxury Tax, Advertisement Tax, Service Tax, Customs Duty, Surcharges. GST is levied on all transactions such as sale, transfer, purchase, barter, lease, or import of goods and/or services. India has adopted a dual GST model, meaning that taxation is administered by both the Union and State Governments. Transactions made within a single state are levied with Central GST (CGST) by the Central Government and State GST (SGST) by the government of that state. For inter-state transactions and imported goods or services, an Integrated GST (IGST) is levied by the Central Government. GST is a consumption-based tax; therefore, taxes are paid to the state where the goods or services are consumed and not the state in which they were produced.

EMPLOYMENT AND LABOUR LAWS

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (the SHWPPR “Act”)

In order to curb the rise in sexual harassment of women at workplace, this Act was enacted for prevention and redressal of complaints and for matters connected therewith or incidental thereto. The terms ‘sexual harassment’ and ‘workplace’ are both defined in the Act. Every employer should constitute an “Internal Complaints Committee” at each office or branch of an organization employing at least 10 employees and every officer and member of the Committee shall hold office for a period of not exceeding three years from the date of nomination. Any aggrieved woman can make a complaint in writing to the Internal Committee in relation to sexual harassment of female at workplace. Every employer has a duty to provide a safe working environment at workplace which shall include safety from the persons coming into contact at the workplace, organizing awareness programs and workshops, display of rules relating to the sexual harassment at any conspicuous part of the workplace, provide necessary facilities to the internal or local committee for dealing with the complaint, such other procedural requirements to assess the complaints.

Child Labour (Prohibition and Regulation) Act, 1986 (the “CLPR Act”)

The CLPR Act seeks to prohibit the engagement of children below 14 years of age in certain occupations and processes and provides for regulating the conditions of work of children in certain other occupations. Part B of the Schedule to the CLPR Act strictly prohibits employment of children in cloth printing, dyeing and weaving processes and cotton ginning and processing and production of hosiery goods. Under this Act the employment of child labour in the building and construction industry is prohibited.

EMPLOYMENT AND LABOUR LAWS CODIFICATION

The Code on Social Security, 2020 (the “Social Security Code”)

The Social Security Code is a central legislation enacted to modernise and consolidate the laws relating to social security with the objective of extending social security coverage to employees and workers in the organised, unorganised, gig and platform sectors across India; it received the assent of the President of India on September 28, 2020 and, pursuant to a notification issued by the Ministry of Labour and Employment under Section 1(3), has been brought into force with effect from November 21, 2025 as part of the implementation of the four Labour Codes rationalising 29 existing central labour laws.

The Social Security Code consolidates and replaces nine central enactments, including the Employees’ Compensation Act, 1923, the Employees’ State Insurance Act, 1948, the Employees’ Provident Funds and Miscellaneous Provisions Act, 1952, the Employment Exchanges (Compulsory Notification of Vacancies) Act, 1959, the Maternity Benefit Act, 1961, the Payment of Gratuity Act, 1972, the Cine Workers Welfare Fund Act, 1981, the Building and Other Construction Workers Welfare Cess Act, 1996 and the Unorganised Workers’ Social Security Act, 2008. Among other matters, it provides the framework for social security schemes relating to provident fund, pension and deposit-linked insurance, employees’ state insurance, maternity benefits, gratuity, employee compensation and welfare of building and other construction workers, as well as social security schemes for unorganised workers, gig workers and platform workers, and establishes or continues social security organisations such as the Central Board of Trustees of the Employees’ Provident Fund, the Employees’ State Insurance Corporation, the National and State Social Security Boards for unorganised workers and State Building and Other Construction Workers’ Welfare Boards.

The Social Security Code also contemplates electronic registration of establishments, technology-enabled record-keeping and benefit delivery, and empowers the Central and State Governments to extend the application of EPF, ESIC and other schemes to additional classes of establishments and workers.

The Social Security Code and the rules and schemes framed thereunder, provides for to registration of eligible establishments, enrolment of employees under the Employees’ Provident Fund and Employees’ State Insurance schemes, payment of employer and employee contributions, provision of statutory gratuity, maternity and employee compensation benefits, facilitation of social security for eligible contract, unorganised, gig or platform workers engaged in its operations, and maintenance of prescribed records and returns, and any non-compliance may result in interest, penalties and other enforcement action.

The Code on Wages, 2019 (the “Wages Code”)

The Wages Code received the assent of the President of India on August 8, 2019 and the provisions of the Code came into effect from November 21, 2025 after being notified in the Official Gazette by the Central Government. The Wages Code has replaced the four existing ancient laws namely (i) the Payment of Wages Act, 1936, (ii) the Minimum Wages Act, 1948, (iii) the Payment of Bonus Act, 1965, and (iv) the Equal Remuneration Act, 1976.

The Wages Code extends to the whole of India and regulates minimum wages, floor wages, payment of wages, permissible deductions, bonus and equal remuneration. It introduces a harmonised definition of “wages”, prohibits discrimination on grounds of gender in matters of wages and recruitment for the same work or work of a similar nature, and confers a statutory right to minimum wages for all employees, supported by a national floor wage below which State minimum wages cannot fall. The Wages Code also provides for advisory boards, an Inspector-cum-Facilitator based compliance regime, maintenance of prescribed registers and issuance of wage slips, and offences and penalties for non-compliance.

The Occupational Safety, Health and Working Conditions Code, 2020 (the “OSHWC Code”)

The OSHWC Code is a central legislation enacted to consolidate and amend the laws regulating the occupational safety, health and working conditions of persons employed in an establishment; it received the assent of the President of India on September 28, 2020 and, pursuant to a notification issued by the Ministry of Labour and Employment, has been brought into force with effect from November 21, 2025 as part of the implementation of the four Labour Codes rationalising 29 existing central labour laws. The OSHWC Code replaces and subsumes 13 central enactments relating to safety, health and working conditions, including, among others, the Factories Act, 1948, the Contract Labour (Regulation and Abolition) Act, 1970, the Inter-State Migrant Workmen (Regulation of Employment and Conditions of Service) Act, 1979, the Mines Act, 1952, the Plantations Labour Act, 1951, the Building and Other Construction Workers (Regulation of Employment and Conditions of Service) Act, 1996, the Motor Transport Workers Act, 1961, the Beedi and Cigar Workers (Conditions of Employment) Act, 1966 and laws governing dock workers, working journalists, cine-workers and sales promotion employees, subject to repeal-and-savings provisions that preserve existing rules and notifications to the extent they are not inconsistent with the Code.

The OSHWC Code applies, inter alia, to establishments employing 10 or more workers and to all mines and docks, as well as to specified categories such as factories, building and other construction works, plantations, motor transport undertakings, audio-visual production units and newspaper establishments, and requires eligible establishments to obtain registration (with deemed migration of existing registrations), comply with notified occupational safety and health standards, provide a safe working environment and prescribed welfare facilities, conduct periodic medical examinations including free annual health check-ups for specified employees, issue letters of appointment to all employees, and report certain accidents, dangerous occurrences and notified occupational diseases. It also contains specific provisions on working hours, leave and overtime, engagement and conditions of contract labour and inter-State migrant workers, and employment of women (including in night shifts and in all types of work subject to consent and prescribed safeguards), and establishes an Inspector-cum-Facilitator and advisory board framework for enforcement and standard-setting.

The OSHWC Code also provides for registration of applicable establishments, maintenance of safe and healthy working environment and welfare facilities, engagement and treatment of contract labour and inter-State migrant workers, employment of women, and maintenance of prescribed registers, records and returns and timely reporting of accidents, dangerous occurrences and occupational diseases.

The Industrial Relations Code, 2020 (the “IR Code”)

The IR Code is a central legislation enacted to consolidate and amend the laws relating to trade unions, conditions of employment in industrial establishments and undertakings, and the investigation and settlement of industrial disputes; it received the assent of the President of India on September 28, 2020 and, pursuant to notifications issued by the Ministry of Labour and Employment, has been brought into force with effect from November 21, 2025 as part of the implementation of the four Labour Codes rationalising 29 existing central labour laws.

The IR Code consolidates and replaces three key enactments, namely (i) the Industrial Disputes Act, 1947, (ii) the Trade Unions Act, 1926, and (iii) the Industrial Employment (Standing Orders) Act, 1946. It extends to the whole of India and, among other matters, provides a unified framework for (i) registration, governance and recognition of trade unions, including recognition of a negotiating union or negotiating council in industrial establishments having multiple unions; (ii) constitution of bi-partite forums such as Works Committees and Grievance Redressal Committees in establishments above prescribed thresholds; (iii) certification, modification and deemed adoption of standing orders in industrial establishments employing 300 or more workers, aligned with central model standing orders; and (iv) mechanisms for conciliation, voluntary arbitration and adjudication of industrial disputes by Industrial Tribunals and the National Industrial Tribunal.

The IR Code also introduces provisions on fixed term employment with parity of wages and benefits vis-à-vis permanent workers and gratuity eligibility after one year, prescribes conditions and procedures for strikes and lock-outs, and revises the regime governing lay-off, retrenchment and closure in certain industrial establishments, including a higher statutory threshold (currently 300 workers, with power for States to increase this limit) for prior government approval for lay-off, retrenchment and closure, while defining “worker” and “employee” broadly to cover a wider segment of the workforce and prohibiting unfair labour practices.

INTELLECTUAL PROPERTY LEGISLATIONS

Trade Marks Act, 1999 (“TM Act”)

The Trademarks Act, 1999 provides for the application and registration of trademarks in India for granting exclusive rights to marks such as a brand, label and heading and obtaining relief in case of infringement for commercial purposes as a trade description. The TM Act prohibits any registration of deceptively similar trademarks or chemical compounds among others. It also provides for penalties for infringement, falsifying and falsely applying for trademarks.

Indian Patents Act, 1970

A patent is an intellectual property right relating to inventions and is the grant of exclusive right, for limited period, provided by the Government to the patentee, in exchange of full disclosure of his invention, for excluding others from making, using, selling, importing the patented product or process producing that product. The term invention means a new product or process involving an inventive step capable of industrial application

The Copyright Act, 1957

Copyright is a right given by the law to creators of literary, dramatic, musical and artistic works and producers of cinematograph films and sound recordings. In fact, it is a bundle of rights including, inter alia, rights of reproduction, communication to the public, adaptation and translation of the work. There could be slight variations in the composition of the rights depending on the work.

FOREIGN TRADE RELATED LAWS

Foreign Trade (Development and Regulation) Act, 1992 (“Foreign Trade Act”)

The FTDR is the main legislation concerning foreign trade in India. The FTDR, read along with the Foreign Trade (Regulation) Rules, 1993, provides for the development and regulation of foreign trade by facilitating imports into, and augmenting exports from, India and all other matters connected therewith or incidental thereto. It authorizes the government to formulate as well as announce the export and import policy and to keep amending the same on a timely basis. The government has also been given wide powers to prohibit, restrict and regulate the exports and imports in general as well as specified cases of foreign trade. The FTDR read with the Foreign Trade Policy, 2015-20, prohibits anybody from undertaking any import or export except under an importer-exporter code (“IEC”) number granted by the Director General of Foreign Trade. Hence, every entity in India engaged in any activity involving import/export is required to obtain an IEC unless specifically exempted from doing so. The IEC shall be valid until it is cancelled by the issuing authority. An IEC number allotted to an applicant is valid for all its branches, divisions, units and factories. Failure to obtain the IEC number shall attract a penalty under the FTDR.

The Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2017 as amended in 2019, provide that the total holding by any individual NRI, on a repatriation basis, shall not exceed 5 percent of the total paid-up equity capital on a fully diluted basis or shall not exceed five percent of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrants; provided that the aggregate ceiling of 10 percent may be raised to 24 percent if a special resolution to that effect is passed by the general body of the Indian company.

DIVIDEND POLICY

Under the Companies Act, 2013 our Company can pay dividends upon a recommendation by our Board of Directors and approval by a majority of the shareholders at the General Meeting and as per provisions of Articles of Association of our Company. The shareholders of the Company have the right to decrease but not to increase the amount of dividend recommended by the Board of Directors. The dividends may be paid out of profits of our Company in the year in which the dividend is declared or out of the undistributed profits or reserves of previous fiscal years or out of both. The Articles of Association of our Company also gives the discretion to our Board of Directors to declare and pay interim dividends. All Dividends upon recommendation by our Board of Directors and approved by the shareholders at the General Meeting will be paid to credit of registered shareholders by way of cheque or warrant or in any electronic mode. Our Board may also declare interim dividend from time to time.

The dividend distribution policy of our Company was adopted and approved by our Board in their meeting held on August 04, 2025. The Board shall, *inter alia*, consider certain financial, internal and external parameters before declaring dividend including level of debt, capital expenditure requirement, working capital requirement and profit earned during the year. Our Company may also, from time to time, pay interim dividends. The objective of the dividend policy is rewarding its Shareholders and retaining capital for growth and ensuring fairness, sustainability, and consistency in distributing profits to Shareholders. For details in relation to risks involved in this regard, see “**Risk Factor**” on page 21 of this Red Herring Prospectus.

2. Significant Accounting Policies and Other Explanatory Notes: -

2.1 Significant Accounting Policies, judgements and estimates

2.1.1 Basis of preparation of Consolidated Restated Financial Statements

"The Consolidated Restated Statement of Assets and Liabilities of the Company as at March 31, 2026, March 31, 2025, and March 31, 2024 and the Consolidated Restated Statement of Profit and Loss and Consolidated Restated Statements of Cash Flows for the year ended on March 31, 2026, March 31, 2025, and March 31, 2024 and the notes thereto (collectively, the "Restated Consolidated Financial Statements") have been extracted by the management from the respective Consolidated Audited Financial Statements of the Company. The financial statements of the company have been prepared and presented in accordance with the Generally Accepted Accounting Principles (GAAP). GAAP comprises the Accounting Standards notified u/s 133 read with Section 469 of the Companies Act, 2013. The accounting policies used for Restated financial statement is similar and followed consistently unless if the policy used in the Audited financial statement is not in accordance with the Accounting Standards and therefore suitable policy changes also adopted by the management while preparing the restated financial statement. Accounting policies have been framed, keeping in view the fundamental accounting assumptions of Going Concern, Historical cost convention, Consistency and Accrual, as also basic considerations of Prudence, Substance over form, and Materiality. The Financial Statements have been prepared on a going concern basis, in as much as the management neither intends to liquidate the company nor to cease operations. Accordingly, assets, liabilities, income and expenses are recorded on a Going Concern basis. Based on the nature of products and the time between the acquisition of assets and realization in cash or cash equivalents, the company has ascertained its operating cycle as 12 months for the purposes of current and non-current classification of assets and liabilities.

The Restated Financial Statements have been prepared in Rs Lakhs, in accordance with the requirements of Schedule III to the Companies Act, 2013. Consequently, amounts less than ₹0.01 lakh (i.e., less than ₹1,000) have been rounded off and may appear as '0.00'. Such presentation does not imply that the underlying transaction or balance is nil."

Basis of Consolidation

"The Consolidated Financial Statements have been prepared in accordance with Accounting Standard (AS) 21 – Consolidated Financial Statements, notified under the Companies (Accounting Standards) Rules, and other applicable accounting standards. The financial statements of the parent company and its subsidiaries have been consolidated on a line-by-line basis by adding together like items of assets, liabilities, income, and expenses. Inter-company balances and transactions, including unrealized profits/losses arising from intra-group transactions, have been fully eliminated.

Minority interest, where applicable, in the net assets of consolidated subsidiary is presented separately from the parent's equity in the consolidated balance sheet. The share of profit or loss attributable to minority interest is also separately disclosed in the consolidated statement of profit and loss."

2.1.2 Use of Estimates

"The preparation of consolidated financial statements in conformity with Generally Accepted Accounting Principles in India (Indian GAAP) requires the management to make judgements, estimates, and assumptions that affect the reported amounts of revenues, expenses, assets, and liabilities and the accompanying disclosures, as well as the disclosure of contingent liabilities at the date of the consolidated financial statements.

The estimates and assumptions used in the consolidated financial statements are based on historical experience, management's evaluation of relevant facts and circumstances, and other reasonable factors that are believed to be prudent and reasonable under the circumstances. Actual results may differ from these estimates."

2.1.3 Revenue Recognition

"The holding company and its subsidiary entity major sources of revenue are sale of goods and revenue arising from the use by others of enterprise yielding interest.

Revenue from sale of goods is recognized by the company when the requirements as to performance as set out in the AS 9 -Revenue Recognition are satisfied, provided at the time of performance it is not unreasonable to expect ultimate collection.

In a transaction involving the sale of goods, performance is regarded as being achieved, when the following conditions have been fulfilled:

- i. The holding company and its subsidiary entity has transferred to the buyer the property in the goods for a price or all significant risks and rewards of ownership have been transferred to the buyer and the company retains no effective control of the goods transferred to a degree usually associated with the ownership; and
- ii. No significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of goods.

Revenue from service transactions is recognized when requirements as to performance set out in paragraph 12 of the accounting standard are satisfied, provided that at the time of performance it is not unreasonable to expect ultimate collection. In a transaction involving of rendering of services, performance is measured under completed service contract method. Such performance is regarded as being achieved when no significant uncertainty exists regarding the amount of consideration that will be derived from rendering the same.

Revenue arising from the use by others of company's resources yielding interest is recognized on a time proportionate basis taking into account the amount outstanding and the rate applicable."

2.1.4 Employee Benefits

- (i) Employee Benefits include (a) short term employee benefits such as wages, salaries and social security contribution, paid annual leave, and non-monetary benefits for current employees; (b) post-employment benefits such as gratuity, pension, other retirement benefits, post-employment life insurance and post-employment medical care; (c) Other long term employee benefits, including long-service leave or sabbatical leave, jubilee or other long-service benefits, long-term disability benefits and, if they are not payable wholly within twelve months after the end of the period, profit sharing bonuses and deferred compensation; and (d) termination benefits.
- (ii) The Holding company recognizes short term employee benefits as an expense, unless other accounting standards requires or permits the inclusion of benefits in the cost of an asset and as a liability (accrued expenses) in wages, salaries. As there are contractual obligations of short-term compensated absences, expenses and liability in relation thereto is measured and recognized by the company as provided in AS 15 -Employee benefits.

Defined Contribution plans

- (iii) The holding company makes periodical contributions to state run, operated and managed provident fund scheme and employee state insurance schemes to take care of social security and health of its eligible employees under the respective acts under which these schemes are being operated. These contributions are recorded as an expense, unless other accounting standards permit otherwise and in case of accrued expenses the same is shown as liability.

Post-Employment benefits

Gratuity:

- (iv) The holding company have an obligation towards gratuity, a defined benefit retirement plan covering the eligible employees. The plan provides for a payment to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15 days' salary payable for each completed year of services. The holding company make annual contributions to gratuity fund established as trusts or insurance companies and the company account for the liability of gratuity benefits payable in the future based on actuarial valuation.
- (v) "Remeasurement comprising actuarial gains and losses and the return on plan assets is reflected in the balance sheet with charge or credit recognized in the statement of the profit and loss account. Past service costs are recognized in the statement of profit and loss pursuant to the plan. Interest is calculated by applying the discount rate at the beginning of the period to the net defined liability or asset. Defined benefit costs are categorized as follows: -
- Service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements)
 - Interest expenses or income; and
 - Remeasurement

The retirement benefit obligation recognized in the balance sheet represents the actual deficit or surplus in the company's defined benefit plans."

- (vi) The present value of the defined benefit liability and the related current service cost and past service cost are measured using projected unit credit method. The present value of the post-employment benefit obligations depends on a number of factors; it is determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost/(income) for pensions include the discount rate, inflation and mortality assumptions. Any changes in these assumptions will impact upon the carrying amount of post-employment benefit obligations.

Other Long -Term Employees Benefits:

Compensated absences

- (vii) The holding company provide for the encashment of leave or leave with pay subject to certain rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment. The liability is provided based on the number of days of unutilized leave at each balance sheet date.
- (viii) Termination benefits: The holding company policy with regard to termination benefits is same as is with other long-term benefits above.

2.1.5 Property, plant and equipment and Intangible assets

Gross carrying amounts of each class of Property, Plant and Equipment and Intangible Assets are measured at cost model. The capitalization of the borrowing costs as part of a qualifying assets commences when (a) expenditure for the acquisition, construction or production of a qualifying asset is being incurred; (b) borrowings costs are being incurred; and (c) activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalization of the borrowing costs is ceased when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete including when the construction of a qualifying asset is completed in parts and a completed part is capable of being used while construction is capable of being used.

Depreciation and Amortisation

"Depreciation is provided on a Written Down Value Method ('WDV') over the estimated useful lives of the property, plant and equipment as estimated by the Management and is recognised in the statement of profit and loss.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (upto) the date on which asset is ready for use (disposed of). The Management has estimated the useful lives for property, plant and equipment which is similar to the life specified in Schedule II of Companies Act, 2013. Depreciation is not recorded on capital work in progress until construction and installation are complete and the asset is ready for its intended use.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively if appropriate. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Amortization of Intangible assets is provided on a Straight Line Method (SLM) on the basis of the period over which the assets is expected to generate future economic benefits. "

2.1.6 Inventories

The inventories are valued at lower of cost and net realizable value. Cost, comprises of all costs of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition.

Cost of purchase consist of the purchase price including duties and taxes (other than those subsequently recoverable by the company from the taxing authorities), freight inwards, and other expenditure directly attributable to the acquisition, trade discounts, rebate, duty drawbacks and other similar items are deducted in determining the cost of purchase.

Holding company determines the cost of inventories of raw materials, packing materials, stock in trade, to the extent feasible by using first-in, first out method to determine cost. Cost of finished goods is determined by taking into the cost of raw materials used and adding thereto the cost of conversion. The conversion cost is the sum total of all direct expenses allocable and attributable to the production as reduced by the realized/realizable value of by products and waste materials.

2.1.7 Income tax

Income taxes are computed using the tax effect accounting method, where taxes are accrued in the same period in which the related revenue and expenses arise. A provision is made for income tax annually, based on the tax liability computed, after considering tax allowances and exemptions. Provisions are recorded when it is estimated that a liability due to disallowances or other matters is probable.

The differences that result between the profit considered for income taxes and the profit as per the consolidated financial statements are identified, and thereafter a deferred tax asset or deferred tax liability is recorded for timing differences, namely the differences that originate in one accounting period and reverse in another, based on the tax effect of the aggregate amount being considered. The tax effect is calculated on the accumulated timing differences at the end of an accounting period, based on prevailing enacted or substantially enacted regulations. Deferred tax assets are recognized only if there is reasonable certainty that they will be realized and are reviewed for the appropriateness of their respective carrying values at each balance sheet date.

2.1.8 Provisions, contingent liability and contingent assets

The Holding company and its subsidiary entity recognises a provision when there is a present obligation as a result of a past event and it is more likely than not that there will be an outflow of resources embodying economic benefits to settle such obligation and the amount of such obligation can be reliably estimated. Provisions are determined based on the management's best estimate of the obligation required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect current management estimates.

A disclosure for contingent liability is made where it is more likely than not that a present obligation or possible obligation would result in or involve an outflow of resources. Contingent assets are not recognised in the consolidated financial statements.

2.1.9 Earnings per share

"The basic earnings per share is computed by dividing the net profit attributable to owners of the Company for the reporting years by the weighted average number of Equity shares outstanding during the reporting years. The number of shares used in computing diluted earnings per share comprises the weighted average shares considered for deriving basic earnings per share and all dilutive potential equity shares. There are no potential dilutive instruments issued by the Company, therefore Weighted average number of Equity shares for Basic and Dilutive remain same during the reporting years.

EPS has been calculated to show the Impact of Extra ordinary items during the reporting years. In case of bonus issue of equity shares, EPS have been calculated as if the bonus shares were issued at the beginning of the earliest."

2.1.10 Cash and Cash Equivalents

Cash and cash equivalents comprise cash and cash on deposits with banks. The Company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalent and further that are subject to an in significant risks of change in value.

2.1.11 Investments

Trade investments are the investments made to enhance the holding company and its subsidiary entity's business interests. Investments are either classified as current or long-term based on Management's intention. Current investments are carried at the lower of cost and fair value of each investment individually. Long term investments are carried at cost less provisions recorded to recognize any decline, other than temporary, in the carrying value of each investment.

2.1.12 Leases

Lease payments under an operating lease is recognized as an expense in the statement of profit and loss on a straight- line basis over the lease term unless another systematic basis is more representative of the time pattern of the company's benefit. Assets acquired under finance leases are recognised as assets of the Company at the lower of the fair value of the leased asset and the present value of the minimum lease payments. The corresponding lease liability is recognised accordingly, and finance charges are recognised in the Statement of Profit and Loss over the lease term.

2.1.13 Borrowing Cost

Borrowing Costs attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of that asset. Borrowing costs, which are not relatable to qualifying assets, are recognized as an expense in the period in which they are incurred.

2.1.14 Extraordinary, Exceptional and Prior Period Items

"a) Income or expenses that arise from events or transactions that are clearly distinct from the ordinary activities of the group are classified as extraordinary items. Specific disclosure of such events/transactions is made in the financial statements. Similarly, any external event beyond the control of the group, significantly impacting income or expense, is also treated as extraordinary item and disclosed as such.

b) On certain occasions, the size, type or incidence of an item of income or expense, pertaining to the ordinary activities of the group, is such that its disclosure improves an understanding of the performance of the group. Such income or expense is classified as an exceptional item and accordingly disclosed in the notes to accounts."

2.1.15 Changes in Accounting Policies in the years covered in the Restated Financials

There was no change in accounting policies, which needs to be adjusted in the Restated Financial Statement, except (a) Accounting of gratuity which was accounted on cash basis in the FY 2023-24, however during the restatement Company has accounted such retirement benefits on the basis of actuarial valuation certificate in accordance with AS 15 (Revised). (b) Accounting of interest payable to Micro and Small Enterprises on their delay payments as required under Micro, Small and Medium Enterprises Development Act, 2006 was not accounted for the year ended on March 2024, however during the restatement the company has accounted such interest.

2.1.16 Cash Flow

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. Cash flows from operating, investing and financing activities of the Company are segregated, accordingly.

2.1.17 Other Accounting Policies

Notes to employee benefits expenses:

Employee Benefits:

24.1 Defined contribution plans:

The Company makes contributions, determined as a specified percentage of employee salaries, in respect of qualifying employees towards provident fund and labour welfare fund which are defined contribution plans. The Company has no obligation other than to make the specified contributions. The Contributions are charged to the statement of profit and loss as they accrue.

24.2 Expenses under defined contribution plans include:	Year ended on

Social Security contribution-Contribution to ESI State plans	1.01	0.31	0.28
Contribution to Welfare fund	1.03	0.25	0.23

Defined benefit plans:

24.3 Gratuity

(i) Employee gratuity, which is a defined benefit scheme, is accrued based on actuarial valuation date at the balance sheet date for each year. The present value of obligation is determined based on actuarial valuation using the projected unit credit method, which recognise each period of service as giving rise to additional employee benefits entitlement and measures each unit separately to build up the final obligation. The actuarial valuation of plan assets and the present value of the defined benefit obligation for gratuity were carried out as at for each year. The present value of the defined benefit obligation and the related current service cost and past service cost, were measured using the projected unit credit method.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

You should read the following discussion in conjunction with our restated financial statements attached in the chapter titled “Financial Information of the Company” beginning on page 164. You should also read the section titled “Risk Factors” on page 21 and the section titled “Forward Looking Statements” on page 19 of this Red Herring Prospectus, which discusses a number of factors and contingencies that could affect our financial condition and results of operations. The following discussion relates to us, and, unless otherwise stated or the context requires otherwise, is based on our Restated Financial Statements.

Our financial statements have been prepared in accordance with Indian GAAP, the Companies Act and the SEBI (ICDR) Regulations and restated as described in the report of our auditor dated August 03, 2026 which is included in this Red Herring Prospectus under “Financial Statements”. The Restated Financial Information has been prepared on a basis that differs in certain material respects from generally accepted accounting principles in other jurisdictions, including US GAAP and IFRS. Our financial year ends on March 31 of each year, and all references to a particular financial year are to the twelve-month period ended March 31 of that year.

BUSINESS OVERVIEW

We are an ISO 9001:2015 certified company engaged in the manufacturing of transformers across different voltage ratings. Our product offerings include distribution transformers, power transformers, transformers for solar applications, and special purpose transformers. These transformers are utilized across multiple sectors to facilitate the transmission and distribution of electrical energy. We focus on delivering quality and reliability in our product range, supported by standardized manufacturing practices and compliance with applicable industry norms. Transformers serve critical functions in power generation, transmission, and distribution networks, and are deployed in diverse industrial and infrastructure projects.

Our Company was incorporated in 1995, in the initial years of operation, we were primarily engaged in the repair and servicing of distribution and power transformers. Recognizing the growth potential in the power infrastructure sector and leveraging our experience, we established the manufacturing facility of transformers in the year 2005-06 from our first manufacturing facility located at Plot no. 1413, HSIDC, Industrial Estate, Rai, District Sonapat. Subsequently, to meet increasing market demand and expand our production capacity, we established a second manufacturing facility located at Plot No. 1676–1677, Sector-38, Phase-I, HSIIDC Industrial Estate, Rai, District Sonapat, Haryana. In line with our strategic growth plans and to improve operational efficiency, we have implemented a synergistic system of backward integration. As part of this integration, our group company, SHR Powers Private Limited, manufactures transformer tanks/bodies, which are key components utilized in the production of our transformers. This integration enables us to optimize our production processes, achieve cost efficiencies, enhance control over our supply chain, and reduce reliance on external suppliers.

We follow standard practices in quality assurance, regulatory compliance, and process improvement to meet customer and industry requirements. Our approach has supported the development of long-term relationships with a wide range of customers, including government entities, utility companies, EPC contractors, and industrial clients. The Company is an approved vendor for over 20 entities, which includes power distribution corporations, public sector undertakings, and public utility companies. Details of our revenue bifurcation based on transformer supplied to government and non-government customer provided below-

As of March 31, 2026, we operate through two manufacturing units, Plot No. 1676–1677, Sector-38, Phase-I, HSIIDC Industrial Estate, Rai, District Sonapat, Haryana and Plot no. 1413, HSIDC, Industrial Estate, Rai, District Sonapat collectively spread across approximately 2025 sq. mtrs and 1012.5 sq. mtrs. These facilities have a combined installed production capacity of approximately 15,00,000 KVA for Distribution transformer and 1350 MVA for Power transformer as on March 31, 2026. Our manufacturing units are equipped with requisite machinery and equipment, including wire jointing machine, CU strip machine, aluminium strip machine, slating machine, HT covering machine, power press machine, LT winding machine, HT winding machine, ovens, cranes, power disc welding machine, oil filtration machine, compressor, cutting machine and drill machines, etc. enabling us to maintain quality standards and efficiency in our production processes. Our manufacturing operations are conducted in accordance with applicable industry standards

and regulatory guidelines. The company places emphasis on the strict manufacturing norms, testing, and timely delivery of transformers, all tailored to meet specific customer requirements.

Our company aims to deliver single/three phase CRGO oil filled distribution or power transformers which are designed according to customer requirements and individual factors like voltage, power, climate, system landscape, sound level etc. We implement control measures at each stage of the manufacturing process to ensure that the transformers comply with applicable technical specifications, regulatory standards, and customer requirements. Our manufacturing process uses key raw materials such as CRGO (Cold Rolled Grain Oriented) steel, copper/aluminium conductors, transformer oil, insulating materials and fabricated transformer tanks. Over the years, we have established long-standing relationships with our suppliers, enabling us to procure quality raw materials in a timely manner and at competitive prices.

The manufacturing process includes core cutting, coil winding, core-coil assembly, tank fabrication, drying, oil filling, final assembly, and testing. We have established in-house facilities for core cutting/slitting, wire drawing or strip drawing, tank fabrication etc. which helps us in meeting the design requirements and expectations of our customers with different types of shapes and size, it also helps us achieve sustain quality standards, reduce dependence on third party and make our process cost effective. We also operate an in-house testing laboratory equipped to conduct routine and type tests in line with relevant Indian Standards (IS) and customer requirements. Our company is ISO 9001:2015 certified. We manufacture products in compliance with Bureau of Indian Standards (BIS) and are authorized to use the ISI mark on applicable products. Additionally, several of our products are certified under the Bureau of Energy Efficiency (BEE) STAR rating program, supporting energy efficiency and compliance with regulatory norms.

Our business operations are led by our Promoter, Sanjeev Kanda, who has played a key role in the establishment and growth of the Company. With around 31 years of experience in the transformer industry, he has contributed towards strategic planning, operational execution, and expansion of our Company. Under his leadership, the Company has expanded its operations to a full-scale manufacturing and has established a presence in power transmission sector. He is further supported by our directors, Key Managerial Personnels and Senior management having diverse experiences in the field of transformer manufacturing, finance, regulatory compliance. The team is responsible for day-to-day operations and execution of the Company's business strategy, ensuring adherence to technical and commercial standards across functions. The combined expertise of our Promoter and senior management enables us to maintain operational discipline, respond to customer requirements, and pursue new opportunities in the power and energy sector.

Comparison of Financial Year 2025 with Financial Year 2024 (Based on Restated Financial Consolidated Statements)

Revenue from Operations

Revenue from Operations increased significantly from ₹16,094.61 lakhs in FY 2024 to ₹32,420.98 lakhs in FY 2025, reflecting a rise of 101.44%. The increase was primarily on account of higher sales volumes of transformers. Another reason is due to New orders received by company during FY 2025.

Other Income

Other income reduced from ₹157.84 lakhs in FY 2024 to ₹57.05 lakhs in FY 2025, a decline of ₹100.79 lakhs (63.86%). This reduction was mainly due to an accident insurance claim received amounting to ₹78.47 in FY 2024. Other reason includes Remeasurement gain on actuarial valuation amounting to ₹15.78 Lakhs in FY 2024 which is Nil in FY 2025.

Cost of Materials Consumed

Cost of Materials Consumed rose from ₹14,258.81 lakhs in FY 2024 to ₹26,853.98 lakhs in FY 2025, an increase of ₹12,595.17 lakhs (88.34%). This was directly in line with the growth in production and sales volumes.

Employee Benefits Expense

Employee benefits expense increased from ₹448.42 lakhs in FY 2024 to ₹765.13 lakhs in FY 2025, a rise of ₹316.71 lakhs (70.65%). Finance Costs

Finance costs marginally decreased from ₹172.19 lakhs in FY 2024 to ₹164.45 lakhs in FY 2025, showing a reduction of ₹7.74 lakhs (4.49%).

Depreciation and Amortisation

Depreciation increased sharply from ₹38.11 lakhs in FY 2024 to ₹95.78 lakhs in FY 2025, higher by ₹57.67 lakhs 151.34%. This is attributable to significant additions in Property, Plant & Equipment, particularly plant & machinery amounting to 38.30 Lakhs and Vehicle purchased during the year amounting to 45 lakhs.

Other Expenses

Other expenses more than doubled from ₹691.11 lakhs in FY 2024 to ₹1,588.91 lakhs in FY 2025, an increase of ₹897.80 lakhs (129.90%). The reason for this increase was primarily attributable to the growth in business operations. The major contributors to this increase were freight outward ₹421.27 lakhs vs. ₹247.28 lakhs owing to higher dispatches, late delivery charges ₹320.17 lakhs in FY

2025 the corresponding amount in FY ₹16.49 lakhs due to penalties linked with delayed delivery, commission expenses ₹230.29 lakhs in FY 230.29 Lakhs in FY 2025 and ₹15.07 lakhs in FY 2024 on account of increased sales volumes. Additionally, insurance costs rose to ₹57.18 lakhs from ₹10.18 lakhs reflecting enhanced coverage for expanded assets and operations, while loading & unloading charges increased to ₹37.78 lakhs in FY 2025 from ₹15.34 lakhs in FY 2024.

Profit Before Tax (PBT)

PBT improved from ₹1,040.16 lakhs in FY 2024 to ₹2,774.66 lakhs in FY 2025, higher by ₹1,734.50 lakhs (166.75%). The growth was mainly driven by strong top-line expansion.

Profit After Tax (PAT)

PAT rose from ₹759.06 lakhs in FY 2024 to ₹2,037.67 lakhs in FY 2025, an increase of ₹1,278.61 lakhs (168.45%). The increase in PAT reflects strong operational performance and effective financial management. The increase was primarily attributable to higher revenue from operations which increased from ₹16094.61 lakhs in FY 2024 to ₹32420.98 lakhs in FY 2025, reflecting an increase of ₹16326.37 lakhs i.e. 101.44%. As compared with revenue, material costs increased by 88.33%, employees cost increased by 70.63%, lower finance costs, depreciation and amortization increased by 151.33%. Thus, higher increase in revenue as compared with corresponding expenses resulting in an improvement in operating margins. The PAT margins improved from 4.67% of the total income in the FY2024 to 6.27% of the Total income in the FY2025.

Listing:

The Equity Shares of our Company are proposed to be listed on SME Platform of BSE Limited. Our Company has obtained in-principle approval from BSE by way of its letter dated February 05, 2026 for listing of equity shares on SME Platform of BSE Limited.

SME Platform of BSE Limited (BSE SME) will be the Designated Stock Exchange, with which the Basis of Allotment will be finalized for the Offer. If the permissions to deal in, and for an official quotation of, the Equity Shares are not granted by any of the Stock Exchanges mentioned above, our Company will forthwith repay, without interest, all monies received from the applicants in pursuance of the Red Herring Prospectus, in accordance with applicable law. Promoter Selling Shareholders shall to the extent of their portion of the Offered Shares, be responsible to pay, or reimburse, as the case may be, in the proportion that the size of their portion of Offered Shares in the Offer for Sale bears to the total size of the Offer, any interest for such delays in making refunds only in the event any delay in making such refund is caused solely by, and is directly attributable to an act or omission of Promoter Selling Shareholders and in such cases where any delay is not attributable to Promoter Selling Shareholders, the Company shall solely be responsible to pay such interest in the manner agreed under the Offer Agreement.

Our Company shall ensure that all steps for the completion of the necessary formalities for listing and commencement of trading of the Equity Shares at the Stock Exchanges are taken within three Working Days from the Bid/ Offer Closing Date or within such other period as may be prescribed. Each of Promoter Selling Shareholders, severally and not jointly, confirms that it shall extend reasonable support and co-operation (to the extent of its portion of the Offered Shares) as required by law for the completion of the necessary formalities for listing and commencement of trading of the Equity Shares at the Stock Exchanges within three Working Days from the Bid/Offer Closing Date, or within such other period as may be prescribed.

If our Company does not Allot the Equity Shares within two Working Days from the Bid/Offer Closing Date or within such timeline as prescribed by SEBI, all amounts received in the Public Offer Accounts will be transferred to the Refund Account and it shall be utilised to repay, without interest, all monies received from Bidders, failing which interest shall be due to be paid to the Bidders at the rate of 15% per annum for the delayed period, as prescribed under applicable law. For avoidance of doubt, no liability to make any payment of interest or expenses shall accrue to any Promoter Selling Shareholder unless the delay in making any of the payments/refund hereunder or the delay in obtaining listing or trading approvals or any other approvals in relation to the Offer is caused solely by, and is directly attributable to, an act or omission of such Promoter Selling Shareholder and to the extent of their portion of the Offered Shares.

- (a) to register himself or herself as the holder of the Equity Shares; or

(b) to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of 90 (ninety) days, the Board may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the allotment of Equity Shares in the Offer is in dematerialized form, there is no need to make a separate nomination with us. Nominations registered with the respective depository participant of the applicant would prevail. If the investors require changing the nomination, they are requested to inform their respective depository participant.

The Anchor Investor Bid/Offer Period shall be one Working Day prior to the Bid/Offer Opening Date in accordance with the SEBI ICDR Regulations

²Our Company in consultation with the BRLM, consider closing the Bid/Offer Period for QIBs one Working Day prior to the Bid/Offer Closing Date in accordance with the SEBI ICDR Regulations.

³UPI mandate end time and date shall be at 5.00 p.m. on Bid/Issue Closing Date

*In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding four Working Days from the Bid/ Offer Closing Date, the Bidder shall be compensated at a uniform rate of ₹100 per day for the entire duration of delay exceeding four Working Days from the Bid/ Offer Closing Date by the intermediary responsible for causing such delay in unblocking. The BRLM shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking. For the avoidance of doubt, the provisions of the SEBI circular dated March 16, 2021, as amended pursuant to SEBI circular dated June 2, 2021 shall be deemed to be incorporated in the agreements to be entered into by and between the Company and the relevant intermediaries, to the extent applicable.

The above time table is indicative and does not constitute any obligation on our Company, the Promoter Selling shareholders or BRLM.

Whilst our Company and the Promoter Selling shareholders shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on SME Platform of BSE Limited (BSE SME) is taken within Three Working Days from the Offer Closing Date, the timetable may change due to various factors, such as extension of the Offer Period by our Company or any delays in receiving the final listing and trading approval from the Stock Exchange. The Commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws. Any circulars or notifications from the SEBI after the date of this Red Herring Prospectus may result in changes to the above-mentioned timelines. Further, the issue procedure is subject to change to any revised circulars issued by the SEBI to this effect.

Bid-Cum- Application Forms and any upward revisions to the same will be accepted only between 10.00 A.M. to 5.00 P.M. (IST) during the Offer Period (except for the Bid/ Offer Closing Date). On the Bid/ Offer Closing Date, the Bid-Cum- Application Forms will be accepted only between 10.00 a.m. to 4.00 p.m. (IST) for all Bidders. The time for applying for Individual Bidders on Bid/ Offer Closing Date may be extended in consultation with the BRLM, RTA and BSE SME taking into account the total number of applications received up to the closure of timings.

The SCSBs shall unblock such applications by the closing hours of the Working Day and submit the confirmation to the BRLM and the RTA on a daily basis.

It is clarified that Bids not uploaded on the electronic bidding system or in respect of which the full Bid Amount is not blocked by SCSBs or not blocked under the UPI Mechanism in the relevant ASBA Account, as the case may be, would be rejected.

Due to the limitation of time available for uploading the Bid-Cum-Application Forms on the Bid/ Offer Closing Date, Bidders are advised to submit their applications one (1) day prior to the Bid/ Offer Closing Date and, in any case, not later than 3.00 P.M. (IST) on the Bid/ Offer Closing Date. Any time mentioned in this Red Herring Prospectus is IST. Bidders are cautioned that, in the event a large number of Bid-Cum- Application Forms are received on the Bid/ Offer Closing Date, as is typically experienced in public Offer, some Bid-Cum- Application Forms may not get uploaded due to the lack of sufficient time. Such Bid-Cum- Application Forms that cannot be uploaded will not be considered for allocation under this Offer. Applications will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holidays). Neither our Company nor the BRLM is liable for any failure in uploading the Bid-Cum- Application Forms due to faults in any software/hardware system or otherwise.

In accordance with SEBI ICDR Regulations, Bidders are not allowed to withdraw or lower the size of their application (in terms of the quantity of the Equity Shares or the Application amount) at any stage.

In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Bid-Cum- Application Form, for a particular Bidder, the details as per the file received from Stock Exchange may be taken as the final data for the purpose of Allotment. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or electronic Bid-Cum- Application Form, for a particular ASBA Bidder, the Registrar to the Offer shall ask the relevant SCSBs / RTAs / DPs / stock brokers, as the case may be, for the rectified data.

Our Company in consultation with the BRLM, reserves the right to revise the Price Band during the Bid/ Offer Period. The revision in the Price Band shall not exceed 20% on either side, i.e. the Floor Price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly. The Floor Price shall not be less than the face value of the Equity Shares.

In case of any revision to the Price Band, the Bid/ Offer Period will be extended by at least three additional Working Days following such revision of the Price Band, subject to the Bid/ Offer Period not exceeding a total of 10 Working Days. In cases of force majeure, banking strike or similar circumstances, our Company in consultation with the Book Running Lead Manager, for reasons to be recorded in writing, extend the Bid/ Offer Period for a minimum of one Working Day, subject to the Bid/ Offer Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid/ Offer Period, if applicable, will be widely disseminated by notification to the Stock Exchange, by issuing a public notice, and also by indicating the change on the respective websites of the Book Running Lead Manager and the terminals of the Syndicate Members, if any and by intimation to SCSBs, other Designated Intermediaries and the Sponsor Bank, as applicable. In case of revision of Price Band, the Bid Lot shall remain the same.

Minimum Subscription and Underwriting

Minimum subscription in the Offer is 90% and the Offer is 100% underwritten as per Section 39 of the Companies Act, 2013, if the stated minimum amount has not been subscribed and the sum payable on application is not received within a period of 30 days from the date of the Prospectus, or such other period as may be specified by the SEBI the application money has to be returned within such period as may be prescribed. If the stated minimum amount has not been subscribed and the sum payable on application is not received within the period specified therein, then the application money shall be repaid within a period of fifteen days from the closure of the Offer and if any such money is not so repaid within such period, the directors of the company who are officers in default shall jointly and severally be liable to repay that money with interest at the rate of fifteen percent per annum.

Subject to applicable law, the Promoter Selling Shareholders shall not be responsible to pay interest for any delay, unless such delay is solely and directly attributable to an act or omission of such Promoter Selling Shareholder, in which case such liability shall be on a several and not joint basis.

The requirement of minimum subscription is not applicable to the Offer for Sale.

In case of undersubscription in the Offer, the Equity Shares in the Fresh Issue will be issued prior to the sale of Equity Shares in the Offer for Sale

Further, in accordance with Regulation 268(1) of the SEBI (ICDR) Regulations, our Company shall ensure that the number of prospective allottees to whom the Equity Shares will allotted will not be less than 200 (two-hundred).

In terms of Regulation 272(2) of SEBI ICDR Regulations, in case the Company fails to obtain listing or trading permission from the stock exchanges where the specified securities are proposed to be listed, it shall refund through verifiable means the entire monies received within four days of receipt of intimation from stock exchange(s) rejecting the application for listing of specified securities, and

if any such money is not repaid within four days after the issuer becomes liable to repay it, the issuer and every director of the company who is an officer in default shall, on and from the expiry of the fourth day, be jointly and severally liable to repay that money with interest at the rate of fifteen per cent per annum.

In terms of Regulation 260 of the SEBI (ICDR) Regulations, 2018, the Offer is 100% underwritten. For details of underwriting arrangement, kindly refer the chapter titled **“General Information - Underwriting”** on page 64 of this Red Herring Prospectus.

Further, in accordance with Regulation 267 of the SEBI (ICDR) Regulations, 2018, the minimum application size in terms of number of specified securities shall not be less than two (2) lots. Provided that minimum application size shall be above ₹2 lakhs.

Migration to Main Board

As per the provisions of the Chapter IX of the SEBI (ICDR) Regulation, 2018 read with SEBI ICDR (Amendment) Regulations, 2025 to the extent applicable, our Company may migrate to the main board of BSE from the SME Exchange on a later date subject to the following:

As per Regulation 280(2) of the SEBI ICDR Regulation, 2018 read along with SEBI ICDR (Amendment) Regulations, 2025, Where the post-issue paid up capital of the Company listed on a BSE SME is likely to increase beyond twenty-five crore rupees by virtue of any further issue of capital by the Company by way of rights issue, preferential issue, bonus issue, etc. the Company shall migrate its equity shares listed on a BSE SME to the Main Board and seek listing of the equity shares proposed to be issued on the Main Board subject to the fulfilment of the eligibility criteria for listing of equity shares laid down by the Main Board:

Provided that no further issue of capital shall be made unless –

- a) the shareholders have approved the migration by passing a special resolution through postal ballot wherein the votes cast by shareholders other than promoters in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal;
- b) the Company has obtained an in-principal approval from the Main Board for listing of its entire specified securities on it.

Provided further that where the post-Issue paid-up capital pursuant to further issue of capital including by way of rights issue, preferential issue, bonus issue, is likely to increase beyond ₹25 crores, the Company may undertake further issuance of capital without migration from SME exchange to the main board, subject to the undertaking to comply with the provisions of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as applicable to companies listed on the main board of the stock exchange(s)."

If the Paid-up Capital of the company is more than ₹10 crores but below ₹25 crores, we may still apply for migration to the main board if the same has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the promoters in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal.

SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018, read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, has introduced an alternate payment mechanism using Unified Payments Interface ("**UPI**") and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI Mechanism for Retail Individual Investors applying through Designated Intermediaries was made effective along with the existing process and existing timeline of T+6 days. ("**UPI Phase I**"). The UPI Phase I was effective till June 30, 2019.

With effect from July 1, 2019, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, read with circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 with respect to Bids by RIIs through Designated Intermediaries (other than SCSBs), the existing process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism for such Bids with existing timeline of T+6 days was mandated for a period of three months or launch of five main board public Offers, whichever is later ("**UPI Phase II**"). Subsequently, however, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice. The final reduced timeline will be made effective using the UPI Mechanism for applications by RIIs ("**UPI Phase III**"), as may be prescribed by SEBI. The Offer will be undertaken pursuant to the processes and procedures under UPI Phase II, subject to any circulars, clarification or notification issued by the SEBI from time to time. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances. This circular is effective for initial public offers opening on or after May 1, 2021, except as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021. The provisions of these circulars are deemed to form part of this Red Herring Prospectus. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/45 dated April 5, 2022, all individual bidders in initial public offerings whose application sizes are up to ₹500,000 shall use the UPI Mechanism. Pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022; applications made using the ASBA facility in initial public offerings shall be processed only after application monies are blocked in the bank accounts of investors (all categories). These circulars are effective for initial public offers opening on/or after May 1, 2021, and the provisions of these circulars, as amended, are deemed to form part of this Red Herring Prospectus.

Furthermore, SEBI vide press release bearing number 12/2023 has approved the proposal for reducing the time period for listing of shares in public Issue from existing 6 working days to 3 working days from the date of the closure of the Issue. The revised timeline of T+3 days shall be made applicable in two phases i.e. voluntary for all public Issues opening on or after September 1, 2023 and mandatory on or after December 1, 2023. Further, SEBI has vide its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 reduced the time taken for listing of specified securities after the closure of a public Issue to three Working Days. Accordingly, the Issue will be made under UPI Phase III on a mandatory basis, subject to any circulars, clarification or notification issued by the SEBI from time to time.

The BRLM shall be the nodal entity for any Offers arising out of public issuance process.

Further, our Company and the Syndicate are not liable for any adverse occurrence's consequent to the implementation of the UPI Mechanism for application in this Offer.

Phased implementation of UPI

SEBI has issued the UPI Circulars in relation to streamlining the process of public Offer of, inter alia, equity shares. Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by UPI Bidders through Designated Intermediaries with the objective to reduce the time duration from public Offer closure to listing from six Working Days to up to three Working Days. The SEBI in its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023, has reduced the time period for listing of equity shares pursuant to a public Offer from six Working Days to three Working Days. The timeline was applicable on a voluntary basis for public Offers opening on or after September 1, 2023 and has been made applicable on a mandatory basis for public Offers opening on or after December 1, 2023. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars have introduced the UPI Mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public Offers, whichever was later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, an RII had the option to submit the ASBA Form with any of the Designated Intermediary and use his/ her UPI ID for the purpose of blocking of funds. The time duration from public Offer closure to listing continued to be six Working Days.

Phase II: This phase became applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public Offers, whichever was later. SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 had decided to extend the timeline for implementation of UPI Phase II until March 31, 2020. Subsequently, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II until further notice. Under this phase, submission of the ASBA Form by RIIs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds was discontinued and replaced by the UPI Mechanism. However, the time duration from public Offer closure to listing continued to be six Working Days during this phase.

SEBI through its circular SEBI/HO/CFD/DIL2/CIR/P/2022/45 dated April 5, 2022, prescribed that all individual bidders applying in initial public offerings opening on or after May 1, 2022, where the application amount is up to ₹500,000, shall use UPI. Individual investors bidding under the Non-Institutional Portion bidding for more than ₹200,000 and up to ₹500,000, using the UPI Mechanism, shall provide their UPI ID in the Bid cum-Application Form for Bidding through Syndicate, sub-syndicate members, Registered Brokers, RTAs or CDPs, or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.

Phase III: This phase has become applicable on a voluntary basis for all Offers opening on or after September 1, 2023 and on a mandatory basis for all Offers opening on or after December 1, 2023, vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 ("**T+3 Notification**"). In this phase, the time duration from public Offer closure to listing has been reduced to three Working Days. The Offer shall be undertaken pursuant to the processes and procedures as

notified in the T+3 Notification as applicable, subject to any circulars, clarification or notification issued by SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI. The Offer is being made under Phase III of the UPI (on a mandatory basis).

The processing fees for applications made by UPI Bidders may be released to the SCSBs only after such banks provide a written confirmation, in compliance with the SEBI RTA Master Circular in a format as prescribed by SEBI, from time to time, and such payment of processing fees to the SCSBs shall be made in compliance with circulars prescribed by SEBI and applicable law.

All SCSBs offering facility of making application in public Offers shall also provide facility to make application using UPI. Our Company will be required to appoint one of the SCSBs as the Sponsor Bank(s) to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the UPI Bidders.

For further details, refer to the General Information Document available on the websites of the Stock Exchanges and the BRLM. Additionally, if there is any delay in the redressal of investors' complaints, the relevant SCSB as well as the BRLM will be required to compensate the concerned investor.

PART A

Book Building Procedure

The Offer is being made in terms of Rule 19(2)(b) of the SCRR read with Regulation 252 of the SEBI ICDR Regulations, through the Book Building Process in accordance with Regulation 229(2) of the SEBI ICDR Regulations wherein not more than 50% of the Net Offer shall be available for allocation on a proportionate basis to QIBs, provided that our Company, in consultation with the BRLM, allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations, of 40% of the Anchor Investor Portion shall be reserved for, (i) 33.33% shall be available for allocation to domestic Mutual Funds, and (ii) 6.67% for life insurance companies and pension funds, subject to valid Bids being received from domestic Mutual Funds, life insurance companies and pension funds at or above the Anchor Investor Allocation Price. In the event of under-subscription in (ii) above, the allocation may be made to domestic Mutual Funds in accordance with the SEBI ICDR Regulations. In the event of under-subscription, or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the Net QIB Portion. Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis only to Mutual Funds, and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIBs (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Offer Price. Further, not less than 15% of the Net Offer shall be available for allocation to Non-Institutional Investors (of which one third of the Non-Institutional Portion shall be reserved for Bidders with an application size of more than two lots and up to such lots equivalent to not more than ₹10 lakhs; and two-thirds of the Non-Institutional Portion shall be reserved for Bidders with an application size of more than ₹10 lakhs) and not less than 35% of the Net Offer shall be available for allocation to Individual Investors in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Offer Price.

Subject to valid Bids being received at or above the Offer Price, undersubscription, if any, in any category, except the QIB Portion, would be allowed to be met with spill-over from any other category or a combination of categories at the discretion of our Company, in consultation with the BRLM, and the Designated Stock Exchange. However, under-subscription, if any, in the QIB Portion will not be allowed to be met with spill-over from other categories or a combination of categories.

The Equity Shares, on Allotment, shall be traded only in the dematerialized segment of the Stock Exchanges. All potential Bidders (except Anchor Investors) are required to mandatorily utilize the ASBA process providing details of their respective ASBA accounts, and UPI ID (in case of UPI Bidders) if applicable, in which the corresponding Bid Amounts will be blocked by the SCSBs or under the UPI Mechanism, as applicable.

case by case basis. OCBs may invest in this Offer provided it obtains a prior approval from the RBI. On submission of such approval along with the Bid Cum Application Form, the OCB shall be eligible to be considered for share allocation.

MAXIMUM AND MINIMUM APPLICATION SIZE

1. For Individual Bidders

The Application must be for a minimum of two lots. In case of revision of Applications, the Individual Bidders have to ensure that the Application amount exceeds Rs 2,00,000 as applicable. The Application must be for a minimum application size of two lots and in multiples of [●] Equity Shares thereafter, so as to ensure that the Application Price payable by the Bidder exceeds ₹2,00,000. In case of revision of Applications, the Individual Bidders have to ensure only upward revision and they shall not withdraw or lower their bids.

2. For Other than Individual Bidders (Non-Institutional Applicants and QIBs):

The Application must be for more than two lots and in multiples of [●] Equity Shares thereafter. An application cannot be submitted for more than the Net Offer Size. However, the maximum Application by a QIB investor should not exceed the investment limits prescribed for them by applicable laws. Under existing SEBI Regulations, a QIB Bidder cannot withdraw its Application after the Offer Closing Date and is required to pay 100% QIB Margin upon submission of Application.

In case of revision in Applications, the Non-Institutional Bidders, who are individuals, have to ensure upward revision and that the Application is for more than two lots for being considered for allocation in the Non-Institutional Portion.

Bidders are advised to ensure that any single Application from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in this Red Herring Prospectus.

The above information is given for the benefit of the Bidders. The Company and the BRLMs are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.

METHOD OF BIDDING PROCESS

Our Company in consultation with the BRLM will decide the Price Band and the minimum Bid lot size for the Offer and the same shall be advertised in all editions of the English national daily newspaper Business Standard, and all editions of Hindi national daily newspaper Business Standard and of Regional newspaper Navodaya Times where the registered office of the company is situated, each with wide circulation at least two Working Days prior to the Bid/ Offer Opening Date. The BRLM and the SCSBs shall accept Bids from the Bidders during the Bid/ Offer Period.

- a) The Bid / Offer Period shall be for a minimum of three Working Days and shall not exceed 10 Working Days. The Bid/ Offer Period maybe extended, if required, by an additional three Working Days, subject to the total Bid/ Offer Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid/ Offer Period, if applicable, will be published in all editions of the English national daily newspaper Business Standard, and all editions of Hindi national daily newspaper Business Standard and of Regional newspaper Navodaya Times each with wide circulation where the registered office of the company is situated, each with wide circulation and also by indicating the change on the websites of the Book Running Lead Manager.
- b) During the Bid/ Offer Period, Individual Bidders, should approach the BRLM or their authorized agents to register their Bids. The BRLM shall accept Bids from Anchor Investors and ASBA Bidders in Specified Cities and it shall have the right to vet the Bids during the Bid/ Offer Period in accordance with the terms of the Red Herring Prospectus. ASBA Bidders should approach the Designated Branches or the BRLM (for the Bids to be submitted in the Specified Cities) to register their Bids.
- c) Each Bid cum Application Form will give the Bidder the choice to Bid for up to three optional prices (for details refer to the paragraph titled “Bids at Different Price Levels and Revision of Bids” below) within the Price Band and specify the demand (i.e., the number of Equity Shares Bid for) in each option. The price and demand options submitted by the Bidder in the Bid cum Application Form will be treated as optional demands from the Bidder and will not be cumulated. After determination of the Offer Price, the maximum number of Equity Shares Bid for by a Bidder/Applicant at or above the Offer Price will be considered for allocation/Allotment and the rest of the Bid(s), irrespective of the Bid Amount, will become automatically invalid.
- d) The Bidder/ Applicant cannot Bid through another Bid cum Application Form after Bids through one Bid cum Application Form have been submitted to a BRLM or the SCSBs. Submission of a second Bid cum Application Form to either the same or to another

BRLM or SCSB will be treated as multiple Bid and is liable to be rejected either before entering the Bid into the electronic bidding system, or at any point of time prior to the allocation or Allotment of Equity Shares in this Offer. However, the Bidder can revise the Bid through the Revision Form, the procedure for which is detailed under the paragraph “Buildup of the Book and Revision of Bids”.

- e) Except in relation to the Bids received from the Anchor Investors, the BRLM/the SCSBs will enter each Bid option into the electronic bidding system as a separate Bid and generate a Transaction Registration Slip, (“TRS”), for each price and demand option and give the same to the Bidder. Therefore, a Bidder can receive up to three TRSs for each Bid cum Application Form.
- f) The BRLM shall accept the Bids from the Anchor Investors during the Anchor Investor Bid/ Offer Period i.e. one working day prior to the Bid/ Offer Opening Date. Bids by QIBs under the Anchor Investor Portion and the QIB Portion shall not be considered as multiple Bids.
- g) Along with the Bid cum Application Form, Anchor Investors will make payment in the manner described in “*Escrow Mechanism - Terms of payment and payment into the Escrow Accounts*” in the section “**Offer Procedure**” beginning on page 268 of this Red Herring Prospectus
- h) Upon receipt of the Bid cum Application Form, submitted whether in physical or electronic mode, the Designated Branch of the SCSB shall verify if sufficient funds equal to the Bid Amount are available in the ASBA Account, as mentioned in the Bid cum Application Form prior to uploading such Bids with the Stock Exchange.
- i) If sufficient funds are not available in the ASBA Account, the Designated Branch of the SCSB shall reject such Bids and shall not upload such Bids with the Stock Exchange.
- j) If sufficient funds are available in the ASBA Account, the SCSB shall block an amount equivalent to the Bid Amount mentioned in the Bid cum Application Form and will enter each Bid option into the electronic bidding system as a separate Bid and generate a TRS for each price and demand option. The TRS shall be furnished to the ASBA Bidder on request.
- k) The Bid Amount shall remain blocked in the aforesaid ASBA Account until finalization of the Basis of Allotment and consequent transfer of the Bid Amount against the Allotted Equity Shares to the Public Offer Account, or until withdrawal/failure of the Offer or until withdrawal/rejection of the Bid cum Application Form, as the case may be. Once the Basis of Allotment is finalized, the Registrar to the Offer shall send an appropriate request to the SCSB for unblocking the relevant ASBA Accounts and for transferring the amount allocable to the successful Bidders to the Public Offer Account. In case of withdrawal/failure of the Offer, the blocked amount shall be unblocked on receipt of such information from the Registrar to the Offer.

BIDS AT DIFFERENT PRICE LEVELS AND REVISION OF BIDS

- a) Our Company in consultation with the BRLM, and without the prior approval of, or intimation, to the Bidders, reserves the right to revise the Price Band during the Bid/ Offer Period, provided that the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the face value of the Equity Shares. The revision in Price Band shall not exceed 20% on the either side i.e. the floor price can move up or down to the extent of 20% of the floor price disclosed. If the revised price band decided, falls within two different price bands than the minimum application lot size shall be decided based on the price band in which the higher price falls into.
- b) Our Company in consultation with the BRLM, will finalize the Offer Price within the Price Band, without the prior approval of, or intimation, to the Bidders.
- c) The Bidders can Bid at any price within the Price Band. The Bidder has to Bid for the desired number of Equity Shares at a specific price.
- d) The price of the specified securities offered to an anchor investor shall not be lower than the price offered to other applicants.

Participation by Associates /Affiliates of BRLM and the Syndicate Members

The BRLM and the Syndicate Members, if any, shall not be allowed to purchase in this Offer in any manner, except towards fulfilling their market making and underwriting obligations. However, the associates and affiliates of the BRLM and the Syndicate Members, if any, may subscribe the Equity Shares in the Offer, either in the QIB Category or in the Non-Institutional Category as may be applicable to such Bidders, where the allocation is on a proportionate basis and such subscription may be on their own account or on behalf of their clients.

BIDS BY BANKING COMPANY:

In case of Bids made by banking companies registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, and (ii) the approval of such banking company's investment committee are required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid by a banking company without assigning any reason.

The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, 1949, as amended (the "Banking Regulation Act"), and the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, is 10% of the paid-up share capital of the investee company not being its subsidiary engaged in non-financial services or 10% of the banks' own paid-up share capital and reserves, whichever is lower. However, a banking company would be permitted to invest in excess of 10% but not exceeding 30% of the paid-up share capital of such investee company if (i) the investee company is engaged in non-financial activities permitted for banks in terms of Section 6(1) of the Banking Regulation Act, or (ii) the additional acquisition is through restructuring of debt / corporate debt restructuring / strategic debt restructuring, or to protect the banks' interest on loans / investments made to a company. The bank is required to submit a time bound action plan for disposal of such shares within a specified period to RBI. A banking company would require a prior approval of RBI to make (i) investment in a subsidiary and a financial services company that is not a subsidiary (with certain exception prescribed), and (ii) investment in a nonfinancial services company in excess of 10% of such investee company's paid-up share capital as stated in 5(a)(v)(c)(i) of the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016.

BIDS BY SCSB'S:

SCSBs participating in the Offer are required to comply with the terms of the SEBI circulars dated September 13, 2012 and January 2, 2013. Such SCSBs are required to ensure that for making Bid cum Applications on their own account using ASBA, they should have a separate account in their own name with any other SEBI registered SCSBs. Further, such account shall be used solely for the purpose of making Bid cum application in public Offers and clear demarcated funds should be available in such account for such Bid cum applications.

ISSUANCE OF A CONFIRMATION NOTE ("CAN") AND ALLOTMENT IN THE OFFER:

1. Upon approval of the basis of allotment by the Designated Stock Exchange, the BRLM or Registrar to the Offer shall send to the SCSBs a list of their Bidders who have been allocated Equity Shares in the Offer.
2. The Registrar will then dispatch a CAN to their Bidders who have been allocated Equity Shares in the Offer. The dispatch of a CAN shall be deemed a valid, binding and irrevocable contract for the Bidder

Offer Procedure for Application Supported by Blocked Account (ASBA) Bidders

In accordance with the SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 all the Bidders have to compulsorily apply through the ASBA Process. Our Company and the Book Running Lead Manager are not liable for any amendments, modifications, or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus. ASBA Bidders are advised to make their independent investigations and to ensure that the ASBA Bid Cum Application Form is correctly filled up, as described in this section.

The lists of banks that have been notified by SEBI to act as SCSB (Self Certified Syndicate Banks) for the ASBA Process are provided on <https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognised=yes>. For details on designated branches of SCSB collecting the Bid Cum Application Form, please refer the above-mentioned SEBI link.

Terms of payment

The entire Offer price of ₹[●] per share is payable on application. In case of allotment of lesser number of Equity Shares than the number applied, the Registrar shall instruct the SCSBs to unblock the excess amount paid on Application to the Bidders.

SCSBs will transfer the amount as per the instruction of the Registrar to the Public Offer Account, the balance amount after transfer will be unblocked by the SCSBs.

The Bidders should note that the arrangement with Bankers to the Offer or the Registrar is not prescribed by SEBI and has been established as an arrangement between our Company, Banker to the Offer and the Registrar to the Offer to facilitate collections from the Bidders.

Payment mechanism

The Bidders shall specify the bank account number in their Bid Cum Application Form and the SCSBs shall block an amount equivalent to the Application Amount in the bank account specified in the Bid Cum Application Form. The SCSB shall keep the Application Amount in the relevant bank account blocked until rejection of the Application or receipt of instructions from the Registrar to unblock the Application Amount. However, none of the Bidders shall either withdraw or lower the size of their applications at any stage. In the event of rejection of the Bid Cum Application Form or for unsuccessful Bid Cum Application Forms, the Registrar to the Offer shall give instructions to the SCSBs to unblock the application money in the relevant bank account within one day of receipt of such instruction. The Application Amount shall remain blocked in the ASBA Account until finalization of the Basis of Allotment in the Offer and consequent transfer of the Application Amount to the Public Offer Account, or until withdrawal/ failure of the Offer or until rejection of the Application by the ASBA Bidder, as the case may be.

Please note that, in terms of SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 and the SEBI (Offer of Capital and Disclosure Requirements) Regulations, 2018, all the investors applying in a public Offer shall use only Application Supported by Blocked Amount (ASBA) process for application providing details of the bank account which will be blocked by the Self-Certified Syndicate Banks (SCSBs) for the same. Further, pursuant to SEBI Circular No. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 01, 2018, Individual Investors applying in public Offer have to use UPI as a payment mechanism with Application Supported by Blocked Amount for making application.

Payment into Escrow Account for Anchor Investors

All the investors other than Anchor Investors are required to bid through ASBA Mode. Anchor Investors are requested to note the following:

Our Company in consultation with the Book Running Lead Manager, in its absolute discretion, will decide the list of Anchor Investors to whom the CAN will be sent, pursuant to which the details of the Equity Shares allocated to them in their respective names will be notified to such Anchor Investors. For Anchor Investors, the payment instruments for payment into the Escrow Account should be drawn in favour of:

- a. In case of resident Anchor Investors: **“RAKSAN TRANSFORMERS LIMITED-ANCHOR INVESTOR-R”**
- b. In case of Non-Resident Anchor Investors: **“RAKSAN TRANSFORMERS LIMITED-ANCHOR INVESTOR-NR”**

Bidders should note that the escrow mechanism is not prescribed by SEBI and has been established as an arrangement between our Company, the Syndicate, the Escrow Collection Bank and the Registrar to the Offer to facilitate collections from the Anchor Investors.

In case no corresponding record is available with Depositories, which matches the three parameters, namely DP ID, Client ID and PAN, then such applications are liable to be rejected.
14. The SCSBs send confirmation of Funds blocked (Final certificate) to the Registrar to the Offer.
15. The details uploaded in the online IPO system shall be considered as final and Allotment will be based on such details for applications.

Build of the Book

- a) Bids received from various Bidders through the Designated Intermediaries may be electronically uploaded on the Bidding Platform of the Stock Exchange on a regular basis. The book gets built up at various price levels. This information may be available with the BRLM at the end of the Bid/ Offer Period.
- b) Based on the aggregate demand and price for Bids registered on the Stock Exchange Platform, a graphical representation of consolidated demand and price as available on the websites of the Stock Exchange may be made available at the Bidding centres during the Bid/ Offer Period.

Withdrawal of Bids

None of the bidders can withdraw their Bids or lower the size of their Bids at any stage.

Price Discovery and Allocation

- a) Based on the demand generated at various price levels, our Company in consultation with the BRLM, shall finalise the Offer Price and the Anchor Investor Offer Price.
- b) The SEBI ICDR Regulations, 2018 specify the allocation or Allotment that may be made to various categories of Bidders in an Offer depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Offer size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the RHP. For details in relation to allocation, the Bidder may refer to the RHP.
- c) Under-subscription in any category (except QIB Category) is allowed to be met with spillover from any other category or combination of categories at the discretion of the Issuer and in consultation with the BRLM and the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations. Unsubscribed portion in QIB Category is not available for subscription to other categories.
- d) In case of under subscription in the Offer, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Offer. For allocation in the event of an undersubscription applicable to the Issuer, Bidders may refer to the RHP.
- e) In case if the Individual Investor category is entitled to more than the allocated portion on proportionate basis, the category shall be allotted that higher percentage.
- f) Allocation to Anchor Investors shall be at the discretion of our Company and in consultation with the BRLM, subject to compliance with the SEBI Regulations.

Illustration of the Book Building and Price Discovery Process: Bidders should note that this example is solely for illustrative purposes and is not specific to the Offer; it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For

instance, assume a Price Band of ₹20 to ₹24 per share, offer size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Offer the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹22.00 in the above example. The Issuer, in consultation with the BRLM, may finalise the Offer Price at or below such Cut-Off Price, i.e., at or below ₹22.00.

ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT

The Allotment of Equity Shares to Bidders other than Individual Investors, who applies for minimum application size, non-institutional investors and Anchor Investors may be on proportionate basis. For Basis of Allotment to Anchor Investors, Bidders may refer to Red Herring Prospectus. No Individual Investor will be allotted less than the minimum Bid Lot subject to availability of shares in Individual Investor Category and the remaining available shares, if any will be allotted on a proportionate basis. The Issuer is required to receive a minimum subscription of 90% of the Offer.

If the issuer does not receive the minimum subscription of ninety per cent. of the offer through offer document (except in case of an offer for sale of specified securities) on the date of closure of the Offer, or if the subscription level falls below ninety per cent. after the closure of Offer after technical rejections, or if the listing or trading permission is not obtained from the stock exchanges for the securities so offered under the offer document, the issuer shall forthwith refund the entire subscription amount received. If there is a delay beyond fifteen days after the issuer becomes liable to pay the amount, the issuer and every director of the issuer who are officers in default, shall pay interest at the rate of fifteen per cent. per annum.

BASIS OF ALLOTMENT

a. For Individual Bidders

Bids received from the Individual Bidders at or above the Offer Price shall be grouped together to determine the total demand under this category. The Allotment to all the successful Individual Bidders will be made at the Offer Price.

The Offer size less Allotment to Non-Institutional and QIB Bidders shall be available for Allotment to Individual Bidders who have Bid in the Issue at a price that is equal to or greater than the Offer Price. If the aggregate demand in this category is less than or equal to [●] Equity Shares at or above the Offer Price, full Allotment shall be made to the Individual Bidders to the extent of their valid Bids.

If the aggregate demand in this category is greater than [●] Equity Shares of face value of ₹10/- each at or above the Offer Price, the Allotment shall be made by draw of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares allocated. In the event of the Offer being over-subscribed, the Issuer may finalise the Basis of Allotment in consultation with the BSE SME (The Designated Stock Exchange). The allocation may be made in marketable lots on proportionate basis as set forth hereunder:

- a) The number of Shares to be allocated to the successful Bidders will be arrived in that category multiplied by the inverse of the oversubscription ratio (number of Bidders in the category multiplied by number of Shares applied for).

- b) The successful Bidder out of the total bidders for that category shall be determined by draw of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares allocated.
- c) Each successful Bidder shall be allotted [●] equity shares

b. For Non-Institutional Bidders

Bids received from Non-Institutional Bidders at or above the Issue Price shall be grouped together to determine the total demand under this category. The Allotment to all successful Non- Institutional Bidders will be made at the Issue Price. The allotment of specified securities to each non-institutional investor shall not be less than the minimum application size in the non-institutional investor category, and the remaining shares, if any, shall be allotted on proportionate basis.

The Issue size less Allotment to QIBs and Individual Investors shall be available for Allotment to Non- Institutional Bidders who have Bid in the Issue at a price that is equal to or greater than the Issue Price. If the aggregate demand in this category is less than or equal to [●] Equity Shares of face value of ₹10/- each at or above the Issue Price, full Allotment shall be made to Non-Institutional Bidders to the extent of their demand.

In case the aggregate demand in this category is greater than [●] Equity Shares of face value of ₹10/- each at or above the Issue Price, Allotment shall be made on a proportionate basis up to a minimum of [●] Equity Shares of face value of ₹10/- each and in multiples of [●] Equity Shares of face value of ₹10/- each thereafter. The allocation may be made in marketable lots on proportionate basis as set forth hereunder:

- a. The number of Equity Shares to be allocated to the successful Bidders in a particular category shall be determined.
- b. The successful Bidders, from amongst all valid Bidders in that category, shall be determined by a draw of lots, such that the total number of Equity Shares allotted in that category equals the number of Equity Shares allocated.
- c. If the proportionate allotment to any Bidder results in a number that is not a multiple of [●] Equity Shares of face value ₹10/- each, the number of Equity Shares allotted shall be rounded off to the nearest multiple of [●] Equity Shares of face value ₹10/- each, subject to a minimum allotment of [●] Equity Shares of face value ₹10/- each.

If as a result of the process of rounding off to the nearest multiple of [●] Equity Shares of face value of ₹10/- each, results in the actual allotment being higher than the shares Issued, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the Issue specified under the Capital Structure mentioned in this Red Herring Prospectus.

c. For QIBs

For the Basis of Allotment to Anchor Investors, Bidders/Applicants may refer to the SEBI ICDR Regulations or RHP / Prospectus. Bids received from QIBs Bidding in the QIB Category (net of Anchor Portion) at or above the Offer Price may be grouped together to determine the total demand under this category. The QIB Category may be available for Allotment to QIBs who have Bid at a price that is equal to or greater than the Offer Price. Allotment may be undertaken in the following manner:

- a) In the first instance allocation to Mutual Funds for [●]% of the QIB Portion shall be determined as follows:
 - In the event that Bids by Mutual Fund exceeds [●]% of the QIB Portion, allocation to Mutual Funds shall be done on a proportionate basis for [●]% of the QIB Portion.
 - In the event that the aggregate demand from Mutual Funds is less than [●]% of the QIB Portion then all Mutual Funds shall get full Allotment to the extent of valid Bids received above the Offer Price.
 - Equity Shares remaining unsubscribed, if any, not allocated to Mutual Funds shall be available for Allotment to all QIB Bidders as set out in (b) below;
- b) In the second instance Allotment to all QIBs shall be determined as follows:
 - In the event that the oversubscription in the QIB Portion, all QIB Bidders who have submitted Bids above the Offer Price shall be allotted Equity Shares on a proportionate basis, upto a minimum of [●] Equity Shares of face value of ₹10/- each and in multiples of [●] Equity Shares of face value of ₹10/- each thereafter for [●]% of the QIB Portion.
 - Mutual Funds, who have received allocation as per (a) above, for less than the number of Equity Shares Bid for by them, are eligible to receive Equity Shares on a proportionate basis, upto a minimum of [●] Equity Shares of face value of ₹10/- each and in multiples

of [●] Equity Shares of face value of ₹10/- each thereafter, along with other QIB Bidders.

- Under-subscription below [●]% of the QIB Portion, if any, from Mutual Funds, would be included for allocation to the remaining QIB Bidders on a proportionate basis. The aggregate Allotment to QIB Bidders shall not be more than [●] Equity Shares of face value of ₹10/- each.

d. ALLOTMENT TO ANCHOR INVESTOR (IF APPLICABLE)

- a) Allocation of Equity Shares to Anchor Investors at the Anchor Investor Allocation Price will be at the discretion of the Issuer, in consultation with the BRLM, subject to compliance with the following requirements:

- i) not more than 60% of the QIB Portion will be allocated to Anchor Investors;
- ii) 40% of the Anchor Investor Portion shall be reserved for, (i) 33.33% shall be available for allocation to domestic Mutual Funds, and (ii) 6.67% for life insurance companies and pension funds, subject to valid Bids being received from domestic Mutual Funds, life insurance companies and pension funds at or above the Anchor Investor Allocation Price. In the event of under-subscription in (ii) above, the allocation may be made to domestic Mutual Funds in accordance with the SEBI ICDR Regulations.; and
- iii) allocation to Anchor Investors shall be on a discretionary basis and subject to:
 - a maximum number of two Anchor Investors for allocation up to ₹2 crores; a minimum number of two Anchor Investors and maximum number of 15 Anchor Investors for allocation of more than ₹2 crores and up to ₹25 crores subject to minimum allotment of ₹1 crore per such Anchor Investor; and
 - in case of allocation above twenty-five crore rupees; a minimum of 5 such investors and a maximum of 15 such investors for allocation up to twenty-five crore rupees and an additional 10 such investors for every additional twenty-five crore rupees or part thereof, shall be permitted, subject to a minimum allotment of one crore rupees per such investor.

- b) A physical book is prepared by the Registrar on the basis of the Anchor Investor Application Forms received from Anchor Investors. Based on the physical book and at the discretion of the Issuer, in consultation with the BRLM, selected Anchor Investors will be sent a CAN and if required, a revised CAN.

c) In the event that the Offer Price is higher than the Anchor Investor Allocation Price:

Anchor Investors will be sent a revised CAN within one day of the Pricing Date indicating the number of Equity Shares allocated to such Anchor Investor and the pay-in date for payment of the balance amount. Anchor Investors are then required to pay any additional amounts, being the difference between the Offer Price and the Anchor Investor Allocation Price, as indicated in the revised CAN within the pay-in date referred to in the revised CAN. Thereafter, the Allotment Advice will be issued to such Anchor Investors

d) In the event the Offer Price is lower than the Anchor Investor Allocation Price:

Anchor Investors who have been Allotted Equity Shares will directly receive Allotment Advice.

Individual Investor' means an investor who applies for minimum two lots. Investors may note that in case of over subscription allotment shall be on proportionate basis and will be finalized in consultation with BSE.

The Executive Director/ Managing Director of BSE - the Designated Stock Exchange in addition to Book Running Lead Manager and Registrar to the Public Offer shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI (ICDR) Regulations.

Flow of Events from the closure of Bidding period (T DAY) Till Allotment:

- On T Day, RTA to validate the electronic bid details with the depository records and also reconcile the final certificates received from the Sponsor Bank for UPI process and the SCSBs for ASBA and Syndicate ASBA process with the electronic bid details.
- RTA identifies cases with mismatch of account number as per bid file / FC and as per applicant's bank account linked to depository demat account and seek clarification from SCSB to identify the applications with third party account for rejection.

- Third party confirmation of applications to be completed by SCSBs on T+1 day.
- RTA prepares the list of final rejections and circulate the rejections list with BRLM(s)/ Company for their review/ comments.
- Post rejection, the RTA submits the basis of allotment with the Designated Stock Exchange (DSE).
- The DSE, post verification approves the basis and generates drawl of lots wherever applicable, through a random number generation software.
- The RTA uploads the drawl numbers in their system and generates the final list of allottees as per process mentioned below:

Process for generating list of allottees: -

- Instruction is given by RTA in their Software System to reverse category wise all the application numbers in the ascending order and generate the bucket /batch as per the allotment ratio. For example, if the application number is 78654321 then system reverses it to 12345687 and if the ratio of allottees to applicants in a category is 2:7 then the system will create lots of 7. If the drawl of lots provided by DSE is 3 and 5 then the system will pick every 3rd and 5th application in each of the lot of the category and these applications will be allotted the shares in that category.
- In categories where there is proportionate allotment, the Registrar will prepare the proportionate working based on the oversubscription times.
- In categories where there is undersubscription, the Registrar will do full allotment for all valid applications.

On the basis of the above, the RTA will work out the allottees, partial allottees and non- allottees, prepare the fund transfer letters and advice the SCSBs to debit or unblock the respective accounts.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

The Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (“**DPIIT**”) makes policy announcements on FDI through press notes and press releases which are notified by the RBI as amendments to the FEMA. The DPIIT also issues the Consolidated Foreign Direct Investment Policy (“**FDI Policy**”) from time to time. The regulatory framework pertaining to foreign investment, over a period of time, thus, consists of acts, regulations, master circulars, press notes, press releases, and clarifications among other amendments.

India’s current FDI Policy issued by the DPIIT with effect from October 15, 2020, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT till October 15, 2020. All the press notes, press releases, clarifications on FDI issued by DPIIT till October 15, 2020 stand rescinded as on October 15, 2020. In terms of the FDI Policy, Foreign investment is permitted (except in the prohibited sectors) in Indian companies either through the automatic route or the Government route, depending upon the sector in which foreign investment is sought to be made. In terms of the FDI Policy, the work of granting government approval for foreign investment under the FDI Policy and FEMA Regulations has now been entrusted to the concerned Administrative Ministries/Departments.

In accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country, will require prior approval of the Government, as prescribed in the FDI Policy and the Foreign Exchange Management (Non-debt Instruments) Rules, 2019. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020 issued on December 8, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank or fund in India.

Further, the existing individual and aggregate investment limits for an FPI in our Company are not exceeding 10% of the total paid-up Equity Share capital of our Company for each FPI and the total holdings of all FPIs in the Company shall not exceed 24% of the total paid-up Equity Share capital of our Company. The RBI, in exercise of its power under the FEMA, has also notified Foreign Exchange Management (Non-debt Instruments) Rules, 2019 (“**Rules**”) and Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 to prohibit, restrict or regulate, transfer by or issue security to a person resident outside India. SEBI registered FPIs have been permitted to purchase shares of an Indian company through the Issue, subject to total FPI investment being within the individual FPI/sub account investment limit of less than 10% of the total paid-up equity capital on a fully diluted basis of the Company subject to the total holdings of all FPIs/sub accounts including any other direct and indirect foreign investments in the Company shall not exceed 24% of the paid-up equity capital of the Company on a fully diluted basis. The aggregate limit of 24% in case of FPIs may be increased up to the sectoral cap/statutory ceiling, as applicable, by the Company concerned by passing of resolution by the Board of the Company to that effect and by passing of a special resolution to that effect by its Shareholders. With effect from April 1, 2020, the aggregate limit of 24% has increased to the sectoral cap applicable to the Indian Company which in case of the Company is 100% provided that the Company complies with conditions provided under the FDI Policy. As per the Rules, the aggregate limit as provided above was permitted to be decreased by the Company to a lower threshold limit of 24% or 49% or 74% as deemed fit, with the approval of its Board of Directors through a resolution and also of its shareholders by means of a special resolution, before March 31, 2020. The Company has passed no such Board Resolution and hence, has not revised its sectoral caps. Further, eligible NRIs and OCIs investing on repatriation basis are subject to individual investment limit of 5% of the total paid-up equity capital on a fully diluted basis subject to the aggregate paid-value of the shares purchased by all NRIs and OCIs put together on repatriation basis not exceeding 10% of the total paid-up equity capital on a fully diluted basis of the Company. The aggregate limit of 10% in case of NRIs and OCIs together may be raised to 24 % if a special resolution to that effect is passed by the shareholders of the Company. The Company has not passed such resolutions as yet.

The transfer of shares between an Indian resident and a Non-resident does not require prior approval of RBI, subject to fulfillment of certain conditions as specified by DPIIT / RBI, from time to time. Such conditions include (i) the activities of the investee company are under the automatic route under the FDI Policy and transfer does not attract the provisions of the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI. Investors are advised to refer to the exact text of the relevant statutory provisions of law before investing and / or subsequent purchase or sale transaction in the Equity Shares of our Company.

As per the existing policy of the Government of India, OCBs cannot participate in this Offer.

As per the FDI Policy, FDI in companies engaged in manufacturing sector is permitted up to 100% of the paid-up share capital of such company under the automatic route.

For further details, see “***Offer Procedure***” on page 268. Each Bidder should seek independent legal advice about its ability to participate in the Offer. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar in writing about such approval along with a copy thereof within the Bid/Offer Period.

The Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the “U.S. Securities Act”), or the securities laws of any state of the United States and may not be offered or sold within the United States, except pursuant to exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws. Accordingly, the Equity Shares are being offered and sold only outside the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sale occur. The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

SECTION VIII - MAIN PROVISIONS OF THE ARTICLES OF ASSOCIATION OF OUR COMPANY

Pursuant to Schedule I of the Companies Act, and the SEBI (ICDR) Regulations, the main provisions of the Articles of Association relating to voting rights, dividend, lien, forfeiture, restrictions on transfer and Transmission of equity shares or debentures, their consolidation or splitting are as provided below. Each provision below is numbered as per the corresponding article number in the articles of association and defined terms herein have the meaning given to them in the Articles of Association.

The following regulations comprised in the Articles of Association were adopted pursuant to the member's special resolution passed at the Extra Ordinary General Meeting held on July 29, 2025. In substitution for, and to the entire exclusion of, the earlier regulation comprised in the extant Articles of Association of the Company.

Subject to as herein after provided the regulations contained in Table "F" of Schedule I to the companies Act, 2013, shall apply to the company in so far as they may be applicable to the company in so far as they may be applicable to a Public Company.

Interpretation

I. (1) In these regulations—

(a) "the Act" means the Companies Act, 2013,

(b) "the seal" means the common seal of the company.

(c) "Company" is a Public Limited Company within the meaning of Section 2(71) of the Companies Act, 2013.

(2) Unless the context otherwise requires, words or expressions contained in these regulations shall bear the same meaning as in the Act or any statutory modification thereof in force at the date at which these regulations become binding on the company.

Share capital and variation of rights

II. 1. Subject to the provisions of the Act and these Articles, the shares in the capital of the company shall be under the control of the Directors who may issue, allot or otherwise dispose of the same or any of them to such persons, in such proportion and on such terms and conditions and either at a premium or at par and at such time as they may from time to time think fit.

2. (i) Every person whose name is entered as a member in the register of members shall be entitled to receive within two months after incorporation, in case of subscribers to the memorandum or after allotment or within one month after the application for the registration of transfer or transmission or within such other period as the conditions of issue shall be provided, —

(a) one certificate for all his shares without payment of any charges; or

(b) Several certificates, each for one or more of his shares, upon payment of twenty rupees for each certificate after the first.

(ii) Every certificate shall specify the shares to which it relates and the amount paid-up thereon and shall be signed by two directors or by a director and the company secretary, wherever the Company has appointed a company secretary.

Provided that in case the company has a common seal, it shall be affixed in the presence of the persons required to sign the certificate.

(iii) In respect of any share or shares held jointly by several persons, the company shall not be bound to issue more than one certificate, and delivery of a certificate for a share to one of several joint holders shall be sufficient delivery to all such holders.

3. (i) If any share certificate be worn out, defaced, mutilated or torn or if there be no further space on the back for endorsement of transfer, then upon production and surrender thereof to the company, a new certificate may be issued in lieu thereof, and if any certificate is lost or destroyed then upon proof thereof to the satisfaction of the company and on execution of such indemnity as the company deem adequate, a new certificate in lieu thereof shall be given. Every certificate under this Article shall be issued on payment of twenty rupees for each certificate.

(ii) The provisions of Articles (2) and (3) shall mutatis mutandis apply to debentures of the company.

4. Except as required by law, no person shall be recognised by the company as holding any share upon any trust, and the company shall not be bound by, or be compelled in any way to recognise (even when having notice thereof) any equitable, contingent, future or partial interest in any share, or any interest in any fractional part of a share, or (except only as by these regulations or by law otherwise provided) any other rights in respect of any share except an absolute right to the entirety thereof in the registered holder.

5. (i) The company may exercise the powers of paying commissions conferred by sub-section (6) of section 40, provided that the rate per cent. or the amount of the commission paid or agreed to be paid shall be disclosed in the manner required by that section and rules made thereunder.

(ii) The rate or amount of the commission shall not exceed the rate or amount prescribed in rules made under sub-section (6) of section 40.

(iii) The commission may be satisfied by the payment of cash or the allotment of fully or partly paid shares or partly in the one way and partly in the other.

6. (i) If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class) may, subject to the provisions of section 48, and whether or not the company is being wound up, be varied with the consent in writing of the holders of three-fourths of the issued shares of that class, or with the sanction of a special resolution passed at a separate meeting of the holders of the shares of that class.

(ii) To every such separate meeting, the provisions of these regulations relating to general meetings shall mutatis mutandis apply, but so that the necessary quorum shall be at least two persons holding at least one-third of the issued shares of the class in question.

7. The rights conferred upon the holders of the shares of any class issued with preferred or other rights shall not, unless otherwise expressly provided by the terms of issue of the shares of that class, be deemed to be varied by the creation or issue of further shares ranking *Pari-passu* therewith.

8. Subject to the provisions of section 55, any preference shares may, with the sanction of an ordinary resolution, be issued on the terms that they are to be redeemed on such terms and in such manner as the company before the issue of the shares may, by special resolution, determine.

Further Issue of Shares

8A. The Company may, subject to the provisions contained in Section 62 of the Act and these Articles, issue shares or other securities on a preferential basis to any person and also undertake private placement of shares or securities, subject to the provisions contained in Section 42 of the Act and these Articles.

Lien

9. (i) The company shall have a first and paramount lien—

(a) on every share (not being a fully paid share), for all monies (whether presently payable or not) called, or payable at a fixed time, in respect of that share; and

(b) on all shares (not being fully paid shares) standing registered in the name of a single person, for all monies presently payable by him or his estate to the company;

Provided that the Board of directors may at any time declare any share to be wholly or in part exempt from the provisions of this clause.

(ii) The company's lien, if any, on a share shall extend to all dividends payable and bonuses declared from time to time in respect of such shares.

(iii) That fully paid-up shares shall be free from all lien and that in the case of partly paid shares the Officer's lien shall be restricted to monies called or payable at a fixed time in respect of such shares.

10. The company may sell, in such manner as the Board thinks fit, any shares on which the company has a lien:
Provided that no sale shall be made—

(a) unless a sum in respect of which the lien exists is presently payable; or

(b) until the expiration of fourteen days after a notice in writing stating and demanding payment of such part of the amount in respect of which the lien exists as is presently payable, has been given to the registered holder for the time being of the share or the person entitled thereto by reason of his death or insolvency.

11. (i) To give effect to any such sale, the Board may authorise some person to transfer the shares sold to the purchaser thereof.

(ii) The purchaser shall be registered as the holder of the shares comprised in any such transfer.

(iii) The purchaser shall not be bound to see to the application of the purchase money, nor shall his title to the shares be affected by any irregularity or invalidity in the proceedings in reference to the sale.

12. (i) The proceeds of the sale shall be received by the company and applied in payment of such part of the amount in respect of which the lien exists as is presently payable.

(ii) The residue, if any, shall, subject to a like lien for sums not presently payable as existed upon the shares before the sale, be paid to the person entitled to the shares at the date of the sale.

Calls on shares

- b. (i) The Board may, from time to time, make calls upon the members in respect of any monies unpaid on their shares (whether on account of the nominal value of the shares or by way of premium) and not by the conditions of allotment thereof made payable at fixed times:

Provided that no call shall exceed one-fourth of the nominal value of the share or be payable at less than one month from the date fixed for the payment of the last preceding call.

- c. Each member shall, subject to receiving at least fourteen days' notice specifying the time or times and place of payment, pay to the company, at the time or times and place so specified, the amount called on his shares.
- d. A call may be revoked or postponed at the discretion of the Board.

(iv) That any amount paid up in advance of calls on any share may carry interest but shall not in respect thereof confer a right to dividend or to participate in profits.

14. A call shall be deemed to have been made at the time when the resolution of the Board authorising the call was passed and may be required to be paid by instalments.

15. The joint holders of a share shall be jointly and severally liable to pay all calls in respect thereof.

16. (i) If a sum called in respect of a share is not paid before or on the day appointed for payment thereof, the person from whom the sum is due shall pay interest thereon from the day appointed for payment thereof to the time of actual payment at ten per cent. Per annum or at such lower rate, if any, as the Board may determine.

(ii) The Board shall be at liberty to waive payment of any such interest wholly or in part.

- e. (i) Any sum which by the terms of issue of a share becomes payable on allotment or at any fixed date, whether on account of the nominal value of the share or by way of premium, shall, for the purposes of these regulations, be deemed to be a call duly made and payable on the date on which by the terms of issue such sum becomes payable.

(ii) In case of non-payment of such sum, all the relevant provisions of these regulations as to payment of interest and expenses, forfeiture or otherwise shall apply as if such sum had become payable by virtue of a call duly made and notified.

18. The Board—

(a) may, if it thinks fit, receive from any member willing to advance the same, all or any part of the monies uncalled and unpaid upon any shares held by him; and

(b) upon all or any of the monies so advanced, may (until the same would, but for such advance, become presently payable) pay interest at such rate not exceeding, unless the company in general meeting shall otherwise direct, twelve per cent. Per annum, as may be agreed upon between the Board and the member paying the sum in advance.

Transfer of shares

19. (i) The instrument of transfer of any share in the company shall be executed by or on behalf of both the transferor and transferee.

(ii) The transferor shall be deemed to remain a holder of the share until the name of the transferee is entered in the register of members in respect thereof.

(iii) That a common form of transfer shall be used

20. The Board may, subject to the right of appeal conferred by section 58 decline to register—

(a) the transfer of a share, not being a fully paid share, to a person of whom they do not approve;

or

(b) any transfer of shares on which the company has a lien.

21. The Board may decline to recognise any instrument of transfer unless—

(a) the instrument of transfer is in the form as prescribed in rules made under sub-section (1) of section 56;

(b) the instrument of transfer is accompanied by the certificate of the shares to which it relates, and such other evidence as the Board may reasonably require to show the right of the transferor to make the transfer; and

(c) the instrument of transfer is in respect of only one class of shares.

That registration of transfer shall not be refused on the ground of the transferor being either alone or jointly with any other person or person's indebted to the Issuer on any account whatsoever

22. On giving not less than seven days' previous notice in accordance with section 91 and rules made thereunder, the registration of transfers may be suspended at such times and for such periods as the Board may from time to time determine:

Provided that such registration shall not be suspended for more than thirty days at any one time or for more than forty-five days in the aggregate in any year.

Transmission of shares

23. (i) On the death of a member, the survivor or survivors where the member was a joint holder, and his nominee or nominees or legal representatives where he was a sole holder, shall be the only persons recognised by the company as having any title to his interest in the shares.

(ii) Nothing in clause (i) shall release the estate of a deceased joint holder from any liability in respect of any share which had been jointly held by him with other persons.

(iii) That a common form of transmission shall be used

24. (i) Any person becoming entitled to a share in consequence of the death or insolvency of a member may, upon such evidence being produced as may from time to time properly be required by the Board and subject as hereinafter provided, elect, either—

(a) to be registered himself as holder of the share; or

(b) to make such transfer of the share as the deceased or insolvent member could have made.

(ii) The Board shall, in either case, have the same right to decline or suspend registration as it would have had, if the deceased or insolvent member had transferred the share before his death or insolvency.

27. (i) If the person so becoming entitled shall elect to be registered as holder of the share himself, he shall deliver or send to the company a notice in writing signed by him stating that he so elects.

(ii) If the person aforesaid shall elect to transfer the share, he shall testify his election by executing a transfer of the share.

(iii) All the limitations, restrictions and provisions of these regulations relating to the right to transfer and the registration of transfers of shares shall be applicable to any such notice or transfer as aforesaid as if the death or insolvency of the member had not occurred and the notice or transfer were a transfer signed by that member.

28. A person becoming entitled to a share by reason of the death or insolvency of the holder shall be entitled to the same dividends and other advantages to which he would be entitled if he were the registered holder of the share, except that he shall not, before being registered as a member in respect of the share, be entitled in respect of it to exercise any right conferred by membership in relation to meetings of the company:

Provided that the Board may, at any time, give notice requiring any such person to elect either to be registered himself or to transfer the share, and if the notice is not complied with within ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other monies payable in respect of the share, until the requirements of the notice have been complied with.

Forfeiture of shares

27. If a member fails to pay any call, or instalment of a call, on the day appointed for payment thereof, the Board may, at any time thereafter during such time as any part of the call or instalment remains unpaid, serve a notice on him requiring payment of so much of the call or instalment as is unpaid, together with any interest which may have accrued.

28. The notice aforesaid shall—

(a) name a further day (not being earlier than the expiry of fourteen days from the date of service of the notice) on or before which the payment required by the notice is to be made; and

(b) state that, in the event of non-payment on or before the day so named, the shares in respect of which the call was made shall be liable to be forfeited.

29. If the requirements of any such notice as aforesaid are not complied with, any share in respect of which the notice has been given may, at any time thereafter, before the payment required by the notice has been made, be forfeited by a resolution of the Board to that effect.

30. (i) A forfeited share may be sold or otherwise disposed of on such terms and in such manner as the Board thinks fit.

(ii) At any time before a sale or disposal as aforesaid, the Board may cancel the forfeiture on such terms as it thinks fit.

31. (i) A person whose shares have been forfeited shall cease to be a member in respect of the forfeited shares, but shall, notwithstanding the forfeiture, remain liable to pay to the company all monies which, at the date of forfeiture, were presently payable by him to the company in respect of the shares.

(ii) The liability of such person shall cease if and when the company shall have received payment in full of all such monies in respect of the shares.

32. (i) A duly verified declaration in writing that the declarant is a director, the manager or the secretary, of the company, and that a share in the company has been duly forfeited on a date stated in the declaration, shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the share;

(ii) The company may receive the consideration, if any, given for the share on any sale or disposal thereof and may execute a transfer of the share in favour of the person to whom the share is sold or disposed of;

(iii) The transferee shall thereupon be registered as the holder of the share; and

(iv) The transferee shall not be bound to see to the application of the purchase money, if any, nor shall his title to the share be affected by any irregularity or invalidity in the proceedings in reference to the forfeiture, sale or disposal of the share.

33. The provisions of these regulations as to forfeiture shall apply in the case of non-payment of any sum which, by the terms of issue of a share, becomes payable at a fixed time, whether on account of the nominal value of the share or by way of premium, as if the same had been payable by virtue of a call duly made and notified.

Alteration of capital

34. The company may, from time to time, by ordinary resolution increase the share capital by such sum, to be divided into shares of such amount, as may be specified in the resolution.

35. Subject to the provisions of section 61, the company may, by ordinary resolution, —

(a) consolidate and divide all or any of its share capital into shares of larger amount than its existing shares;

(b) convert all or any of its fully paid-up shares into stock, and reconvert that stock into fully paid-up shares of any denomination;

© sub-divide its existing shares or any of them into shares of smaller amount than is fixed by the memorandum;

(d) cancel any shares which, at the date of the passing of the resolution, have not been taken or agreed to be taken by any person.

© Permission of Sub-division/consolidation of share certificates

36. Where shares are converted into stock, —

(a) the holders of stock may transfer the same or any part thereof in the same manner as, and subject to the same regulations under which, the shares from which the stock arose might before the conversion have been transferred, or as near thereto as circumstances admit;

Provided that the Board may, from time to time, fix the minimum amount of stock transferable, so, however, that such minimum shall not exceed the nominal amount of the shares from which the stock arose.

(b) the holders of stock shall, according to the amount of stock held by them, have the same rights, privileges and advantages as regards dividends, voting at meetings of the company, and other matters, as if they held the shares from which the stock arose; but no such privilege or advantage (except participation in the dividends and profits of the company and in the assets on winding up) shall be conferred by an amount of stock which would not, if existing in shares, have conferred that privilege or advantage.

© such of the regulations of the company as are applicable to paid-up shares shall apply to stock and the words "share" and "shareholder" in those regulations shall include "stock" and "stock-holder" respectively.

37. The company may, by special resolution, reduce in any manner and with, and subject to, any incident authorised and consent required by law, —

(a) its share capital;

(b) any capital redemption reserve account; or

© any share premium account.

Capitalisation of profits

38. (i) The company in general meeting may, upon the recommendation of the Board, resolve—

(a) that it is desirable to capitalise any part of the amount for the time being standing to the credit of any of the company's reserve accounts, or to the credit of the profit and loss account, or otherwise available for distribution; and

(b) that such sum be accordingly set free for distribution in the manner specified in clause (ii) amongst the members who would have been entitled thereto, if distributed by way of dividend and in the same proportions.

(ii) The sum aforesaid shall not be paid in cash but shall be applied, subject to the provision contained in clause (iii), either in or towards—

(A) paying up any amounts for the time being unpaid on any shares held by such members respectively;

(B) paying up in full, unissued shares of the company to be allotted and distributed, credited as fully paid-up, to and amongst such members in the proportions aforesaid;

(C) partly in the way specified in sub-clause (A) and partly in that specified in sub-clause (B);

(D) A securities premium account and a capital redemption reserve account may, for the purposes of this regulation, be applied in the paying up of unissued shares to be issued to members of the company as fully paid bonus shares;

(E) The Board shall give effect to the resolution passed by the company in pursuance of this regulation.

39. (i) Whenever such a resolution as aforesaid shall have been passed, the Board shall—

(a) make all appropriations and applications of the undivided profits resolved to be capitalised thereby, and all allotments and issues of fully paid shares if any; and

(b) generally, do all acts and things required to give effect thereto.

(ii) The Board shall have power—

(a) to make such provisions, by the issue of fractional certificates or by payment in cash or otherwise as it thinks fit, for the case of shares becoming distributable in fractions; and

(b) to authorise any person to enter, on behalf of all the members entitled thereto, into an agreement with the company providing for the allotment to them respectively, credited as fully paid-up, of any further shares to which they may be entitled upon such capitalisation, or as the case may require, for the payment by the company on their behalf, by the application thereto of their respective proportions of profits resolved to be capitalised, of the amount or any part of the amounts remaining unpaid on their existing shares;

(iii) Any agreement made under such authority shall be effective and binding on such members.

Buy-back of shares

40. Notwithstanding anything contained in these articles but subject to the provisions of sections 68 to 70 and any other applicable provision of the Act or any other law for the time being in force, the company may purchase its own shares or other specified securities.

General meetings

41. All general meetings other than annual general meeting shall be called extraordinary general meeting.

42. (i) The Board may, whenever it thinks fit, call an extraordinary general meeting.

(ii) If at any time directors capable of acting who are sufficient in number to form a quorum are not within India, any director or any two members of the company may call an extraordinary general meeting in the same manner, as nearly as possible, as that in which such a meeting may be called by the Board.

Proceedings at general meetings

43. (i) No business shall be transacted at any general meeting unless a quorum of members is present at the time when the meeting proceeds to business.

(ii) Save as otherwise provided herein, the quorum for the general meetings shall be as provided in section 103.

44. The chairperson, if any, of the Board shall preside as Chairperson at every general meeting of the company.

45. If there is no such Chairperson, or if he is not present within fifteen minutes after the time appointed for holding the meeting, or is unwilling to act as chairperson of the meeting, the directors present shall elect one of their members to be Chairperson of the meeting.

46. If at any meeting no director is willing to act as Chairperson or if no director is present within fifteen minutes after the time appointed for holding the meeting, the members present shall choose one of their members to be Chairperson of the meeting.

Adjournment of meeting

47. (i) The Chairperson may, with the consent of any meeting at which a quorum is present, and shall, if so, directed by the meeting, adjourn the meeting from time to time and from place to place.

(ii) No business shall be transacted at any adjourned meeting other than the business left unfinished at the meeting from which the adjournment took place.

- (iv) When a meeting is adjourned for thirty days or more, notice of the adjourned meeting shall be given as in the case of an original meeting.
- (v) Save as aforesaid, and as provided in section 103 of the Act, it shall not be necessary to give any notice of an adjournment or of the business to be transacted at an adjourned meeting.

Voting rights

48. Subject to any rights or restrictions for the time being attached to any class or classes of shares, —

- (a) on a show of hands, every member present in person shall have one vote; and
- (b) on a poll, the voting rights of members shall be in proportion to his share in the paid-up equity share capital of the company.
- (c) That option or right to call of shares shall not be given to any person except with the sanction of the issuer in general meetings

49. A member may exercise his vote at a meeting by electronic means in accordance with section 108 and shall vote only once.

50. (i) In the case of joint holders, the vote of the senior who tenders a vote, whether in person or by proxy, shall be accepted to the exclusion of the votes of the other joint holders.

(ii) For this purpose, seniority shall be determined by the order in which the names stand in the register of members.

51. A member of unsound mind, or in respect of whom an order has been made by any court having jurisdiction in lunacy, may vote, whether on a show of hands or on a poll, by his committee or other legal guardian, and any such committee or guardian may, on a poll, vote by proxy.

52. Any business other than that upon which a poll has been demanded may be proceeded with, pending the taking of the poll.

53. No member shall be entitled to vote at any general meeting unless all calls or other sums presently payable by him in respect of shares in the company have been paid.

54. (i) No objection shall be raised to the qualification of any voter except at the meeting or adjourned meeting at which the vote objected to is given or tendered, and every vote not disallowed at such meeting shall be valid for all purposes.

(ii) Any such objection made in due time shall be referred to the Chairperson of the meeting, whose decision shall be final and conclusive.

Proxy

55. The instrument appointing a proxy and the power-of-attorney or other authority, if any, under which it is signed or a notarised copy of that power or authority, shall be deposited at the registered office of the company not less than 48 hours before the time for holding the meeting or adjourned meeting at which the person named in the instrument proposes to vote, or, in the case of a poll, not less than 24 hours before the time appointed for the taking of the poll; and in default the instrument of proxy shall not be treated as valid.

56. An instrument appointing a proxy shall be in the form as prescribed in the rules made under section 105.

57. A vote given in accordance with the terms of an instrument of proxy shall be valid, notwithstanding the previous death or insanity of the principal or the revocation of the proxy or of the authority under which the proxy was executed, or the transfer of the shares in respect of which the proxy is given:

Provided that no intimation in writing of such death, insanity, revocation or transfer shall have been received by the company at its office before the commencement of the meeting or adjourned meeting at which the proxy is used.

Board of Directors

58. The number of the directors and the names of the first directors shall be determined in writing by the subscribers of the memorandum or a majority of them. The names of the first directors of the company are as follows:

a). Mr. Rakesh Kanda

b). Mr. Sanjeev Kanda

59. (i) The remuneration of the directors shall, in so far as it consists of a monthly payment, be deemed to accrue from day-to-day.

(ii) In addition to the remuneration payable to them in pursuance of the Act, the directors may be paid all travelling, hotel and other expenses properly incurred by them—

(a) in attending and returning from meetings of the Board of Directors or any committee thereof or general meetings of the company; or

(b) in connection with the business of the company.

60. The Board may pay all expenses incurred in getting up and registering the company.

61. The company may exercise the powers conferred on it by section 88 with regard to the keeping of a foreign register; and the Board may (subject to the provisions of that section) make and vary such regulations as it may think fit respecting the keeping of any such register.

62. All cheques, promissory notes, drafts, hundis, bills of exchange and other negotiable instruments, and all receipts for monies paid to the company, shall be signed, drawn, accepted, endorsed, or otherwise executed, as the case may be, by such person and in such manner as the Board shall from time to time by resolution determine.

63. Every director present at any meeting of the Board or of a committee thereof shall sign his name in a book to be kept for that purpose.

64. (i) Subject to the provisions of section 149, the Board shall have power at any time, and from time to time, to appoint a person as an additional director, provided the number of the directors and additional directors together shall not at any time exceed the maximum strength fixed for the Board by the articles.

(ii) Such person shall hold office only up to the date of the next annual general meeting of the company but shall be eligible for appointment by the company as a director at that meeting subject to the provisions of the Act.

Proceedings of the Board

65. (i) The Board of Directors may meet for the conduct of business, adjourn and otherwise regulate its meetings, as it thinks fit.

(ii) A director may, and the manager or secretary on the requisition of a director shall, at any time, summon a meeting of the Board.

66. (i) Save as otherwise expressly provided in the Act, questions arising at any meeting of the Board shall be decided by a majority of votes.

(ii) In case of an equality of votes, the Chairperson of the Board, if any, shall have a second or casting vote.

67. The continuing directors may act notwithstanding any vacancy in the Board; but, if and so long as their number is reduced below the quorum fixed by the Act for a meeting of the Board, the continuing directors or director may act for the purpose of increasing the number of directors to that fixed for the quorum, or of summoning a general meeting of the company, but for no other purpose.

68. (i) The Board may elect a Chairperson of its meetings and determine the period for which he is to hold office.

(ii) If no such Chairperson is elected, or if at any meeting the Chairperson is not present within five minutes after the time appointed for holding the meeting, the directors present may choose one of their number to be Chairperson of the meeting.

69. (i) The Board may, subject to the provisions of the Act, delegate any of its powers to committees consisting of such member or members of its body as it thinks fit.

(ii) Any committee so formed shall, in the exercise of the powers so delegated, conform to any regulations that may be imposed on it by the Board.

70. (i) A committee may elect a Chairperson of its meetings.

(ii) If no such Chairperson is elected, or if at any meeting the Chairperson is not present within five minutes after the time appointed for holding the meeting, the members present may choose one of their members to be Chairperson of the meeting.

71. (i) A committee may meet and adjourn as it thinks fit.

(ii) Questions arising at any meeting of a committee shall be determined by a majority of votes of the members present, and in case of an equality of votes, the Chairperson shall have a second or casting vote.

72. All acts done in any meeting of the Board or of a committee thereof or by any person acting as a director, shall, notwithstanding that it may be afterwards discovered that there was some defect in the appointment of any one or more of such directors or of any person acting as aforesaid, or that they or any of them were disqualified, be as valid as if every such director or such person had been duly appointed and was qualified to be a director.

73. Save as otherwise expressly provided in the Act, a resolution in writing, signed by all the members of the Board or of a committee thereof, for the time being entitled to receive notice of a meeting of the Board or committee, shall be valid and effective as if it had been passed at a meeting of the Board or committee, duly convened and held.

Chief Executive Officer, Manager, Company Secretary or Chief Financial Officer

74. Subject to the provisions of the Act, —

(i) A chief executive officer, manager, company secretary or chief financial officer may be appointed by the Board for such term, at such remuneration and upon such conditions as it may think fit; and any chief executive officer, manager, company secretary or chief financial officer so appointed may be removed by means of a resolution of the Board;

(ii) A director may be appointed as chief executive officer, manager, company secretary or chief financial officer.

75. A provision of the Act or these regulations requiring or authorising a thing to be done by or to a director and chief executive officer, manager, company secretary or chief financial officer shall not be satisfied by its being done by or to the same person acting both as director and as, or in place of, chief executive officer, manager, company secretary or chief financial officer.

Managing Director(s) and/or Whole Time Directors

75A. (i) The Board may from time to time and in accordance with the applicable provisions of the Act, appoint one or more of the Directors to the office of the managing director and/or whole-time directors for such term and subject to such remuneration, terms and conditions as they may think fit.

(ii) The Directors may from time to time resolve that there shall be either one or more managing directors and/ or whole-time directors.

(iii) In the event of any vacancy arising in the office of a managing director and/or whole-time director, the vacancy shall be filled by the Board of Directors subject to the approval of the Members.

(iv) If a managing director and/or whole-time director ceases to hold office as Director, he shall ipso facto and immediately cease to be managing director/whole time director.

(v) The managing director/whole time director shall subject to the supervision, control and direction of the Board and subject to the provisions of the Act, exercise such powers as are exercisable under these Articles by the Board of Directors, as they may think fit and confer such power for such time and to be exercised as they may think expedient and they may confer such power either collaterally with or to the exclusion of any such substitution for all or any of the powers of the Board of Directors in that behalf and may from time to time revoke, withdraw, alter or vary all or any such powers. The managing Directors/ whole time Directors may exercise all the powers entrusted to them by the Board of Directors in accordance with the Board's direction.

75B. Subject to Applicable Laws, a person may at the same time, be appointed or re-appointed as the Chairperson of the Board as well as the Managing Director in the Company.

The Seal

76. (i) The Board shall provide for the safe custody of the seal.

(ii) The seal of the company shall not be affixed to any instrument except by the authority of a resolution of the Board or of a committee of the Board authorised by it in that behalf, and except in the presence of at least two directors and of the secretary or such other person as the Board may appoint for the purpose; and those two directors and the secretary or other person aforesaid shall sign every instrument to which the seal of the company is so affixed in their presence.

[Explanation. - : For the purposes of this sub-paragraph it is hereby clarified that on and from the commencement of the Companies (Amendment) Act, 2015 (21 of 2015), i.e. with effect from the 29th May, 2015, company may not be required to have the seal by virtue of registration under the Act and if a company does not have the seal, the provisions of this sub-paragraph shall not be applicable.]

Dividends and Reserve

77. The company in general meeting may declare dividends, but no dividend shall exceed the amount recommended by the Board.

78. Subject to the provisions of section 123, the Board may from time to time pay to the members such interim dividends as appear to it to be justified by the profits of the company.

79. (i) The Board may, before recommending any dividend, set aside out of the profits of the company such sums as it thinks fit as a reserve or reserves which shall, at the discretion of the Board, be applicable for any purpose to which the profits of the company may be properly applied, including provision for meeting contingencies or for equalizing dividends; and pending such application, may, at the like discretion, either be employed in the business of the company or be invested in such investments (other than shares of the company) as the Board may, from time to time, thinks fit.

(ii) The Board may also carry forward any profits which it may consider necessary not to divide, without setting them aside as a reserve.

80. (i) Subject to the rights of persons, if any, entitled to shares with special rights as to dividends, all dividends shall be declared and paid according to the amounts paid or credited as paid on the shares in respect whereof the dividend is paid, but if and so long as nothing is paid upon any of the shares in the company, dividends may be declared and paid according to the amounts of the shares.

(ii) No amount paid or credited as paid on a share in advance of calls shall be treated for the purposes of this regulation as paid on the share.

(iii) All dividends shall be apportioned and paid proportionately to the amounts paid or credited as paid on the shares during any portion or portions of the period in respect of which the dividend is paid; but if any share is issued on terms providing that it shall rank for dividend as from a particular date such share shall rank for dividend accordingly.

(iv) That there shall be no forfeiture of unclaimed dividends before the claim becomes barred by law.

81. The Board may deduct from any dividend payable to any member all sums of money, if any, presently payable by him to the company on account of calls or otherwise in relation to the shares of the company.

82. (i) Any dividend, interest or other monies payable in cash in respect of shares may be paid by cheque or warrant sent through the post directed to the registered address of the holder or, in the case of joint holders, to the registered address of that one of the joint holders who is first named on the register of members, or to such person and to such address as the holder or joint holders may in writing direct.

(ii) Every such cheque or warrant shall be made payable to the order of the person to whom it is sent.

83. Any one of two or more joint holders of a share may give effective receipts for any dividends, bonuses or other monies payable in respect of such share.

84. Notice of any dividend that may have been declared shall be given to the persons entitled to share therein in the manner mentioned in the Act.

85. No dividend shall bear interest against the company.

Accounts

86. (i) The Board shall from time to time determine whether and to what extent and at what times and places and under what conditions or regulations, the accounts and books of the company, or any of them, shall be open to the inspection of members not being directors.

(ii) No member (not being a director) shall have any right of inspecting any account or book or document of the company except as conferred by law or authorised by the Board or by the company in general meeting.

Winding up

87. Subject to the provisions of Chapter XX of the Act and rules made thereunder—

(i) If the company shall be wound up, the liquidator may, with the sanction of a special resolution of the company and any other sanction required by the Act, divide amongst the members, in specie or kind, the whole or any part of the assets of the company, whether they shall consist of property of the same kind or not.

(ii) For the purpose aforesaid, the liquidator may set such value as he deems fair upon any property to be divided as aforesaid and may determine how such division shall be carried out as between the members or different classes of members.

(iii) The liquidator may, with the like sanction, vest the whole or any part of such assets in trustees upon such trusts for the benefit of the contributories if he considers necessary, but so that no member shall be compelled to accept any shares or other securities whereon there is any liability.

Indemnity

88. Every officer of the company shall be indemnified out of the assets of the company against any liability incurred by him in defending any proceedings, whether civil or criminal, in which judgment is given in his favour or in which he is acquitted or in which relief is granted to him by the court or the Tribunal.

Dematerialisation of Securities

89. (i) Notwithstanding anything contained in these Articles, the Company shall be entitled to dematerialize /rematerialize its securities and to offer securities in dematerialized form pursuant to the Depositories Act, 1996.

(ii) All securities held by a Depository shall be dematerialized and shall be in fungible form. No certificate shall be issued for the securities held by the Depository.

(iii) Where the securities are dealt with in dematerialized form with a Depository, the Company shall intimate the details of allotment of relevant securities to the Depository on allotment of such securities.
